

Hi, I'm calling on behalf of D-C-C-C and I'm calling because Representative Bacon just voted to allow internet providers, like Comcast and Verizon, to sell your sensitive personal information to other companies – all without your consent. Thanks to House Republicans, your internet browsing history, personal health and financial information and even location, can be sold to the highest bidder. Call Representative Bacon to ask why he cares more about corporations than your personal privacy.

Paid for by D-C-C-C, (202) 863-1500, Not authorized by any candidate or candidate's committee.
