2. **A description of the proposed broadband project plan.**

This project would provide broadband service at 4 Mbps download and 1 Mbps upload to approximately 137 living units in the Valley Exchange.

3. **A description of which areas are "unserved" or "underserved."**

Based on the end-of-year 2013 data from the National Telecommunications and Information Administration, the proposed project area encompasses some areas that are currently unserved and some areas that are currently served by broadband service at varying speeds. Please see the Application Template for the census blocks that will be impacted by this project.

4. **A list in Excel Format of all the census blocks where broadband facilities would be deployed for the proposed project.**

Please see the Application Template.

5. **An estimate of the number of potential new broadband subscribers.**

This project will provide broadband service to approximately 137 living units, of which CenturyLink believes that approximately 127 living units currently do not have access to broadband at any speed and approximately 1 living unit currently has access to broadband at speeds less than 3 Mbps download. CenturyLink believes the remaining living units currently have access to broadband at speeds greater than 3 Mbps download.
