

Draft – Automated Call – Keystone – Nebraska – 071417 - Revised  
To be delivered – 07/21/17

This is \_\_\_\_\_ calling on behalf of the American Petroleum Institute. 1220 L St. NW,  
Washington DC 20005

America needs energy to power our farms, our factories – and even our families. Developing safe and effective ways to transport that energy is key to our economic future.

The Keystone XL Pipeline can help provide that future. Not only will it safely transport oil, but it will also provide tens of thousands of good paying jobs and provide millions in revenues for local communities and schools.

Unfortunately – Washington bureaucrats have played politics with Keystone for years – but now is your chance to have your voice heard.

Please visit the Nebraska Public Service Commission’s website at [psc.nebraska.gov](http://psc.nebraska.gov) - and follow the links for KXL Pipeline Information and submit your comment in support of the Keystone XL Pipeline.
