

Box Butte County

Alliance, Nebraska

January 8, 2010

Members of the Public Service Commission:

The Box Butte County Commissioners have reviewed the Opinion and Findings of the Public Service Commission regarding the revised plan to distribute wireless E911 funds directly to the PSAPs.

We have concerns over future problems with the next generation of equipment. How will it will be maintained and who will be responsible for purchasing the equipment after 2013.

We are strongly opposed to increasing the landline surcharge to the maximum \$1.00/line. Furthermore it is confusing why the landline surcharge has to be increased in order to access funds from the surcharge on cell phones.

Thank you for your consideration.

Box Butte County Commissioners,

Casper Brixius, Chairman *CB*

Marvin Toedtli, Vice-Chairman *MT*

Charles Weston, Member *CW*
