

# 2024-2025 Precision Agriculture Infrastructure Grant (PRO-AG) Grant Application (Docket C-5600)

Submit signed PDF applications with all attachments via email to <a href="mailto:psc.broadband@nebraska.gov">psc.broadband@nebraska.gov</a> by **January 17, 2025, 5:00 p.m. Central Time**.

**IMPORTANT:** Applicants must carefully review the PRO-AG Program Guide and PRO-AG Scoring Reference Sheet for details on application requirements and scoring. This includes but is not limited to application field descriptions, attachment content, and other necessary documentation and requirements. These resources, along with examples of allowed and disallowed costs are available on our website at <a href="https://psc.nebraska.gov/telecommunications/2024-2025-precision-agriculture-infrastructure-grant-program-c-5600">https://psc.nebraska.gov/telecommunications/2024-2025-precision-agriculture-infrastructure-grant-program-c-5600</a>.

If additional space is needed for any section of the application, you may include extra pages if needed, noting the application Section, Subsection, and Field Number on the attachment.

NOTE: This application is a fillable PDF and should be submitted in its original format, rather than as a printed or scanned copy. If technical difficulties or other challenges prevent you from submitting the form in this format, please contact us to discuss alternative solutions.

#### **Subprogram Descriptions:**

Connectivity Subprogram: Grants within the Connectivity Subprogram shall be used to provide adequate precision agriculture connectivity to on-farm structures and devices, including, but not limited to, tractors, combines, irrigation systems, livestock facilities, and farm offices. Adequate precision agriculture connectivity means at least 100 megabits per second download and 20 megabits per second download speeds (100/20 Mbps).

Note: Applications for the Connectivity Subprogram are permitted from Providers. Agricultural Cooperatives, Agronomists, and Agricultural Producers may apply only if partnered with a Provider.

<u>Devices and Technology Subprogram</u>: Grants within the Devices and Technology Subprogram shall be used to provide: (1) On-farm traceability solutions that satisfy food supply stakeholder demand, including blockchain. (2) Products that improve soil health, water management tools and sensors that facilitate judicious use of water resources, and products that promote the use of water efficiency seed technologies that lower agriculture's water, carbon, and nitrate footprint. (3) Products that use autonomous solutions in agricultural machinery, including but not limited to, grain carts, spreaders, precision drone scouting, and scouting robots.

NOTE: Each subprogram is designed to fulfill a specific purpose, and applicants can submit multiple project proposals in separate submissions. However, applicants must apply separately for each subprogram. It is important to note that each application will be assessed individually, and there will be no priority given to applicants who choose to apply for grants in both subprograms. Each application will be considered on its own merits within the subprogram in which it was filed.

#### **Eligible Applicant Types:**

- <u>Provider</u>: A wireless network provider that provides adequate precision agriculture connectivity. Proof needed: Proof of business registration and service authorization in Nebraska.
- <u>Agricultural Cooperatives</u>: A business entity that is cooperatively owned and controlled by agricultural producers, in
  which members' resources are pooled, and which operates for its members' benefit rather than the benefit of
  outside investors. Proof needed: Articles of incorporation, membership information, and proof of registration as a
  cooperative in Nebraska.
- <u>Agronomist</u>: A scientist who specialized in the science of farming, including but not limited to crop production, soil control, or soil management. Proof needed: Professional certifications, degrees in relevant fields, and portfolio of agriculture-related projects.
- <u>Agricultural Producer</u>: An individual or entity directly engaged in the production of agricultural products, including
  the cultivating, growing, and harvesting of plants and crops, including farming; breeding, raising, feeding, or
  housing of livestock, including ranching; forestry products; hydroponics; nursery stock; or aquaculture, and whereby
  50 percent or greater of their gross income is derived from these products. Proof needed: See "Agricultural
  Producer Affidavit" on our website.

| Section II Project Details - Subsection A: Applies to Connectivity subprogram ONLY   |     |
|--|-----|
| 1. Farm Site Size (acres):   |     |
| 2. Number of Key Operational Locations:  |     |
| 3. Number of Connected On-Farm Entities:   |     |
| 4. Current maximum connection speed bandwidth in project area in Mbps:  (Must be < 25/3 Mbps)  |     |
| 5. Speeds upon completion: (Must be $\geq$ 100/20 Mbps)  |     |
| 6. Do you certify that the farm site(s) to be served are currently unserved or lacking broadband Internet service at speeds of at least 25/3 Mbps download/upload?   |     |
| 7. Do you certify that upon completion of the project, the farm site(s) served by the project will have access to minimum speeds of 100/20 Mbps for precision agriculture connectivity to on-farm structures and devices, as required by Neb. Rev. Stat. § 86-1404(2)(a)?  NOTE: If the FCC National Broadband Map indicates that the location is already receiving speeds of 25/3Mbps or higher, applicants are required to submit evidence refuting the data on the broadband map. (Include as Attachment F)                 |     |
| Section III: Technical Summary (Applicants must complete the relevant subsection)  |     |
| Section III: Technical Summary – Subsection A: Applies to Devices and Technology subprogram Of   | VLY |
| 1. Applicant's Experience: Overview of the applicant's experience and expertise in precision agriculture devices antechnology solutions, specifically as related to the devices/technology included in the application. In cases where applicant lacks direct experience, an explanation is required on how they plan to acquire the necessary skills and knowledge to operate the equipment effectively. Provide details of past successful projects or initiatives related to precision agriculture or similar technologies. | the |

Page 6 of 25 Rev. Nov 2024

| 2. Program Details: Provide details about the proposed program involving precision agriculture devices and technology, including specifications and technical requirements. Include an explanation of how the chosen |
|--|
| technologies align with the goals of the project.  |

| Section VI: Financial Projections (Applies to all applicants)  |
|--|
| 1. Provide comprehensive financial projections for the project. This should include both short-term (1-3 years) and long-term (4+ years) forecasts, detailing anticipated costs, revenues, and key financial health indicators such as net cash flow and profitability ratios. The projections should demonstrate a realistic estimate of income and expenses and the overall financial impact of the project. |

| Section VIII: Monitoring and Evaluation (Applies to all applicants)   |  |
|---|--|
| 1. Clearly list the major milestones that will be used to track the progress of your project. This should include a timeline for deployment of connectivity OR devices and technology. Each milestone should include an expected completion date. Examples: (1) Installation of connectivity infrastructure by [insert date]. (2) Deployment of smart sensors by [insert date]. (3) Full project implementation by [insert date]. |  |

|   |  |
|   |  |
|   |  |
|   |  |

Page 22 of 25 Rev. Nov 2024

| 2. Identify the specific Key Performance Indicators (KPIs) that will be used to measure the success of the project         |
|--|
| following implementation. Each KPI should be measurable and aligned with the project's objectives. Examples: (1)           |
| [X]% increase in crop yield by [insert date]. (2) [X]% reduction in water usage within [insert time frame]. (3) [X] number |
| of devices connected to the system by [insert date]. (4) [X]% improvement in farm operational efficiency by [insert        |
| date].   |
