PREFACE

Revisions to this tariff are coded through the use of symbols. These symbols appear in the right margin of the page. The symbols and their meaning are as follows:

EXPLANATION OF SYMBOLS

- C to signify a changed regulation or tariff
- D to signify discontinued rate, regulation or text
- N to signify new rate and/or new regulation, and/or new text
- T to signify a change in text but no change in rate or regulation

1. APPLICATION OF TARIFF

1.1 APPLICATION

1.1.1 General

This tariff contains the prices, terms and conditions applicable to Casual Calling and Initial Subscription Services provided to business Customers for calling between two or more stations within the state of Nebraska.

The prices, terms and conditions listed in this tariff are applicable for services provided pursuant to this tariff. When services are not provided pursuant to a filed tariff, the prices, terms and conditions shall be offered pursuant to a Services Agreement contract. The agreements are provided at <http://www.att.com/servicepublications>. Price lists can also be found via this link.

1.1.2 Jurisdiction

This tariff is on file with and covers the use of the services subject to the jurisdiction of, the Nebraska Public Service Commission.

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE COMPANY

2.1.1 General

Casual Calling/Initial Subscription Services are furnished for the transmission of voice communications, but may also be used for data, facsimile, signaling, metering, or other similar communications, subject to the transmission capabilities of the service.

Casual Calling/Initial Subscription Services are available twenty-four hours a day, seven days per week.

The Company does not transmit messages. However, Casual Calling/Initial Subscription Services may be used for that purpose.

2.1.2 Transmission Medium

The Company selects and/or arranges for the channels and/or service components used to provide Casual Calling/Initial Subscription Services. Any suitable technology or combination of technologies may be used. The Company may modify or change the channels and/or service components used to furnish Casual Calling/Initial Subscription Services at any time subject to the regulations in 2.3. of this tariff.

2.1.3 Provision of Customer Equipment

Customer equipment may be used with Casual Calling/Initial Subscription Services. The Company does not provide Customer equipment.

2.1.4 Through Transmission of Signals

The Company is responsible for the provision of Casual Calling/Initial Subscription Services from station to station. It is not responsible for the quality of transmission or signaling on the Customer's side of the interface at a Customer's premises.

2. GENERAL REGULATIONS

2.1 UNDERTAKING OF THE COMPANY (continued)

2.1.5 Availability of Casual Calling/Initial Subscription Services

A. Availability

1. Service will be provided where facilities and billing capability are available.
2. Service is furnished subject to the availability of the service components required. The Company will determine which of those components shall be used and make modifications to those components at its option. "Service components" shall include, but not be limited to, the existence of access and/or billing arrangements on an originating and/or terminating basis. In the absence of access arrangements between the Company and the access provider at a particular Station, a Customer may be unable to place calls from or to the affected Station.

B. Restoration of Service

The use and restoration of Casual Calling/Initial Subscription Services will be in accordance with Part 64, Subpart D, of the Federal Communications Commission's Rules and Regulations.

---

2. GENERAL REGULATIONS

2.2 USE

2.2.1 General

Casual Calling/Initial Subscription Services may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications network. Casual Calling/Initial Subscription Services are furnished for use by the Customer but may be used by others when so authorized by the Customer.

2.2.2 Abuse

The abuse of Casual Calling/Initial Subscription Services is prohibited. The following activities constitute abuse:

- A. Using Casual Calling/Initial Subscription Services to make calls which might reasonably be expected to frighten, abuse, torment, or harass another, or
- B. Using Casual Calling/Initial Subscription Services in such a way that it interferes unreasonably with the use of other Company service(s).

2.2.3 Fraudulent Use

The fraudulent use of, or the intended or attempted fraudulent use of, Casual Calling/Initial Subscription Services is prohibited. The following activities constitute fraudulent use:

- A. Using Casual Calling/Initial Subscription Services to transmit a message, locate a person, or otherwise give or obtain information, without payment for the services,
- B. Using or attempting to use Casual Calling/Initial Subscription Services with the intent to avoid the payment, either in whole or in part, of the tariffed charges for the services by:
  - 1. Rearranging, tampering with, or making connections not authorized by this tariff to any service components used to furnish Casual Calling/Initial Subscription Services, or
  - 2. Using fraudulent means or devices, tricks, schemes, false or invalid number, false credit devices, or electronic devices.

2. GENERAL REGULATIONS

2.3 RESPONSIBILITIES OF THE COMPANY

2.3.1 Liability

- A. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with the installation, provision, termination, maintenance, repair or restoration of Casual Calling/Initial Subscription Services, and subject to the provisions of B. through G. following, the Company's liability, if any, shall not exceed an amount equal to the initial period charge provided for under this tariff for the Casual Calling/Initial Subscription Services call for the period during which the call was affected.
- B. The Company is not liable for damages associated with service, channels, or equipment which it does not furnish.
- C. The Company is not liable for damages to a premises resulting from the furnishing of Casual Calling/Initial Subscription Services, including the installation and removal of equipment and associated wiring, unless the damage is caused by the Company's negligence.
- D. The Company shall be indemnified, defended, and held harmless by the Customer and user against all claims, losses, or damages arising from the use of Casual Calling/Initial Subscription Services furnished pursuant to this tariff, involving:
  - 1. Claims for libel, slander, invasion of privacy, or infringement of copyright arising from any communication;
  - 2. Claims for patent infringement arising from combining or using Casual Calling/Initial Subscription Services furnished by the Company in connection with facilities or equipment furnished by others; and/or
  - 3. All other claims arising out of any act or omission of others relating to Casual Calling/Initial Subscription Services provided pursuant to this tariff.
- E. The Company does not guarantee or make any warranty with respect to Casual Calling/Initial Subscription Services when used in an explosive atmosphere. The Company shall be indemnified, defended, and held harmless by the Customer and user against all claims, losses or damages by any person relating to Casual Calling/Initial Subscription Services provided pursuant to this tariff when used in an explosive atmosphere.

2. GENERAL REGULATIONS

2.3 RESPONSIBILITIES OF THE COMPANY (continued)

2.3.1 Liability (continued)

- F. No license under patents (other than the limited license to use) is granted by the Company or shall be implied or arise by estoppels, with respect to any service offered under this tariff. The Company will defend the Customer and user against claims of patent infringement arising solely from the use by the Customer or user of Casual Calling/Initial Subscription Services offered under this tariff and will indemnify such Customer or user for any damages awarded based solely on such claims.
- G. The Company's failure to provide or maintain service under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, acts of God, and other circumstances beyond the Company's reasonable control.
- H. The Company shall not be liable for errors in transmitting, translating, receiving or delivering messages by telephone, Text Telephone (TT) or any other instrumentality over the facilities of the Company, connecting utilities or through a Telecommunications Relay Service (TRS) center.

2. GENERAL REGULATIONS

2.4 RESPONSIBILITIES OF THE CUSTOMER

2.4.1 General

The Customer's general responsibilities are described in this section. When Customer equipment or a Customer-provided communications system is connected to Casual Calling/Initial Subscription Services, the Customer assumes additional responsibilities that are described in the "Connections" section of this tariff (see 2.7. of this tariff).

A. Payment of Bills and Compliance with Regulations

The Customer is responsible for placing any necessary orders and complying with tariff regulations for Casual Calling/Initial Subscription Services and for assuring that its users comply with applicable regulations. The Customer is also responsible for the payment of bills for Casual Calling/Initial Subscription Services. This includes payment for Casual Calling/Initial Subscription Services calls or services originated or received at the Customer's number(s).

B. Establishing Identity

1. The calling party is responsible for establishing its identity as often as necessary during the course of a call.
2. The calling party assumes full responsibility for identifying the station, party, or person with whom connection is made at the called number or numbers.

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES

2.5.1 General

Applicable prices and charges are contained in the Price List section of this tariff.

2.5.2 Application of Charges

The prices and charges that are in effect in this tariff when Casual Calling/Initial Subscription Services are furnished are the prices and charges used to determine the Customer's bill.

2.5.3 Payment of Charges

Payment for Casual Calling/Initial Subscription Services is due upon presentation of the bill. Casual Calling/Initial Subscription Services may be denied for nonpayment of a bill, (see Violation of Regulations, 2.9.).

2.5.4 Late Payment Charge

If any portion of the Customer's payment is received by the Company after the payment due date, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, a Late Payment Charge shall be due to the Company, provided billing capability exists. The Late Payment Charge shall be the portion of the payment not received within 30 calendar days of the invoice date, multiplied by a factor. The late payment factor shall be 1.5% per month (18% annually) and will apply to all amounts in excess of \$25.00 previously billed on a Customer's bill, including arrears and Late Payment Charges, and which remain unpaid. The minimum Late Payment Charge is \$5.00.

Late Payment Charges do not apply to the disputed portion of unpaid balances, if resolved in favor of the Customer. The disputed portion of unpaid balances, if resolved in favor of the Company, may be subject to the Late Payment Charge as of the original due date noted on the Customer's bill. Undisputed amounts of the same bill may be subject to the late Payment Charge if they remain unpaid by the due date noted on the Customer's bill.

If the Customer files a complain with the Nebraska Public Service Commission, Late Payment Charges do not apply to the disputed portion of the unpaid balances regardless in whose favor the dispute is resolved.

Collection procedures and security deposit requirements are unaffected by the application of the Late Payment Charge.

The Late Payment Charge does not apply to final accounts.

2. GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (continued)

2.5.5 Universal Service Charge

This surcharge is for the purpose of funding the Nebraska Universal Service Fund (NUSF) and applies to all intrastate retail telecommunications services purchased by end-users.

The Nebraska Universal Service Charge is 6.95%. It will appear on telephone bills as NE Universal Service.

