To Whom it Concerns,

I am writing to express my strong support for ALLO Communication's Nebraska Broadband Bridge Program grant application to provide broadband internet service between Fremont and Schuyler. Expanding broadband in the Fremont area is important for our current population and crucial as our community continues to grow.

This project will provide updated broadband service to the area through an all Fiber-to-the-Premise network and will deliver improved download and upload speeds for Fremont area residents and businesses. The project includes providing service to the Royal Estates Subdivision outside of Fremont, currently an underserved area.

I urge your strongest consideration of this application for broadband internet service between Fremont and Schuyler. My support demonstrates that our community understands the need for and importance of this broadband project.

Sincerely,

A handwritten signature in blue ink that reads "Joey Spellerberg".

Mr. Spellerberg,

ALLO Communications intends to apply to the Nebraska Public Service Commission for a [Nebraska Broadband Bridge Program](#) grant to provide broadband internet service between Fremont and Schuyler, which would include the Royal Estates Subdivision outside of Fremont.

ALLO will provide broadband service to the area through an all Fiber-to-the-Premise network, including ubiquitous 1+ Gbps service with symmetrical speeds (delivering the same download and upload speeds).

We would welcome a letter of support for the project. I have attached sample letters from other community leaders from previous grant cycles.

If you would be interested in doing so, please respond to this email by **COB Friday, July 5**.

If you have any questions regarding the proposed project, please feel free to contact me or Regional General Manger Dave Miller.

If you have any questions regarding the Nebraska Broadband Bridge grant program, please email psc.broadband@nebraska.gov.

Sincerely,

Jody Hoops
New Markets Administrator
