RE: Rule and Regulation #182

With regards to the above captioned Rule, I would like to make the following points.

003.03A The cargo insurance of \$5000.00 is not enough. A minimum of \$50,000 should be the amount.

004 The application fee should be set at \$1000.00.

007.02 We file Income Tax returns with the I.R.S. each year. There is no reason another governmental agency should require an annual report showing revenues and expenses for the year since the Federal government would have that information.

.008.02A8 If a carrier needs extra equipment, generally it would be temporary and in an emergency. How fast would the Commission get the quadruplicate copies approved and returned? This seems redundant since the leasing companies do a stand up job on their paperwork.

I would like to have had more time to expand, but this being our peak season there are not enough hours in the day.

Respectfully,

Dennis Leslie