2.5.6 Instate Connection Fee

An Instate Connection Fee of \$2.99 will be assessed to customers who subscribe to AT&T Commercial Long Distance. This fee will be charged to all customers who incur at least \$0.01 of long distance usage or long distance charges on their monthly bill. Billed charges can be in the form of billed usage or a billed monthly fee. This fee does not apply to customers that subscribe to only AT&T Local Services.

2.6 USE OF ANOTHER MEANS OF COMMUNICATIONS

If the Customer elects to use another means of communication during a period of interruption of Casual Calling/Initial Subscription Services, the Customer must pay the charges for the alternative service used.

---

2. GENERAL REGULATIONS

2.7 CONNECTIONS

2.7.1 General

When Customer equipment is connected to Casual Calling/Initial Subscription Services it must comply with Part 68 of the F.C.C.'s Rules and Regulations, 47 C.F.R. Part 68 (commonly known as the F.C.C.'s Registration Program). When any equipment or system which is not subject to Part 68 of the F.C.C.'s Rules and Regulations is connected, the minimum protection criteria specified in this tariff must be met.

The Company is responsible for the quality of transmission from station to station.

2.7.2 Responsibilities of the Customer

When Customer equipment or a Customer-provided communications system is connected to Casual Calling/Initial Subscription Services, the Customer assumes responsibility for the connection as follows:

A. Compatibility with Casual Calling/Initial Subscription Services

The Customer is responsible for the compatibility of its equipment or system with Casual Calling/Initial Subscription Services. This responsibility applies at the initial installation and on a continuing basis as long as the connection is made.

B. Interference and Hazard

The operating characteristics of the Customer equipment or Customer-provided communications system connected to Casual Calling/Initial Subscription Services must not interfere with, or impair, any of the services offered by the Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of Casual Calling/Initial Subscription Services.

C. Changes to Casual Calling/Initial Subscription Services

The Company is not obligated to alter or modify Casual Calling/Initial Subscription Services because of additions or changes to Customer equipment or a customer-provided communications system.

---

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.2 Responsibilities of the Customer (continued)

D. Testing and Maintenance

If a trouble condition occurs on an assembly, the Customer must determine whether the fault is in (1) the connected Customer equipment or Customer-provided communications system, or (2) Casual Calling/Initial Subscription Services. The Company will test and maintain only Casual Calling/Initial Subscription Services.

The testing of Casual Calling/Initial Subscription Service will usually be made from a central office. The Company will not dispatch a repair person to a customer's or user's premises if a trouble condition (or suspected trouble condition) exists on the local exchange service. The customer is responsible for requesting such dispatch from the provider of the local exchange service. The customer is also responsible for the payment of such provider's charges, if any, for the dispatch.

2.7.3 Responsibilities of the Company

A. General

The Company will furnish and maintain its service components in a manner suitable for Casual Calling/Initial Subscription Services. The Company will make available information as required by Part 68 of the F.C.C.'s Rules and Regulations (e.g., the number of ringers that may be connected to a particular line). In addition, the Company will be responsible for the compatibility of its equipment or services with the Casual Calling/Initial Subscription Service when such equipment or services are connected to the Casual Calling/Initial Subscription Service at a central office.

B. Changes in Components, Operations, or Procedures

The Company is not responsible to any party if a change in its Casual Calling/Initial Subscription Services components, operations, or procedures, which is consistent with the Registration Program, (1) affects any facilities, Customer equipment or customer-provided communications systems provided by others in any way, or (2) requires their modification in order to be used with Casual Calling/Initial Subscription Services. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the Casual Calling/Initial Subscription Services or render any Customer equipment or Customer-provided communications system incompatible with Casual Calling/Initial Subscription Services, the Company will provide adequate notice, in writing, to allow the Customer an opportunity to maintain uninterrupted service.

---

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.4 Recording of Two-way Telephone Conversations

Casual Calling/Initial Subscription Services is not represented as adapted to the recording of two-way telephone conversations. However, voice-recording equipment which is directly, acoustically or inductively connected with Casual Calling/Initial Subscription Services may be used for the recording of such conversations subject to the following regulations which have been adopted by the F.C.C.:

A. Recording Requirements

The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the Customer. In addition, one of the following conditions must apply:

1. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
2. A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when the recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

A broadcast licensee shall be exempt from the above recording requirements provided at least one of the following requirements is met:

- The licensee informs each party to the call of its intent to broadcast the conversation, or
- Each party to the call is aware of the licensee's intent to broadcast the call, or
- Such awareness of the licensee's intent to broadcast the call may be reasonably imputed to the party.

---

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.4 Recording of Two-Way Telephone Conversations (continued)

B. Exceptions

The F.C.C. established the following exceptions to the foregoing requirements:

1. Recordings made of incoming calls to telephone numbers publicized for emergencies involving health or safety of life and property (e.g., emergency situations involving fire, health care, police, public utilities and emergency road service) and outgoing calls made in immediate response to such calls. Included in this exception are:
  - a. Recordings made at the United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to Casual Calling/Initial Subscription Services and,
  - b. Recording made by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center.
2. Recordings of calls made for patently unlawful purposes, such as bomb threats, kidnap ransom requests and obscene telephone calls. Outgoing calls made in immediate response to such calls are also excepted. Included in this exception are:
  - a. Recordings made by the United States Secret Services of the Department of the Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.
3. Recordings of calls made by Federal, State or local law enforcement authorities, or federal intelligence authorities, acting under color of law.

2.7.5 Minimum Protection Criteria

A. General

Minimum Protection Criteria have been specified so that Company personnel, equipment, and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria apply to the direct electrical, acoustic, or inductive connections of Customer equipment, test equipment and Customer-provided communications systems to the network.

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.5 Minimum Protection Criteria (continued)

B. All Connections

Customer equipment, test equipment and Customer-provided communications systems which are connected to the network on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

1. To protect other Company services, it is necessary that the signal which is applied at the station meets the following limits:

a. Metallic Voltage

- (1) 4kHz to 270 KHz

Center Frequency (f) of 8 KHz Band	Max. Voltage in All 8 KHz Bands	Terminating Impedance
8 KHz to 12 KHz	- (6.4 + 12.6 log f) dBV*	300 ohms
12 KHz to 90 KHz	(23 - 40 log f) dBV	135 ohms
90 KHz to 266 KHz	- 55 dBV	135 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

- (2) The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 KHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

b. Longitudinal Voltage

- (1) 4 KHz to 270 KHz

Center Frequency (f) of 8 KHz Band	Max. Voltage in All 8 KHz Bands	Longitudinal Terminating Impedance
8 KHz to 12 KHz	- (18.4 + 20 log f) dBV*	500 ohms
12 KHz to 42 KHz	(3 - 40 log f) dBV	90 ohms
42 KHz to 266 KHz	- 62 dBV	90 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

- (2) The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 KHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

---

GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.5 Minimum Protection Criteria (continued)

2. To prevent the interruption or disconnection of a call, it is necessary that the signal power applied at the station be limited. Specifically, the signal at the station shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the station in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

C. Direct Electrical Connections

In addition to the regulations in B. preceding, Customer equipment, test equipment and Customer-provided communications systems which are connected to the network on a direct electrical basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the AT&T Central Office not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the Customer equipment, test equipment or Customer-provided communications system to the station will be specified for each Customer location. In no case shall the power exceed one milliwatt.

D. Acoustic or Inductive Connections

In addition to the regulations in B. preceding, Customer equipment and Customer-provided communications systems which are connected to the network on an acoustic or inductive basis must comply with the following:

1. To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the station located on the Customer's or user's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each Customer, independent of distance from the serving office, to supply signal power which at the serving office, approximates 12dB below one milliwatt when averaged over any three-second interval, the Company, at the Customer's request, will specify, for each Customer location, the signal power at the station, which shall in no case exceed one milliwatt.

---

2. GENERAL REGULATIONS

2.7 CONNECTIONS (continued)

2.7.6 Connection to a Customer-Provided Communications System or to Service(s) Provided by Others

Any system or service connected to a Casual Calling/Initial Subscription Service offering must be operated and maintained so it will work satisfactorily with the Casual Calling/Initial Subscription Service. Connections to a Casual Calling/Initial Subscription Service will be made in accordance with the following:

A. Answer Supervision

Answer supervision must be provided when a Casual Calling/Initial Subscription Service offering is connected to a switching equipment or a customer-provided communications system which is not subject to Part 68 of the F.C.C.'s Rules and Regulations, 47 C.F.R. Part 68. In such cases, the equipment or system must provide answer supervision so that the measure of chargeable time begins upon the delivery of the Casual Calling/Initial Subscription Service call to the switching equipment or to the equipment connected to the communications system and ends upon termination of the call by the calling party.

B. Minimum Protection Criteria

The connection at the station used for the Casual Calling/Initial Subscription Services must be made so that it continually complies with the specified Minimum Protection Criteria in this tariff following.

C. Customer-Provided Communications System Failures

When a customer-provided communications system fails and the connection to a Casual Calling/Initial Subscription Service is not through switching equipment, the customer-provided communications system must be arranged to promptly return the Casual Calling/Initial Subscription Service to an idle (on-hook) state. In addition, the customer must notify the Company when the customer-provided communications system fails.

D. Use of Satellite Facilities

If a customer-provided communications system uses satellite facilities (directly or indirectly) and is connected to a Casual Calling/Initial Subscription Service, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for any deterioration in transmission. It will continue to furnish the Casual Calling/Initial Subscription Services using the service components that it considers to be appropriate.

AT&T ENTERPRISES, LLC  
NEBRASKA  
BUSINESS SERVICES TARIFF

ISSUED: MAY 28, 2024  
EFFECTIVE: JUNE 8, 2024

SECTION 2  
ORIGINAL PAGE 16

---

2. GENERAL REGULATIONS

2.8 PRICE DETERMINATION

The price for a Casual Calling/Initial Subscription Services call is determined by factors such as:

- The distance between the rate centers of the originating (calling) station and the terminating (called) station; and, under certain conditions the distance between the V&H coordinates of an AT&T central office and the rate center of a station of the V&H coordinate of an AT&T central office;
- The time-of-day and the day-of-week; and
- The duration of the call.

