Hello, I am calling today on behalf of Reform for Nebraska's Future a coalition working to support property tax reform in Nebraska.

Are you tired of high property taxes that only increase with each passing year? According to recent data from the Nebraska Department of Revenue, property taxes have increased by 60 percent over the last decade, outpacing increases to wages and inflation. Increases like this are not sustainable for Nebraska property owners. If you are concerned about high property taxes, please PRESS 1 to tell your Senator to make property tax reform THE PRIORITY during the current legislative session.
