Lincoln, NE 68508

Re: Application No. NUSF-92
Progression Order No. 3

Dear Mr. Meradith:

Pursuant to the procedure set forth by the Nebraska Public Service Commission (Commission) in its Order entered September 3, 2014 in Application No. NUSF-92, Progression Order No. 3, CenturyLink is pleased to submit three individual applications for the extension of proposed broadband services to unserved and underserved exchange areas. CenturyLink's proposed broadband projects are located in its Bennington, Elkhorn and Valley serving areas.

The Commission has identified several attachments which are to be included with each application. CenturyLink has included Attachment A with each broadband deployment proposal and has clearly marked the information in its submissions it considers to be confidential and trade secret. A redacted paper copy of each application will be provided to the Commission for public distribution.

Please contact me at (651) 312-5311 with any questions you, the Commissioners, or the Commission Staff may have about these applications.

Sincerely,

A handwritten signature in blue ink that reads "Cathy Clucas".

Cathy Clucas