The specific factors which apply to a given Casual Calling/Initial Subscription Services call and their application are listed in the Price List section applicable to that type of call. The regulations pertaining to those factors are as follows.

2.8.1 Time-of-Day and Day-of-Week

The price charged for a Casual Calling/Initial Subscription Services call may be determined in part by the day-of-week and the time-of-day at the originating (calling) station or at the AT&T central office associated with the originating (calling) station using special access. Different prices may be applicable to a call at different times of the day and on certain days of the week as specified in the appropriate price section for that call.

2. GENERAL REGULATIONS

2.8 PRICE DETERMINATION (continued)

2.8.2 Determining the Chargeable Time of a Call

The chargeable time for a Casual Calling/Initial Subscription Services call is determined by the duration of the call. Chargeable time includes the initial period plus the additional time involved, if any, and is determined as follows:

- A. On all calls, chargeable time begins when completed connection is established between the calling station and the called station.
- B. Chargeable time ends when the calling station "hangs up". If the called station "hangs up", but the calling station does not, chargeable time ends when the connection is released either by automatic timing equipment in the telecommunications network or by the Company operator.
- C. Initial minute rates for all calls are one minute or any fraction thereof.
- D. All additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

AT&T ENTERPRISES, LLC  
NEBRASKA  
BUSINESS SERVICES TARIFF

ISSUED: MAY 28, 2024  
EFFECTIVE: JUNE 8, 2024

SECTION 2  
ORIGINAL PAGE 18

2. GENERAL REGULATIONS

2.8 PRICE DETERMINATION (continued)

2.8.2 Determining the Chargeable Time of a Call (continued)

E. When Casual Calling/Initial Subscription Services are directly connected to a Customer-provided communications system at a Customer's or user's premises, chargeable time begins when a Casual Calling/Initial Subscription Services call terminates in, or passes through, the first Customer equipment on that Customer-provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the Casual Calling/Initial Subscription Services so that chargeable time may begin.

2.8.3 Determining the Applicable Price In Effect

- A. When a Casual Calling/Initial Subscription call is established in one price period and ends in another price period, the price in effect at the calling station for each price period applies to the portion of the call occurring within that price period. When a unit of time is split between two price periods, the price applicable to that unit of time is based on the price period in which it began.
- B. Chargeable time for a price period (e.g., 8:00 A.M. - 5:00 P.M.) begins with the first stated hour (e.g., 8:00 A.M.) and continues to, but does not include, the second stated hour (e.g., 5:00 P.M.).
- C. Prices are quoted in terms of initial and additional period for Day, Evening and Night/Weekend time periods in the Price List.

Rate Period Table

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to # 5:00 PM	DAY RATE PERIOD						
5:00 PM to #11:00 PM	EVENING RATE PERIOD						EVE
11:00 PM to # 8:00 AM	NIGHT & WEEKEND RATE PERIOD						

# to, but not including

---

2. GENERAL REGULATIONS

2.8 PRICE DETERMINATION (continued)

2.8.4 Use of Casual Calling/Initial Subscription Services For Resale or Shared Use

When Casual Calling/Initial Subscription Services are resold or shared, the Customer may advise its user that a portion of the Customer's service is provided by this Company. However, the Customer shall not represent that this Company jointly participates in the provision of the Customer's services.

2.9 VIOLATION OF REGULATIONS

2.9.1 General

The Company may take immediate action to protect its services or interests when certain regulations contained in this tariff are violated. The specific regulations involved and the action(s) which will be taken by this Company are as specified in 2.9.2. and 2.9.3., following.

2.9.2 Interference, Impairment or Improper Use

The Company may temporarily restrict service immediately when the Customer violation:

- Circumvents the Company's ability to charge for its services as specified in 2.2.3.B. (Fraudulent Use) preceding, or
- Results in an immediate harm to the network or other Company services as specified in 2.7.5. (Minimum Protection Criteria).

In such cases, the Company will make a reasonable effort to give the Customer prior notice before restricting service.

When a violation results in a denial for additional service and/or restriction of service, the denial and/or restriction will be removed when the Customer is in compliance with the regulation and so advises the Company.

2.9.3 Nonpayment of Charges

The Company may deny and/or restrict Casual Calling/Initial Subscription Services for nonpayment of charges due as specified in 2.5.3. (Payment of Charges) preceding. A written notice will be sent to the Customer at least five days in advance of the restriction and/or denial of Casual Calling/Initial Subscription Services. Upon payment of charges the restriction and/or denial of Casual Calling/Initial Subscription service will be removed.

2. GENERAL REGULATIONS

2.11 DEFINITIONS

Call

- a completed connection established between a calling station and one or more called stations.

Called Station

- the station (e.g. telephone number) called, or the terminating point of a call.

Calling Station

- the station (e.g. telephone number) from which a call is originated.

Company

- AT&T Enterprises, LLC

Customer

- the person or legal entity which orders service directly or through an agent.

Premises

- a building or buildings on continuous property (except railroad rights-of-way, etc.) not separated by a public thoroughfare.

Protective Circuitry

- discrete electrical circuitry that is within the scope of the Registration Program and is designed to protect Casual Calling/Initial Subscription Services from harm.

Rate Center

- a specified geographical location used for determining mileage measurements.

Station

- any location from which Casual Calling/Initial Subscription Services calls can be placed and/or received.

---

3. CASUAL CALLING SERVICE

3.1 Description

AT&T Casual Calling Service permits callers to access AT&T's switched network for completion of their instate long distance Dial Station calls by dialing carrier access code 1010288.

3.2 Non-Subscriber 1010288 Service

AT&T will credit the charges for Non-Subscriber 1010288 Service reported by newly presubscribed AT&T Customers during the period between presubscription and administrative processing of the new Customer.

Non-Subscriber 1010288 Service is available for intrastate Dial Station calls placed from points within the state of Nebraska and billed to the Customer's business telephone account that is not presubscribed to AT&T as the primary interexchange carrier. Access to Non-Subscriber 1010288 Service for dial Station calls must be made by dialing carrier access code 1010288. The Customer is responsible for any 1010288 charges billed to the Customer's account regardless of how the carrier access code is dialed.

Non-Subscriber 1010288 Service does not include:

- conference calls,
- calls to AT&T Directory Assistance;
- calls to 800 and 900 telephone numbers;
- Telecommunications Relay Service calls;
- calls placed from cellular phones;
- calls made by Customers with Disabilities who are Certified as described in Custom Network Services-Service Guide located at:  
<http://www.att.com/serviceguide/business>.
- calls billed to a business telephone account for which presubscription to AT&T has been discontinued, but an active billing record for such account still exists in AT&T's billing system. These calls will be rated at dial Station rates as described in the Price List for Commercial Long Distance Service. In addition, the monthly recurring charge, as described in the Price List for Commercial Long Distance Service, applies in any month that a subscriber makes a call at these rates.

EFFECTIVE: JUNE 8, 2024

SECTION 3  
ORIGINAL PAGE 2

---

3. CASUAL CALLING SERVICE

3.2 Non-Subscriber 1010288 Service (continued)

AT&T will also credit the charges for Non-Subscriber 1010288 Service reported by Customers during an F.C.C. reportable incident of service outage by another interexchange carrier. To receive either of these credits, Customers must contact AT&T through an 800 number designated for billing inquiries. Applicable Dial station charges will apply for all completed calls for which a credit is received. The credit will be given either in the form of a bill credit, or a long distance Certificate, at AT&T's discretion.

3.2.1 Availability

The application of charges for Non-Subscriber 1010288 Service is subject to billing availability.

3.2.2 Rates and Charges

Usage charges and a per-call Service Charge apply to each completed call.

Service Charges associated with Non-Subscriber 1010288 Service apply in addition to all other applicable Service Charges and Surcharges.

Charges are applicable 24 hours-a-day, 7 days-a-week. Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).

The rates and charges applicable to Non-Subscriber 1010288 Service are specified in the Price List of this tariff.

4. INITIAL SUBSCRIPTION

4.1 Description

Initial subscription to AT&T for toll or instate long distance services is made through a local service provider and AT&T does not yet have billing, name, address or any other account data to know that this is an AT&T pre-subscribed Customer. Notification from the local provider could take up to 45 days.

4.1.1 Availability

The application of charges for Initial Subscription is subject to billing availability.

4.1.2 Rates and Charges

Usage charges apply to each completed call.

Charges are applicable 24 hours-a-day, 7 days-a-week. Duration of each call is recorded in whole minutes, with partial minutes rounded up to the next whole minute (for example, a 45 second call will be billed as a one-minute call).

The rates applicable to Initial Subscription are specified in the Price List of this tariff.

APPLICATION OF TARIFF

AT&T Consumer Customers:

As of August 1, 2001, the tariff is no longer effective. For questions concerning services which are add-ons to interstate services, see the consumer AT&T Service Guides located at <http://www.att.com/serviceguide/home>. Customers who cannot access the web or have any questions or concerns regarding service, please call 1-888-222-0300 to receive a copy of the RSA or detailed information regarding the services covered by the RSA.

This Message Telecommunications Service Tariff applies to service furnished by AT&T Enterprises, LLC hereinafter referred to as the "Company" or "AT&T" or furnished jointly by the Company and its connecting Companies, between points within the state of Nebraska.

This tariff contains regulations and definitions governing the furnishing of Nebraska intrastate Message Telecommunications Service. Current rates for the service are found on the separately attached rate list which is on file with the Nebraska Public Service Commission.

