

Hello, I'm calling on behalf of the American Action Network at 800-339-4650 with an important legislative update. Yesterday, Congress released a new tax reform proposal to simplify the tax code and cut middle class taxes. The new plan will lower tax rates, nearly double the standard deduction for America's hardworking families, and enhance the Child Tax Credit. These are exactly the changes that are needed to bring back job from overseas and keep the economy growing.

Please contact your Congressman <<NAME>> at <<Phone Number>> and tell him to keep fighting for tax reform that simplifies the tax code and cuts middle class taxes
