TREATY WITH THE SAUK AND FOXES, ETC., 1830.

July 15, 1830. | 7 Stat., 328. | Proclamation, Feb. 24, 1831.

Articles of a treaty made and concluded by William Clark Superintendent of Indian Affairs and Willoughby Morgan, Col. of the United States 1st Regt. Infantry, Commissioners on behalf of the United States on the one part, and the undersigned Deputations of the Confederated Tribes of the Sacs and Foxes; the Medawah-Kanton, Wahpacoota, Wahpeton and Sissetong Bands or Tribes of Sioux; the Omahas, Ioways, Ottoes and Missouriias on the other part.

The said Tribes being anxious to remove all causes which may hereafter create any unfriendly feeling between them, and being also anxious to provide other sources for supplying their wants besides those of hunting, which they are sensible must soon entirely fail them; agree with the United States on the following Articles.

ARTICLE 1.

The said Tribes cede and relinquish to the United States forever all their right and title to the lands lying within the following boundaries, to wit: Beginning at the upper fork of the Demoine River, and passing the sources of the Little Sioux, and Floyds Rivers, to the fork of the first creek which falls into the Big Sioux or Calumet on the east side; thence, down said creek, and Calumet River to the Missouri River; thence down said Missouri River to the Missouri State line, above the Kansas; thence along said line to the north west corner of the said State, thence to the high lands between the waters falling into the Missouri and Desmoines, passing to said high lands along the dividing ridge between the forks of the Grand River; thence along said high lands or ridge separating the waters of the Missouri from those of the Demoine, to a point opposite the source of Boyer River, and thence in a direct line to the upper fork of the Demoine, the place of beginning. But it is understood that the lands ceded and relinquished by this Treaty, are to be assigned and allotted under the direction of the President of the United States, to the Tribes now living thereon, or to such other Tribes as the President may locate thereon for hunting, and other purposes.

ARTICLE 2.

The confederated Tribes of the Sacs and Foxes, cede and relinquish to the United States forever, a tract of Country twenty miles in width, from the Mississippi to the Demoine; situate south, and adjoining the line between the said confederated Tribes of Sacs and Foxes, and the Sioux; as established by the second article of the Treaty of Prairie du Chien of the nineteenth of August one thousand eight hundred and twenty-five.

ARTICLE 3.

The Medawah-Kanton, Wah-pa-coota, Wahpeton and Sisseton Bands of the Sioux cede and relinquish to the United States forever, a Tract of Country twenty miles in width, from the Mississippi to the Demoine River, situate north, and adjoining the line mentioned in the preceding article.

ARTICLE 4.

In consideration of the cessions and relinquishments made in the first, second, and third articles of this Treaty, the United States agree to pay to the Sacs, three thousand dollars,—and to the Foxes three

thousand dollars; To the Sioux of the Mississippi two thousand dollars;—To the Yancton and Santie Bands of Sioux three thousand dollars;—To the Omahas, two thousand five hundred dollars;— To the loways two thousand five hundred dollars;—To the Ottoes and Missouriias two thousand five hundred dollars, and to the Sacs of the Missouri River five hundred dollars; to be paid annually for ten successive years at such place, or places on the Mississippi or Missouri, as may be most convenient to said Tribes, either in money, merchandise, or domestic animals, at their option; and when said annuities or any portion of them shall be paid in merchandise, the same is to be delivered to them at the first cost of the goods at St. Louis free of transportation. And the United States further agree to make to the said Tribes and Bands, the following allowances for the period of ten years, and as long thereafter as the President of the United States may think necessary and proper, in addition to the sums herein before stipulated to be paid them; that is to say; To the Bands of the Sioux mentioned in the third article, one Blacksmith at the expense of the United States, and the necessary tools; also instruments for agricultural purposes, and iron and steel to the amount of seven hundred dollars;—To the Yancton and Santie Bands of Sioux, one Blacksmith at the expense of the United States, and the necessary tools, also instruments for agricultural purposes to the amount of four hundred dollars; To the Omahas one Blacksmith at the expense of the United States, and the necessary tools, also instruments for agricultural purposes to the amount of five hundred dollars;—To the loways an assistant Blacksmith at the expense of the United States, also instruments for agricultural purposes to the amount of six hundred dollars; To the Ottoes and Missouriias one Blacksmith at the expense of the United States, and the necessary tools, also instruments for agricultural purposes to the amount of five hundred dollars; and to the Sacs of the Missouri River, one Blacksmith at the expense of the United States and the necessary tools; also instruments for agricultural purposes to the amount of two hundred dollars.