REGULATIONS

2.1 UNDERTAKING OF THE COMPANY

2.1.1 Scope

- A. Message Telecommunications Service is that of furnishing facilities between local service areas in accordance with the regulations and system of charges specified in this tariff.
- B. The Company does not undertake to transmit messages but furnishes the use of its facilities to its customers for communications.

2.1.2 Priority of Services

Subject to compliance with Commission or Government rules or regulations, where a shortage of facilities exists at any time either for temporary or protracted periods, the establishment of Message Telecommunications Service shall take precedence over all other intercity services.

2.1.3 Limitations on Duration of Connections

The Company reserves the right to limit the length of conversation when necessary in times of emergency resulting in a shortage of facilities.

2.1.4 Liability

- A. In view of the fact that the customer has exclusive control of the communications over the facilities furnished by the Company, and of the other uses for which facilities may be furnished by the Company, and because of unavailability of errors incident to the services of and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions and limitations specified in B., C. and D. following.

## REGULATIONS

## 2.1 UNDERTAKING OF THE COMPANY (continued)

## 2.1.4 Liability (continued)

- B. The Company's liability, if any, for its willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a customer or by any others, for damages associated with any aspect of the provision of service (including the failure to reach a called station), the Company's liability, if any, shall not exceed an amount equal to the initial period charge applicable for such a message to the called station. This liability shall be in addition to any billing adjustments that may otherwise be appropriate.

The Company's failure to provide or maintain service under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, natural catastrophes and other circumstances beyond the Company's reasonable control.

The Company shall not be liable for errors in transmitting, translating, receiving or delivering messages by telephone, Text Telephone (TT), or any other instrumentality over the facilities of the Company, connecting utilities or through a Telecommunications Relay Service (TRS) center.

- C. The customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of copyright arising from the material transmitted over its facilities; against claims for infringement of patents arising from combining with, or using in connection with facilities of the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.
- D. No carrier participating in this service shall be liable for any act or omission of any other carrier also participating in the service.

---

REGULATIONS

## 2.2 USE

## 2.2.1 Use of Service

This service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this tariff.

## 2.2.2 Abuse and Fraudulent Use

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- A. The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the charge applicable for service.
- B. The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, Message Telecommunications Service, by rearranging, tampering with, or making connection with any facilities of the Company, or by any trick, scheme, false representation, or false credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- C. The use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonable to be expected to frighten, abuse, torment, or harass another.
- D. The use of profane or obscene language.
- E. The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

EFFECTIVE: JUNE 8, 2024

SECTION 2  
ORIGINAL PAGE 4

---

REGULATIONS

2.2 USE (continued)

2.2.3 Unlawful Purposes

The service is furnished subject to the condition it will not be used for an unlawful purpose. Service will be discontinued, upon five days written notice, if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of law.

2.3 OBLIGATIONS OF THE CUSTOMER

2.3.1 The calling party shall establish his identity in the course of any communication; and shall be solely responsible for establishing the identity of each person with whom connection is made at the called station.

2.3.2 Establishment and Reestablishment of Credit

The Company may conduct a credit investigation of each Customer or applicant prior to accepting the service order, Customer deposit or advance payment. The Company may refuse service to a Customer or applicant whose service has been disconnected for non-payment of bills for telecommunications service. The Customer or applicant will be required to pay all bills due the Company for telecommunications services or make other arrangements satisfactory to the Company to re-establish credit before service is restored or any service is started.

If service is established and it is subsequently determined that the Customer or applicant is indebted to the Company for service previously furnished, the Company may suspend or terminate such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

2.3.3 Deposits

The Company may require a deposit, or an increase in the amount of deposit, from a Customer who cannot establish a credit standing satisfactory to the Company. If the actual bills of the Customer subsequently rendered prove that the deposit is insufficient the deposit may be changed in accordance with the facts.

AT&T ENTERPRISES, LLC  
NEBRASKA

MESSAGE TELECOMMUNICATIONS SERVICE TARIFF

ISSUED: MAY 28, 2024  
EFFECTIVE: JUNE 8, 2024

SECTION 2  
ORIGINAL PAGE 5

---

REGULATIONS

2.3.3 Deposits (continued)

The deposit will be held for one year, if the Customer has not been delinquent in payments. A deposit is returned to the Customer, less any amounts due the Company when service is disconnected. Even though a deposit is made, the Customer must still pay bills, including any advance payments, when requested. A Customer's payment of a deposit does not waive or modify the Company's practice of disconnecting service for failure to pay any bills.

2.3.4 Advance Payments

The Company may require a Customer or applicant who cannot establish credit satisfactory to the Company to make an advance payment as a condition of continued or new service. The Company reserves the right to require from an applicant for service advance payments of estimated usage charges, as well as other charges as may be deemed necessary by the Company for safeguarding its interests.

2.3.5 Payment of Bills

All charges for service and facilities exclusive of toll messages are payable in advance by check, money order, cash or electronically in lawful United States currency. Charges for toll messages are payable upon receipt of the bill.

The Customer is responsible for the payment of all charges for service, facilities and messages placed from or accepted at the Customer's station. Service may be terminated or suspended for non-payment.

Payment which is not honored by the payer bank or institution will be considered as nonpayment, and a return check charge of \$10.00 will apply. When a local exchange company provides the billing function on behalf of the Company, the local exchange company's return check charge applies.

2.4 ADJUSTMENTS FOR MUNICIPALITY PAYMENTS

When any municipality, other political subdivision or local agency of government collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, or franchise fee, such taxes and fees shall, insofar as practicable, be billed prorata to the exchange customers receiving service within the territorial limits of such municipality, other political subdivision or local agency of government.

REGULATIONS

2.5 SERVICE THROUGH MISCELLANEOUS COMMON CARRIERS (As defined in Part 21 of the F.C.C. Rules)

Service is available to and from customers of a Miscellaneous Common Carrier with which arrangements have been made for the interexchange of telephone traffic and is furnished through interconnecting equipment and local connection facilities provided by the Company.

The rates between the applicable wire telephone rate center and the rate center of the Miscellaneous Common Carrier are the rates set forth in this tariff for two-point service. The rate center of the Miscellaneous Common Carrier is the wire telephone rate center of the Company serving exchange. An additional charge which the Miscellaneous Common Carrier bills to and collects from its customer is applicable to the remainder of the haul as set forth in the Miscellaneous Common Carrier's Tariff on file with the Nebraska Public Service Commission.

2.6 REFUSAL OF SERVICE

The Company reserves the right to refuse service to any applicant, or any applicant who wishes to establish service for a former Customer who has been found to be indebted to the Company for service previously furnished. The refusal of service will remain in effect until satisfactory arrangements have been made for the payment of all such indebtedness. At any time the above conditions become apparent to the Company, it may, at its discretion, terminate or suspend service until the prior indebtedness has been satisfied.

2.7 TERMINATION OF SERVICE

The Company or authorized agent will restrict access to the network when an account is delinquent and the Company's or the authorized agent's attempts to obtain payment have failed.

2.8 RESTORAL OF SERVICE CONDITIONS

If service is suspended for nonpayment, service will be restored upon receipt of payment of all charges due, which will include the charge for service and facilities during the time of suspension, and a restoral charge. If the Customer has a history of payments returned for insufficient funds, the Company may require payment be made by cash, money order or certified check. If payment is made by personal check, service will be restored only after clearance of the check by the bank.

Restoral of Service Charge                      \$15.00

REGULATIONS

2.9 LATE PAYMENT CHARGE

A charge of \$6.50 will apply to all amounts previously billed on a customer's unpaid bill. This charge will apply only where billing capability exists. The first occurrence of a late payment charge will be waived. All subsequent occurrences of late payments will be charged accordingly. When billing is provided by a local exchange company on behalf of the Carrier, the local exchange company's tariffed late payment charge applies to all past due amounts.

2.10 SPECIAL FEES, TAXES, CHARGES

2.10.1 Universal Service Charge

This surcharge is for the purpose of funding the Nebraska Universal Service Fund (NUSF) and applies to all intrastate retail telecommunications services purchased by end-users.

A state Universal Service Fund surcharge will be added to Nebraska accounts based on in-state services as determined by the Nebraska Public Service Commission.

2.10.2 Operator Transfer Service Fee

An Operator Transfer Service Fee applies to all completed intrastate calls and to completed calls to intrastate Directory Assistance, when an AT&T Customer dials 0-, reaches a Local Exchange Company operator and requests a transfer to AT&T to complete a call, and the Local Exchange Company operator transfers the Customer to the AT&T network from the Local Exchange Company network.

The Operator Transfer Service Fee is applied in addition to any other applicable Service Charges or Surcharges.

The Operator Transfer Service Fee does not apply to:

- Calls to 800 numbers
- Calls to 900 numbers
- Calls to SelectCall Service numbers

Refer to the RATE LIST for applicable rates and charges.

REGULATIONS

2.10 SPECIAL FEES, TAXES, CHARGES (continued)

2.10.3 Convenience Fee For Payment Made With A Company Representative

A fee will apply for each instance of payment of outstanding charges when authorized by the subscriber by telephone (whether such telephone call was originated by the subscriber or by the Company) and when the method of payment would allow the payment to be immediately credited to the subscriber's account, such as payment via a credit card, an electronic check (eCheck), or any other discretionary type payment that may be accepted by the Company through such telephone contacts. This fee will not apply for payments taken directly by subscribers to authorized Company payment locations, payments mailed in, automatic funds transfers, payments through the Company Internet website and other conventional methods of payments. The subscriber would be informed of any applicable charges prior to processing the subscriber's request.

CONNECTIONS

3.1 GENERAL

When customer premises equipment is connected to Message Telecommunications Service (MTS), it must comply with the F.C.C.'s Registration Program. If Grandfathered customer premises equipment or communications systems are connected, the Minimum Protection Criteria specified in this tariff must be met.

