

Key Operational Locations

The key operational location for this deployment will be the Cooper Farms LTD farm office at 32465 Road 755 Grant, NE 69140

The primary use of this connection will be high capacity access to Internet for use in handling business operations of the farm.

Speed testing will be conducted to this location to confirm compliance with required performance standards

In addition to this location, high capacity broadband connectivity will be generally available to the currently unserved locations within the footprint of the fixed wireless project area.