ARTICLE 5.

And the United States further agree to set apart three thousand dollars annually for ten successive years, to be applied in the discretion of the President of the United States, to the education of the children of the said Tribes and Bands, parties hereto.

ARTICLE 6.

The Yanckton and Santie Bands of the Sioux not being fully represented, it is agreed, that if they shall sign this Treaty, they shall be considered as parties thereto, and bound by all its stipulations.

ARTICLE 7.

It is agreed between the parties hereto, that the lines shall be run, and marked as soon as the President of the United States may deem it expedient.

ARTICLE 8.

The United States agree to distribute between the several Tribes, parties hereto, five thousand, one hundred and thirty-two dollars worth of merchandise, the receipt whereof, the said Tribes hereby acknowledge; which, together with the amounts agreed to be paid, and the allowances in the fourth and fifth articles of this Treaty, shall be considered as a full compensation for the cession and relinquishments herein made.

ARTICLE 9.

The Sioux Bands in Council having earnestly solicited that they might have permission to bestow upon the half breeds of their Nation, the tract of land within the following limits, to wit: Beginning at a place called the barn, below and near the village of the Red Wing Chief, and running back fifteen miles; thence in a parallel line with Lake Pepin and the Mississippi, about thirty-two miles to a point opposite Beef or O-Boeuf River; thence fifteen miles to the Grand Encampment opposite the River aforesaid; The United States agree to suffer said half Breeds to occupy said tract of country; they holding by the same title, and in the same manner that other Indian Titles are held.

ARTICLE 10.

The Omahas, loways and Ottoes, for themselves, and in behalf of the Yanckton and Santie Bands of Sioux, having earnestly requested that they might be permitted to make some provision for their half-breeds, and particularly that they might bestow upon them the tract of country within the following limits, to wit; Beginning at the mouth of the Little Ne-mohaw River, and running up the main channel of said River to a point which will be ten miles from its mouth in a direct line; from thence in a direct line, to strike the Grand Nemohaw ten miles above its mouth, in a direct line (the distance between the two Ne-mohaws being about twenty miles)—thence down said River to its mouth; thence up, and with the Meanders of the Missouri River to the point of beginning, it is agreed that the half-breeds of said Tribes and Bands may be suffered to occupy said tract of land; holding it in the same manner, and by the same title that other Indian titles are held; but the President of the United States may hereafter assign to any of the said half-breeds, to be held by him or them in fee simple, any portion of said tract not exceeding a section, of six hundred and forty acres to each individual. And this provision shall extend to the cession made by the Sioux in the preceding Article.

ARTICLE 11.

The reservation of land mentioned in the preceding Article having belonged to the Ottoes, and having been exclusively ceded by them; it is agreed that the Omahas, the loways and the Yanckton and Santie Bands of Sioux shall pay out of their annuities to the said Ottoe Tribe, for the period of ten years, Three hundred Dollars annually; of which sum the Omahas shall pay one hundred Dollars, the loways one hundred Dollars, and the Yanckton and Santie Bands one hundred dollars.

ARTICLE 12.

It is agreed that nothing contained in the foregoing Articles shall be so construed as to affect any claim, or right in common, which has heretofore been held by any Tribes, parties to this Treaty, to any lands not embraced in the cession herein made; but that the same shall be occupied and held by them as heretofore.

ARTICLE 13.

This Treaty, or any part thereof, shall take effect, and be obligatory upon the Contracting parties, so soon as the same shall be ratified by the President of the United States, by and with the advice and consent of the Senate thereof.

Done, and signed, and sealed at Prairie du Chien, in the Territory of Michigan, this fifteenth day of July, in the year of our Lord one thousand eight hundred and thirty, and of the independence of the United States, the fifty-fifth.