MTS is not represented as adapted for connection to other services or communications systems. MTS is designed, operated and maintained to provide satisfactory transmission only between a calling and called station(s) equipped with suitable customer premises equipment.

The Company is responsible for the quality of transmission for MTS from demarcation point to demarcation point. The Company is not responsible for the quality of transmission on the customer's side of the demarcation points at a premises.

3.2 RESPONSIBILITIES OF THE CUSTOMER

When customer premises equipment or a communications system is connected to MTS, the customer assumes responsibility for the connection as follows:

3.2.1 Interference and Hazard

The operating characteristics of customer premises equipment or communications systems connected to MTS must not interfere with, or impair, any of the services offered by this Company. In addition, they must not endanger the safety of Company employees or the public, damage or interfere with the proper functioning of Company equipment, or otherwise injure the public in its use of MTS.

The Company will take immediate action to protect its services or interests if this regulation is violated.

3.2.2 Changes to MTS

The Company is not obligated to alter or modify MTS because of additions or changes to customer premises equipment or a communications system provided by the customer or others.

3.2 RESPONSIBILITIES OF THE CUSTOMER (continued)

3.2.3 Testing and Maintenance

If a trouble report occurs on an assembly, the customer must determine whether the fault is in (1) the connected premises equipment or communications system, or (2) MTS. The Company will test and maintain only the services it provides.

The testing of MTS will usually be made from a point-of-presence. A repair person will be dispatched to a customer's premises only when this Company deems it necessary to complete its tests, or when a specific request for a dispatch is received. When a repair person is dispatched, a Maintenance of Service Charge will apply if testing discloses that the MTS is functioning correctly.

3.3 RESPONSIBILITIES OF THE COMPANY

3.3.1 General

In addition to furnishing and maintaining its service components for MTS, the Company will provide technical information pertaining to MTS interface parameters as an aid to the customer in selecting the appropriate interface.

3.3.2 Changes in Minimum Protection Criteria, Operations or Procedures

The Company is not responsible to any party if a change in its MTS components, Minimum Protection Criteria, operations, or procedures, which are consistent with the Registration Program, (1) affects any facilities, customer premises equipment or communications systems provided by others in any way, or (2) requires their modification in order to be used with MTS. However, if such changes can be reasonably expected to materially affect the operating or transmission characteristics of the MTS, or render any customer premises equipment or communications system incompatible with MTS, the Company will make a reasonable effort to notify the customer in writing of the proposed change. A reasonable interval will be allowed before the change is implemented to enable the customer to maintain compatibility of its customer premises equipment or communications system with MTS.

CONNECTIONS

3.4 CONNECTION TO SERVICE PROVIDED BY A LOCAL EXCHANGE CARRIER

MTS may be connected to services provided by a Local Exchange Carrier. The connections are subject to the regulations in this tariff and the appropriate tariff(s) of the Local Exchange Carrier.

3.5 CONNECTION OF A COMMUNICATIONS SYSTEM OR MTS EQUIVALENT SERVICE

When a communications system or MTS equivalent service arrangements concerning the connected systems or service with its provider. The connection does not constitute a joint undertaking between this Company and the provider of the system or service. The system or service must be operated, and maintained so it will work satisfactorily with MTS. Connections to MTS will be made in accordance with the following:

3.5.1 Answer Supervision

When MTS is connected to a communications system which is also connected to switching or terminal equipment, such equipment shall provide the necessary answer supervision so that chargeable time begins upon delivery of the MTS call to the equipment and ends upon termination of the call by the calling party.

3.5.2 Minimum Protection Criteria

The connection at the MTS demarcation point must be made so that it continually complies with the specified Minimum Protection Criteria (see Minimum Protection Criteria).

3.5.3 Communications System Failures

When a communications system fails and the connection to MTS is not through switching equipment, the communications system must be arranged to promptly return the MTS to an idle (on-hook) state. In addition, the customer must promptly notify the Company when the communications system fails.

3.5.4 Use of Satellite Facilities

If a communications system uses satellite facilities (directly or indirectly), and is connected to MTS, there may be two or more satellite links involved in the combined connection. In such cases, the Company will not be responsible for any deterioration in the quality of the through transmission of signals on such a connection. The Company will continue to furnish MTS using the service components that it considers to be appropriate. Credit allowance for impaired transmission resulting from such connection will not be granted.

CONNECTIONS

3.6 MINIMUM PROTECTION CRITERIA

3.6.1 General

Minimum Protection Criteria have been specified so that Company personnel, equipment and services will be protected from the harmful effects of signal power overload, hazardous voltages and longitudinal imbalance. Minimum Protection Criteria applies to the direct electrical, acoustic, or inductive connections of customer premises equipment and communications systems to MTS.

3.6.2 All Connections

Customer premises equipment and communications systems which are connected to MTS on a direct electrical basis or an acoustic or inductive basis, must comply with the following:

A. To protect other Company services, it is necessary that the signal which is applied at the demarcation point meets the following limits:

1. Metallic Voltage

a. 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (6.4-12.6 log f) dBV*	300 ohms
12 kHz to 90 kHz	(23 - 40 log f) dBV	135 ohms
90 kHz to 266 kHz	- 55 dBV	135 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

b. The root-mean-square (RMS) value of the metallic voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -15 dBV. This limitation applies with a metallic termination having an impedance of 135 ohms.

---

CONNECTIONS

3.6 MINIMUM PROTECTION CRITERIA (continued)

3.6.2 All Connections (continued)

A. (continued)

2. Longitudinal Voltage

a. 4 kHz to 270 kHz

Center Frequency (f) of 8 kHz Band	Max. Voltage in All 8 kHz Bands	Metallic Terminating Impedance
8 kHz to 12 kHz	- (18.4+20 log f) dBV*	500 ohms
12 kHz to 42 kHz	(3 - 40 log f) dBV	90 ohms
42 kHz to 266 kHz	- 62 dBV	90 ohms

\*dBV = 20 log<sub>10</sub> voltage in volts

b. The root-mean-square (RMS) value of the longitudinal voltage components in the frequency range of 270 kHz to 6 MHz shall, averaged over 2 microseconds, not exceed -30 dBV. This limitation applies with a longitudinal termination having an impedance of 90 ohms.

B. To prevent the interruption or disconnection of an MTS call, it is necessary that the signal applied at the demarcation point be limited. Specifically, the signal at the demarcation point shall at no time have energy concentrated solely in the 2450 to 2750 Hz band. If there is signal power at the demarcation point in the 2450 to 2750 Hz band, it must not exceed the power present at the same time in the 800 to 2450 Hz band.

CONNECTIONS

3.6 MINIMUM PROTECTION CRITERIA (continued)

3.6.3 For Direct Electrical Connections

In addition to the regulations in 3.6.2 preceding, customer premises equipment and communications systems which are connected to MTS on a direct electrical basis must comply with the following: To prevent excessive noise and crosstalk, it is necessary that the power of the signal presented at the point-of-presence not exceed 12dB below one milliwatt when measured over any three second interval. To insure that this limit is not exceeded, the power of the signal which may be applied by the premises equipment or communications systems to the demarcation point will be specified for each customer location. In no case shall the power exceed one milliwatt.

3.6.4 Acoustic or Inductive Connections

In addition to the regulations in 3.6.2 preceding, customer premises equipment and communications systems which are connected to MTS on an acoustic or inductive basis must comply with the following: To prevent excessive noise and crosstalk, it is necessary that the power of the signal which is applied by the equipment to the demarcation point located on the customer's premises be limited so that the signal power does not exceed 9dB below one milliwatt when averaged over any three second interval. However, to permit each customer, independent of distance from the point-of-presence, to supply signal power which at the point-of-presence approximates 12dB below one milliwatt when averaged over any three second interval, the Company, at the customer's request, will specify for each customer location, the signal power at the demarcation point, which shall in no case exceed one milliwatt.

3.7 RECORDING OF TWO-WAY TELEPHONE CONVERSATIONS

The FCC has adopted regulations which apply to the recording of two-way telephone conversations on MTS. MTS is not represented as adapted to the recording of such conversations. However, customer-provided voice recording equipment may be connected to MTS. Its connection is subject to the Registration Program and to the following:

CONNECTIONS

3.7 RECORDING OF TWO-WAY TELEPHONE CONVERSATIONS (continued)

3.7.1 Recording Requirements

The voice recording equipment must be arranged so that it can be connected or disconnected (or switched on or off) at the will of the customer. In addition, one of the following conditions must apply:

- A. All parties to the telephone conversation must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of, the recording, or
- B. All parties to the telephone conversation must be verbally notified at the beginning of the conversation and the notification must be recorded as part of the call, by the recording party, or
- C. A distinctive recorder tone, repeated at intervals of approximately fifteen seconds, is required to alert all parties when recording equipment is in use. The distinctive recording tone can be provided as part of (1) the recording equipment, or (2) registered or grandfathered protective circuitry.

CONNECTIONS

3.7 RECORDING OF TWO-WAY TELEPHONE CONVERSATIONS (continued)

3.7.2 Exceptions to the Requirement for the Recorder Tone

The distinctive recorder tone is not required:

- A. When used by an FCC licensed broadcast station customer for the recording of two-way telephone conversations solely for broadcast over the air. (Filed in compliance with an Order of the F.C.C. adopted December 13, 1972)
- B. When used by the United States Secret Service of the Department of Treasury for recording two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds. (Filed in compliance with an Order of the F.C.C. adopted January 22, 1975)
- C. When used by a broadcast network or by a cooperative programming effort, composed exclusively of FCC broadcast licensees, to record two-way telephone conversations solely for broadcast over the air by a licensed broadcast station. (Filed in compliance with an Order of the F.C.C. adopted December 18, 1975)
- D. When used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense's private line system when connected to MTS. (Filed in compliance with an Order of the F.C.C. adopted May 19, 1976)
- E. When used by the United States Nuclear Regulatory Commission of the Department of Energy with respect to the telephone systems located at its Operations Center for the recording of two-way telephone conversations. (Filed in compliance with an Order of the F.C.C. adopted January 29, 1981)

3.7.3 Acoustic or Inductive Connections

Customer-provided voice recording equipment may not be connected to MTS for the recording of two-way telephone conversations by means of an acoustic or inductive connection, unless its use qualifies under the regulations, "Exceptions to the Requirement for the Recorder Tone".

