

February 23rd, 2024

Nebraska Public Service Commission
1200 N St # 300
Lincoln, NE 68508

Dear Commissioners,

I am a network engineer with several years of experience in field deployment, rf design, GIS planning and performance testing of fixed wireless and fiber broadband networks.

I have reviewed Vistabeam's proposals for the 2024 Precision Agriculture Infrastructure Grant Program, and I am personally familiar with the Tarana equipment Vistabeam plans to deploy.

Based on my personal knowledge and review of relevant documents, I hereby attest that the proposed deployment will be able to provide consistent broadband speeds of 100 Mbps download and 20 Mbps upload to the proposed farm site.

I hereby attest to the accuracy and authenticity of this information to the best of my knowledge and belief. I am also available to provide any additional information or documentation as needed.

Please do not hesitate to contact me if you require any additional information or assistance in this matter.

Sincerely,

Eric Meisner
