Stanton, NE. 68779

Section 2 – Project Description

Cable TV of Stanton, controlled by the same ownership as Stanton Telecom, Inc., proposes to provide voice and Broadband capability to the proposed funded service area by constructing a WiMAX standard, fixed wireless Broadband distribution system utilizing 3.65 GHz wireless spectrum. The system as designed is capable of providing services up to 10 Mbps in the downstream direction and 5 Mbps in the upstream direction.

The system will utilize fiber-optic cabling to connect the voice and data network distribution equipment for the project to the existing voice and IP network equipment located at the Stanton Telecom central office located in Stanton, NE. The proposed fiber optic cable will be an extension of an existing fiber cable located south of the Elkhorn River near Pilger, NE.