NEBRASKA

MESSAGE TELECOMMUNICATIONS SERVICE TARIFF

ISSUED: MAY 28, 2024  
EFFECTIVE: JUNE 8, 2024

SECTION 4  
ORIGINAL PAGE 1

---

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE

4.1.1 Application

Service between two points within the State of Nebraska handled exclusively by the Company or jointly by the Company and its associated or connecting companies, to the extent that this tariff is concurred in by such other companies, is furnished as set forth in this section.

On or after March 18, 2016, AT&T Enterprises, LLC will discontinue the following services originating and terminating: Bill to a Third Number, Busy Line Verify/Interrupt, Collect, and Person-to-Person.

On or after July 31, 2016, AT&T Enterprises, LLC will no longer allow billing of calls to a Commercial Credit Card.

On or after October 1, 2016, AT&T Enterprises, LLC will discontinue AT&T CIID/891 Calling Card services.

4.1.2 Mileage Measurements

Rates are based on the airline distance between the measuring point or rate center for the calling point and the measuring point or rate center for the called point. In general, each city, town or locality is designated as a rate center and those localities not so designated are assigned a nearby rate center.

For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of Nebraska. The spacing between adjacent vertical grid lines and between adjacent horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1 (approximately 0.3), expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. A list of V and H Coordinates for each rate center is found in AT&T's Tariff F.C.C .No. 10. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in a. through f. following.

SECTION 4  
ORIGINAL PAGE 2

---

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.2 Mileage Measurements (continued)

Airline mileages for Message Telecommunications Service are computed as follows:

- A. Obtain the "V" and "H" coordinates for each rate center.
- B. Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

Note: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

- C. Divide each of the differences obtained in B. by three, rounding each quotient to the nearest integer.
- D. Square the two integers and add the two squares.

If the sum of the squares is greater than 1777, divide the integers obtained in C. by three and repeat step D. Repeat this process until the sum of the squares obtained in D. is less than 1778.

- E. The number of successive divisions by three in steps C. and D. determines the value of "N". Multiply the final sum of the two squares obtained in step D. by the multiplier specified in the following table for this value of "N" preceding.

N	Multiplier	Minimum Rate Mileage
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361

SECTION 4  
ORIGINAL PAGE 3

---

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.2 Mileage Measurements (continued)

Airline mileages for Message Telecommunications Service are computed as follows: (continued)

F. Obtain square root of product in E. and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in E. preceding, the minimum rate mileage corresponding to the "N" value is applicable.

Example:

The message rate distance is required between Omaha, Nebraska and North Platte, Nebraska.

a.	North Platte	6,995	5,325
	Omaha	6,687	4,595
b.	Difference	308	730
c.	Dividing each difference by three and rounding to the nearest integer	103	243
d.	Squaring integers and adding		
	103 X 103 =		10,609
	243 X 243 =		59,049
	Sum of squared integers		69,658

Sum of squared integers is greater than 1,777 so divide integers in c. by three and repeat d.).

e. Dividing each integer in c. by three and rounding      34              81

AT&T ENTERPRISES, LLC

EFFECTIVE: JUNE 8, 2024

SECTION 4  
ORIGINAL PAGE 4

---

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.2 Mileage Measurements (continued)

Airline mileages for Message Telecommunications Service are computed as follows: (continued)

F. (continued)

f. Squaring integers and adding

34 X 34 =	1,156
81 X 81 =	6,561
Sum of squared integers	7,717

Sum of squared integers is greater than 1,777 so divide integers in e. by three and repeat f.

g. Dividing each integer in e. by three and rounding

11	27
----	----

h. Squaring integers and adding

11 X 11 =	121
27 X 27 =	729
Sum of integers	850

Sum of integers is less than 1,778 and was obtained by three successive divisions by three, therefore, "N" = 3.

i. Multiply final sum of squared integers by factor 72.9 (corresponding to "N" = 3)

850
72.9
61,965

j. Square root of 61,965 = 248 and a fraction, which is rounded up to 249 miles (fractional miles being considered full miles). The 249 miles is larger than the minimum of 121 miles applicable when "N" = 3, so the message rate mileage is 249 miles.

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application

A. Classes of Service

Two classes of Message Telecommunications Service are offered; namely, Dial Station and Operator Station.

1. Dial Station Service

Dial Station Service (See Note) is that service where the person originating the call from other than a public or semi-public telephone dials the telephone number desired and the call is completed without the assistance of a Company operator, and the call is not billed to a number other than the originating number, except the following which are also considered Dial Station Service:

- When an operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of his handicap.
- When the calling party cannot complete the call due to trouble on the telecommunications network and chooses not to redial the call. The customer will be informed that if the operator completes the call, the customer will be charged Operator Station rates as shown in the RATE LIST.
- When a customer reestablishes a Dial Station call that has been involuntarily interrupted after the station has been reached. Customers may take credit for the interrupted call. If an operator is requested by the customer to complete the call, Operator Station rates will apply as shown in the RATE LIST.

2. Operator Station Service

Operator Station Service is that service where the person originating the call is assisted by a Company operator and the call is completed to the telephone number of the desired telephone, Miscellaneous Common Carrier connecting circuit, communications system attendant, or gives only the name and address under which the number of the desired telephone, Miscellaneous Common Carrier connecting circuit or communications system is listed, and does not specify a particular person to be reached, nor a particular station, department or office to be reached through a communications system.

NOTE: Marketed by the Company, under the name AT&T Long Distance Service after April 1, 1992.

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

A. Classes of Service (continued)

3. Telecommunications Relay Service (TRS)

TRS calls are calls completed through a telecommunications relay center. TRS provides the ability for an individual with a hearing and/or speech disability to communicate with a hearing individual in a manner functionally equivalent to the ability of individuals without hearing/speech disabilities. TRS allows individuals with hearing/speech disabilities who use a text telephone (TT) or its equivalent to communicate with individuals who use ordinary telephones. A Communications Assistant (CA) transliterates conversation from text to voice and from voice to text between two end users of TRS. The completed call is rated and billed as a call from the originating telephone number to the terminating telephone number. Direct dialed, calling card and operator assisted calls may be placed through TRS. Discounts applicable to relay calls appear in Section 4, Page 14. User billed calls to enhanced and nonenhanced services are prohibited, e.g., coin sent-paid, 900 or 976 numbers.

B. Initial Period and Additional Minutes

Rates are quoted in terms of initial periods and additional minutes.

1. Initial period rates for calls are for a connection of one minute or any fraction thereof. Initial period rates for
2. Additional period rates are for each additional minute or any fraction thereof that the telephone connection continues beyond the initial period.
3. When application of the charge results in a fractional charge, the amount will be rounded down to the lower cent.

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

A. Classes of Service (continued)

C. Timing of Messages

1. The date, day and time (standard or daylight savings) at the rate center of the calling party when the connection is established determine the MTS charges.

Rate periods are Day/Peak, Evening/Off-Peak, and Night/Weekend according to the time of day and day of week.

Chargeable time is determined as follows:

- The billing elements used to determine message charges are: the initial period, the additional minute and the applicable service charge.
- Charges for both the initial period and additional minute billing elements are applied on the basis of whole minute intervals. The billing interval for these elements is determined by rounding up partial minutes to the next whole minute.
- The charge for the initial period is the initial period billing rate applicable for the rate period in which the message connect time occurs. The charge for each additional minute of usage is the additional minute billing rate for the rate period in which the beginning of each additional minute occurs.

---

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

C. Timing of Messages (continued)

2. On Dial Station and Operator Station messages, chargeable time begins when connection is established between the calling station and the desired telephone, Miscellaneous Common Carrier connecting circuit, communications system or station which is reached directly rather than through a communications system attendant.
3. Chargeable time ends when the connection is terminated.
4. Chargeable time does not include time lost because of faults or defects in the service.

D. Automated and Operator Assisted Service Charges

An Automated Service Charge applies to any 0+ Operator Station call that is fully automated and does not use a live Company operator, except as listed below.

An Operator Assisted Service Charge applies to any Operator Station call that is dialed using the appropriate operator code (0, 00, 1010288+0) or involves a live Company operator, except as listed below.

The Automated and Operator Assisted Service Charges do not apply to:

- calls in which a Company operator places a call for a calling party who identifies himself/herself as being handicapped and unable to dial the call because of the handicap,
- O+ calls in which a Company operator is used only to record the calling station number where Originating Number Identification (ONI) is not available in the area of the Local Exchange Company serving the originating station, or
- O+ call in which a Company operator places a call because Automatic Number Identification (ANI) equipment is not available.

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

E. Rates Applicable on Certain Holidays

Effective October 28, 2000, Holiday calling rates no longer apply to any Dial Station Service calls.

F. Rate Changes

The Company may change rates by filing a Rate List which shall become effective after ten days' notice to the Nebraska Public Service Commission.

G. Rates

The applicable rates and charges for AT&T Message Telecommunications Service are contained in the Message Telecommunications Service Rate List on file with the Nebraska Public Service Commission.

H. Public coin and semi-public coin telephones that use network signaling will not be suitably equipped to accept payment by coin for AT&T long distance calls. Alternative payment methods such as a AT&T prepaid card may be used for AT&T calls made from such telephones.

