15. Applicant submits the following reasons in support of its belief that the public interest will be served by the approval of this application:

(a) Applicant's proposed intrastate telecommunications services are developed to serve the long distance needs of subscribers who cannot otherwise realize similar cost savings through major carriers.

(b) An increase in the traffic generated through provision of applicant's proposed intrastate services over existing major carriers' communications facilities will improve the efficiency and reduce major carriers' costs in provision of these services.

(c) The public will benefit from greater consumer choice created through the broadening of innovative telecommunications service alternatives and ongoing affordable rates maintained by the additional competitive pressure placed on other competitors.

(d) Local exchange carriers will realize greater access charge revenues through the increase in traffic.

16. The information contained in the application and in the exhibits fully describes applicant's business and its ability to provide end-users and customers in Nebraska with a viable and economical alternative telecommunications service.

17. By this application and exhibits, applicant demonstrates that it has the resources and ability to provide its services for the benefit of the public.

WHEREFORE, BlahBlah Communications, Inc. requests that the Nebraska Public Service Commission enter an order granting a certificate authorizing BlahBlah Communications, Inc. to operate as an interexchange carrier of telecommunications services pursuant to Section 86-129 (2006 Cum Supp), and Title 291, Article 5 § 003.12A, of the Nebraska Public Service Commission Telecommunications Rules and Regulations.
