

Attention Nebraska Gun Owners,

This is Dudley Brown with the National Association for Gun Rights at (877) 405-4570.

Will your U.S. Senator Ben Sasse -- a Republican -- back the Feinstein/Cornyn gun control "deal" which has been introduced in the U.S. Senate?

I hope not, but Feinstein's bill is moving through Congress at lightning speed and Senator Sasse is on a critical committee that can stop this gun control bill in its tracks.

This bill aims to create a national gun control "super database" that can strip potentially millions of law-abiding Americans of their Second Amendment rights without any due process.

Not only that, but it can be used by gun-grabbing politicians to ram through additional anti-gun amendments such as magazine restrictions, a bump-stock ban, or even a so-called "assault-weapons" ban.

Press one to be connected to Senator Sasse. Urge him to publicly oppose Senate Bill 2135; the Feinstein/Cornyn gun control scheme.

Again press one to be connected to Senator Sasse or call him directly at (202) 224-4224. Urge him to publicly oppose Senate Bill 2135; the Feinstein/Cornyn gun control scheme.

This message was paid for by the four million members and supporters of the National Association for Gun Rights.