I. Hearing or Speech Impairment Discount

Disabled persons who have been certified to the Company as having a hearing or speech impairment which necessitates that they communicate by a Telecommunications Device for the Deaf (TDD) (sometimes referred to as a teletypewriter or TTY device) will receive upon written application to the Company credit on Day/Peak, Evening/Off-Peak, and certain night rated intrastate Dial Station calls from certified residence account premises where a TDD is located.

For a customer with more than one line or trunk, written application will be required for each line or trunk.

The billing period for this discount will be determined by the toll billing date. The customer will receive the discount at the beginning of the next toll billing period after application approval. The customer has the option of withdrawing at either the beginning or ending of the billing period.

J. Other Discounts

From time to time, the Company may offer services at a reduced rate or free of charge for promotional, market research or rate experimentation purposes. Such offerings will be for a limited duration and customers will be so notified.

Refer to the Rate List for applicable rates and charges.

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

K. Directory Assistance Charge

Directory Assistance service allows Customers to request information from Directory Assistance records. Customers may request this service by dialing the area code for the telephone number(s) desired plus 555-1212. The Directory Assistance charge applies to all calls made to intrastate Directory Assistance numbers foreign to the Number Plan Area (NPA) in which the customer is located or for which AT&T facilities are used.

Up to two requests may be made on each call to Directory Assistance. The Directory Assistance charge applies whether or not the Directory Assistance bureau furnishes the requested telephone number(s), (e.g., where the requested telephone number is Non-Published or no record can be found.

Service charges will apply to any type of call that uses an AT&T Operator in obtaining Directory Assistance.

Refer to the rate list for applicable rates and charges.

1. Customers with Disabilities Exemption

Those customers with disabilities who qualify for exemptions, due to physical or visual limitations, from the local Directory Assistance charges under Local Exchange Company tariff(s) are exempted, as a reasonable accommodation associated with their disability, from the Directory Assistance charge, for a maximum of 50 calls per month. Calls to Directory Assistance in excess of the stated accommodation, where billing is available, will be billed at the rate stated in the Rate List. This exemption applies to calls billed to one residential telephone line per customer with disability and applies to Directory Assistance calls for personal use only.

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

L. Non-Subscriber Service Charge

A service charge is applicable to domestic Dial Station and Operator Station Calls originated from residential lines which are presubscribed to an interexchange carrier other than AT&T, or not presubscribed to any interexchange carrier. This charge is in addition to the initial period charges applicable to calls or to any applicable service charges for Operator handled calls and will apply in all areas where billing is available.

The Non-Subscriber Service charge does not apply to intraLATA calls; calling card calls, conference calls, calls to AT&T Directory Assistance, or 800, 900, telephone numbers; calls originated from cellular phones; calls billed to residential lines which have discontinued presubscription to AT&T, but for whom an active billing record in AT&T's billing system still exists. AT&T will refund any Non-Subscriber Service Charges reported by newly presubscribed AT&T customers during the period between presubscription and administrative processing of new customers. AT&T will also refund any Non-Subscriber Service Charge reported by customers during an F.C.C. reportable incident of service outage by another interexchange carrier.

SERVICE CLASSIFICATIONS AND RATES

4.1 TWO-POINT MESSAGE TELECOMMUNICATIONS SERVICE (continued)

4.1.3 Rate and Charge Application (continued)

M. In State Connection Fee (ISCF)

A monthly service charge will be applied to each AT&T long distance residential customer's account. This monthly charge is applied if a customer has \$0.01 or more of AT&T billable charges and credits on their bill including, but not limited to, monthly recurring charges, or minimum usage charges. This charge does not contribute towards any applicable minimum monthly charge.

Customers in AT&T's Lifeline Program are exempt from this service charge.

N. Public Payphone Surcharge

A Public Payphone Surcharge applies to all completed consumer intrastate long-distance calls placed from a public/semi-public payphone which are not paid on a sent paid basis. Specifically, the Public Payphone Surcharge applies to: (1) calls to intrastate Directory Assistance; (2) AT&T 800 Plan P Service calls; and (3) AT&T Prepaid Phone Service.

The Public Payphone Surcharge is applied in addition to any other applicable Service Charges or Surcharges.

The Public Payphone Surcharge does not apply to:

- Calls paid for by inserting coins at the public/semi-public payphone.
- Calls placed from stations other than public/semi-public payphones.
- Telecommunications Relay Service calls

Discounts offered by AT&T discount plans and promotions will not apply to the Public Payphone Surcharge unless this specific charge is expressly covered in the AT&T discount plan or promotion.

SERVICE CLASSIFICATIONS AND RATES

4.4 AT&T PREPAID PHONE SERVICE

4.4.1 General

AT&T Prepaid Phone Service provides outbound voice grade communications service for calls charged to the following prepaid phone cards ("Prepaid Phone Cards"):

- Prepaid Phone Cards (physical or virtual) containing the AT&T brand, which include cards co-branded with the brand of another company (hereinafter "AT&T Branded Prepaid Phone Cards").
- Prepaid Phone Cards (physical or virtual) containing the SmarTalk brand (hereinafter "SmarTalk Prepaid Phone Cards") and Prepaid Phone Cards where service is provided by ConQuest. Services provided with these Prepaid Phone Cards are provided by AT&T d/b/a SmarTalk and ConQuest.

Customers can purchase AT&T Prepaid Phone Cards as follows:

- AT&T Branded Prepaid Phone Cards directly from AT&T.
- AT&T Branded Prepaid Phone Cards directly from retailers.
- SmarTalk Prepaid Phone Cards and Prepaid Phone Cards where service is provided by ConQuest directly from retailers.

---

SERVICE CLASSIFICATIONS AND RATES

4.4 AT&T PREPAID PHONE SERVICE (Continued)

4.4.1 General (Continued)

When sold through a retailer, price points for Prepaid Phone Cards and recharged minutes are established by the retailer and are prominently disclosed at the point of sale. When sold directly by AT&T, price points for AT&T Branded Prepaid Phone Cards and recharged minutes are established by AT&T and are fully disclosed to the purchaser at the time of sale.

This in-state offer is an add-on to the interstate AT&T Prepaid Phone Service accessed through AT&T Branded Prepaid Phone Cards described in AT&T's Consumer Service Guide located at [www.att.com/serviceguide/home](http://www.att.com/serviceguide/home). All terms and conditions are contained and described within the AT&T Consumer Service Guide.

This in-state offer is also an add-on to the interstate AT&T Prepaid Phone Service accessed through SmarTalk and Prepaid Phone Cards where service is provided by ConQuest described in the Prepaid Phone Card Service Agreement located at [www.prepaidserviceguide.com](http://www.prepaidserviceguide.com).

4.4.2 Rates and Charges

When sold directly by AT&T, price points for AT&T Branded Prepaid Phone Cards are established by AT&T. When sold by retailers, price points for Prepaid Phone Cards are established by the retailer. Prices for cards sold by retailers are prominently displayed on the card or otherwise clearly provided to the customer. Prices for cards sold directly by AT&T are fully disclosed to purchasers prior to and at the time of sale. The price points do not include any sales tax and may not include other fees and charges that may apply to the transaction at point of purchase.

Refer to Rate List for charges.

OPTIONAL CALLING PLANS

Through July 31, 2001 the reference document for interstate terms and conditions for AT&T consumer long distance services is AT&T's FCC Tariff No. 27. As of August 1, 2001, the tariff is no longer effective. For questions concerning services which are add-ons to interstate services, see the consumer AT&T Service Guides located at <http://www.att.com/serviceguide/home>. Customers who cannot access the web or have any questions or concerns regarding service, please call 1-888-222-0300 to receive a copy of the RSA or detailed information regarding the services covered by the RSA.

5.1 REACH OUT NEBRASKA

Customers may no longer subscribe to this plan effective September 2, 1997.

As of February 1, 1995, the Reach Out State Calling Plans, including all options, will no longer be available for calls originating on a line classified as a Business Line by the applicable local exchange company. In addition, business customers may not subscribe to these plans on or after February 1, 1995.

Calls billed to the customer's Business Lines after the date specified above, will be charged Commercial Long-Distance rates, as specified in Nebraska's Custom Network Services tariff, Section 3.

5.1.1 Description

Reach Out Nebraska is furnished for Company-provided intrastate AT&T Long Distance telephone calls in the State of Nebraska.

For a fixed monthly rate, customers may use up to 60 minutes of intrastate direct dial anytime calling, consisting of up to sixty calls, at no additional charge.

Additional minutes used are billed the applicable rates and charges per the Rate List.

OPTIONAL CALLING PLANS

5.1 REACH OUT NEBRASKA

5.1.2 Regulations

B. Application

1. The Plan offers a participating customer the option of paying a monthly charge to obtain a cumulative total of up to one hour of Long Distance calling time per month for dial station calls. Calls may be made between locations in the state of Nebraska. In determining charges, a fractional minute will be rounded up to the next highest whole minute.

Reach Out Plan offers a participating customer 60 Minutes of intrastate direct dial anytime calling. Calls beyond 60 minutes will be billed a per minute charge found on the Rate List.

In determining charges, a fractional minute will be rounded up to the next highest whole minute.

C. Application of Rates and Charges

1. The minimum service period for Reach Out Nebraska is one month. Customers who retain service for less than one month will be billed the minimum or fixed monthly rate.
2. Beyond the minimum period, the monthly recurring and usage charges may be prorated for partial months.
3. Reserved for future use.
4. A nonrecurring charge applies for this Plan, as shown in the Rate List.
5. The nonrecurring charge is billed on the first bill date after service is established.

OPTIONAL CALLING PLANS

5.1 REACH OUT NEBRASKA

5.1.2 Regulations (continued)

C. Application of Rates and Charges (continued)

6. Reach Out Nebraska may be discontinued by the customer upon written or telephonic notice to AT&T. In addition, AT&T will discontinue a customer's subscription to the Plan in the following situations:

- a. When AT&T is notified, on or after November 25, 1991, that the customer has changed its primary interexchange carrier to a carrier other than AT&T after the customer subscribed to the Plan, and the customer has not notified AT&T that it wishes to continue such Plan. Discontinuance will be effective as of the date the customer changed its primary interexchange carrier.
- b. When AT&T has notified a customer in writing that it plans to discontinue the customer's Plan and the customer does not, within 30 days of such notification, notify AT&T that it wishes to continue such Plan. Discontinuance will be effective 30 days from AT&T's mailing of its notification to the customer.

D. Rate Changes

The Company may change rates by filing a Rate List which shall be effective after ten days notice of the Nebraska Public Service Commission.

5.1.3 Rates and Charges

Refer to the RATE LIST for applicable rates and charges.

OPTIONAL CALLING PLANS

AT&T UNLIMITED PLUS PLAN, (BLKAB, BLKCH, BLKNP)

5.11 GENERAL

This plan is available to eligible residential Customers who have selected AT&T as their Primary Interexchange Carrier. Customers can enroll in this Plan by completing and returning an enrollment form provided by AT&T, calling an AT&T designated 800 number or by enrolling during a marketing contact with AT&T.

Customers can enroll in only one state-to-state pricing plan for AT&T direct dialed station calls for each main residential telephone account unless AT&T notes otherwise.

This plan is an add-on to the interstate plan of the same name and will be available where billing capabilities exist. An interstate Monthly Recurring Charge (MRC) will apply to this plan.

Additional terms and conditions of this plan can be found in the AT&T Service Guides located at [www.att.com/serviceguide/home](http://www.att.com/serviceguide/home).

5.11.1 RATES AND CHARGES

This plan provides unlimited minutes of direct dialed 1+ state-to-state and in-state long distance calling for residential voice service only. If it is determined that usage is not consistent with residential voice applications, such as for Internet access services, commercial facsimile or auto-dialing, call forwarding, three-way calling, resale, telemarketing or other non-residential uses, AT&T may immediately suspend, restrict or cancel the customer's service without prior notice.

This plan includes AT&T Direct Dial Station in-state long distance calls.

5.18.1 RATES AND CHARGES

Unused block-of-time minutes will not be carried over to the next month. In-state long distance direct dial station calls over and above the monthly minute allotment will be rated as follows, 24 hours a day, seven days a week:

<u>Eligible Minutes</u> Beyond the Block-of-Time	<u>Rate Per</u> <u>Minute</u>
Direct Dial Station-InterLATA	\$0.10
Direct Dial Station-IntraLATA	\$0.10

<sup>1</sup> Effective April 1, 2021, Customers may no longer enroll in this plan. Existing Customers subscribed will continue to receive the benefits of this plan.

<sup>2</sup> This plan was formerly known as AT&T One Rate Sundays (CPMAF), AT&T Select Saver (CPMEH), AT&T International Plan with Domestic Rate (OCPK2), AT&T One Rate<sup>®</sup> Plus Plan (CPMKB).

OPTIONAL CALLING PLANS

AT&T ONE RATE NATIONWIDE 10¢<sup>1</sup> (CPMYA CPMYB)

5.19 GENERAL

AT&T will offer this plan to residential customers who are: 1) presubscribed to AT&T as their primary long distance carrier, 2) have an AT&T local access line, and 3) are enrolled in this plan.

This plan includes AT&T direct dial station state-to-state and in-state long distance calls that are made from the customer's home, billed to the customer's main residential telephone account, and made without using an AT&T Operator or an AT&T automated call processing system. All other types of calls are rated at basic rates unless the customer is enrolled in another AT&T plan that covers these other types of calls.

This plan is an add-on to the interstate AT&T One Rate Nationwide 10¢ plan, which includes a monthly recurring charge. This offer is available only where facilities and billing capabilities permit.

All other terms, conditions, extensions, or expirations of this plan can be found in the AT&T Service Guides located at [www.att.com/serviceguide/home](http://www.att.com/serviceguide/home).

5.19.1 RATES AND CHARGES

In-state long distance direct dial station calls will be rated as follows, 24 hours a day, seven days a week:

<u>Eligible Calls</u> <u>Dial Station</u>	<u>Rate</u> <u>Per Minute</u>
InterLATA calls	\$0.10
IntraLATA calls	\$0.10

<sup>1</sup> Effective April 1, 2021, Customers may no longer enroll in this plan. Existing Customers subscribed will continue to receive the benefits of this plan.

OPTIONAL CALLING PLANS

AT&T WORLDWIDE & US CALLING (OC4YD)

5.20 GENERAL

AT&T will offer this plan to residential customers who are presubscribed to AT&T as their primary long-distance carrier and are enrolled in this plan.

This plan includes AT&T direct dial station state-to-state and in-state long distance calls that are made from the customer's home, billed to the customer's main residential telephone account, and made without using an AT&T Operator or an AT&T automated call processing system. All other types of calls are rated at basic rates unless the customer is enrolled in another AT&T plan that covers these other types of calls.

This plan is an add-on to the interstate AT&T Worldwide & US Calling plan, which includes a monthly recurring charge. This offer is available only where facilities and billing capabilities permit.

All other terms, conditions, extensions, or expirations of this plan can be found in the AT&T Service Guides located at [www.att.com/serviceguide/home](http://www.att.com/serviceguide/home).

5.20.1 RATES AND CHARGES

In-state long distance direct dial station calls will be rated as follows, 24 hours a day, seven days a week:

<u>Eligible Calls</u> <u>Dial Station</u>	<u>Rate</u> <u>Per Minute</u>
InterLATA calls	\$0.20
IntraLATA calls	\$0.20

OPTIONAL CALLING PLANS

AT&T WORLDWIDE PREPAID CARD (DIRECT OCEAN SERVICE)

5.21 DESCRIPTION

This service is available to customers who purchase or have an AT&T Worldwide PrePaid Card with sufficient available balance(s). Customer must access the AT&T network by dialing the appropriate access number as instructed on the Prepaid Card.

This plan includes AT&T in-state long distance calling card calls that are placed using the AT&T Worldwide PrePaid Card, via the designated access number, completed as instructed on the card, and without the assistance of an operator.

All calls must be charged against an AT&T Worldwide PrePaid Card that has sufficient available balance. Calls will be interrupted with an announcement 60 seconds prior to the time the balance will be depleted. Calls in progress will be terminated by the Company if the balance on the prepaid card is insufficient to continue the call. AT&T Worldwide PrePaid Card balances will be reduced by the appropriate charge for each minute or fractional part of a minute that a call continues.

This plan is an add-on to the international plan of the same name, and is available where billing and technical capabilities exist. Additional terms and conditions can be found in the AT&T Consumer Service Guide located at [www.att.com/serviceguide/home](http://www.att.com/serviceguide/home).

Directory Assistance is available only through the AT&T PrePaid Phone Service platform and is only available for domestic directory assistance requests. Directory assistance requests will be charged basic Directory Assistance rates. An announcement will provide the charge for directory assistance prior to connecting the call.

AT&T PREPAID PHONE SERVICE

1. AT&T Branded Prepaid Phone Cards - Minute/Unit based cards are available in various denominations up to 1200 interstate minutes/units per card, or as otherwise specified by AT&T. Dollar based cards are available in various denominations up to \$100.00, or as otherwise specified by AT&T. AT&T Branded Prepaid Cards, as well as recharged minutes or dollar value of service on these cards, will have a maximum per minute interstate price not greater than 25¢ unless purchased from a vending machine or at a terminal or transportation center, in which case the maximum per minute interstate price will not be greater than 99¢. In-state calls made with AT&T Branded Prepaid Phone Cards may be decremented one minute/unit per minute of talk time. AT&T Branded Prepaid Phone Cards may have an expiration date, as disclosed on the card and/or in the marketing material. AT&T Branded Prepaid Phone Cards may be rechargeable as disclosed on the card and/or in the marketing material. If rechargeable, a recharge convenience fee of up to a maximum of 15% of the recharge amount applies.
2. SmarTalk Prepaid Phone Cards and Prepaid Phone Cards where service is provided by ConQuest- Minute/Unit based cards are available in various denominations up to 1200 interstate minutes/units per card, and Dollar based cards are available in various denominations up to \$100.00, or as otherwise specified. These cards will have a maximum per minute interstate price, excluding surcharges, not greater than 25¢ unless purchased from a vending machine or at a terminal or transportation center, in which case the maximum per minute interstate price, excluding surcharges, will not be greater than 99¢. The following charges will be applied against calls made with a PenniesRule! SmarTalk Prepaid Phone Card: a 79¢ first minute surcharge for calls within the U.S., and a weekly fee of 12¢ beginning 7 days after first use. The following charges will be applied against calls made with a Habla a Mexico SmarTalk Prepaid Phone Card: a weekly maintenance fee of 95¢ after the first call is made, a 30% communication fee of the total value of the call, after each call, and calls more than 15 minutes are charged 50¢. A first minute surcharge of up to \$3.00 will apply to World Touch SmarTalk Prepaid Phone Cards. SmarTalk Prepaid Phone Cards and Prepaid Phone Cards where service is provided by ConQuest are not rechargeable unless otherwise expressly stated on the card or packaging. If rechargeable, a recharge convenience fee of up to a maximum of 15% of the recharge amount applies. SmarTalk Prepaid Phone Cards and Prepaid Phone Cards where service is provided by ConQuest may have an expiration date as disclosed on the card and/or in the marketing material. In-state calls made with cards purchased from a vending machine or at a terminal or transportation center will be decremented one/minute unit for each minute of talk time. All other SmarTalk Prepaid Phone Cards and Prepaid Phone Cards where service is provided by ConQuest may be decremented one minute/unit for each minute of talk time for in-state calls.