PREFILED TESTIMONY OF JASON COOKE

COMES NOW Yankton Sioux Tribe, by and through its counsel Jennifer S. Baker and Conly J. Schulte, and hereby submits the prefiled testimony of its witness Jason Cooke.

1. Please state your name and title for the record
 - a. Jason Cooke, Member of the Yankton Sioux Tribe Business and Claims Committee.
2. Please explain what the Yankton Sioux Tribe Business and Claims Committee is.
 - a. It is the executive body of the Yankton Sioux Tribe that handles day-to-day business of the Tribe. The governing body of the Yankton Sioux Tribe is its General Council, which consists of all tribal members age 18 and up. The Business and Claims Committee takes care of the Tribe's routine business.
3. How long have you been a member of the Business and Claims Committee?
 - a. I am just completing my third two-year term.
4. Have you been authorized to speak on behalf of the Tribe at this proceeding?
 - a. Yes.
5. Why is the Yankton Sioux Tribe interested in this proceeding on the Keystone XL pipeline?

- a. Because the pipeline route would run through land and territory traditionally used by the *Ihanktonwan*, or the Yankton.
6. Do you know what this document is? [Yankton Exhibit 1 Ethnographical Map]
 - a. Yes.
7. Can you please identify this document?
 - a. This is a map showing where the Dakota people, which includes Yankton, lived in the year 1600. It essentially shows our ancestral territory.
8. Will the pipeline cross through Yankton ancestral territory?
 - a. Yes.
9. Why is it a concern that the pipeline will go through Yankton's ancestral territory?
 - a. Because since our ancestors lived on and used that land, there are vast cultural resources that are of significance to us. It is important that those resources not be disturbed by digging into the ground to lay a pipeline or by potential spills that will inevitably occur from the pipeline. In many cases, even digging underneath will disturb the cultural resource.
 - b. In addition, as Indigenous People, we are tied to the land. The land and water are sacred to us. Any destruction or contamination of the land or water would damage this relationship.
 - c. Also, this is particularly concerning for us on behalf of our youth. We as a People have been ignored and our rights and interests have been infringed upon by governments time after time, and this would be just one more example. This is damaging to our youth, mentally. It is discouraging for them to see this type

of disregard for our people and our interests, and it has negative impacts on them and on their mindsets.

10. Does Yankton have interests in any other land near the pipeline route, besides its ancestral territory?

a. Yes.

11. Do you know what this document is? [Yankton Exhibit 2 Royce map showing present-day Nebraska]

a. Yes.

12. Can you please identify this document?

a. It is a map of present-day Nebraska that shows historical tribal land ownership and sessions within the state.

13. Do you know what this document is? [Yankton Exhibit 3 Royce map showing areas 154 and 155]

a. Yes.

14. Can you please identify this document?

a. It is a larger version of the first map that shows the location of the Nemaha Reserve.

15. Where on this map is the Nemaha Reserve?

a. The Nemaha Reserve is identified as “154” and “155” on the map.

16. What is the Nemaha Reserve?

a. The Nemaha Reserve is essentially a reservation that was established pursuant to the Treaty of Prairie du Chien in 1830 for the so-called “half-breeds” of five different tribes, including Yankton. All five tribes jointly owned that land when

the Reserve was established, and the tribes continue to hold interests in that land today.

17. Do you know what this document is? [Yankton Exhibit 4 Treaty of Prairie du Chien of 1830]

a. Yes.

18. Can you please identify this document?

a. It is the Treaty of Prairie du Chien which established the Nemaha Reserve in southeast Nebraska.

19. Can you tell us the significance of the Nemaha Reserve in terms of cultural resources?

a. The Reserve is a part of our history. Because many of our ancestors resided on the Nemaha Reserve lands, those lands are bound to be particularly rich with cultural resources.

20. Do the Nemaha Reserve lands have any other significance to the Tribe?

a. Yes. In addition to untold cultural resources, we also continue to hold usufructuary rights in those lands. That means we have continuing rights, by virtue of the treaty, to hunt, fish, gather, and use the water including the Missouri River on those lands. Those rights have never been extinguished, and they must be protected for our people today. Our Nemaha Reserve lands are right on the Missouri River. They are down river from where the pipeline crosses the South Platte River, and down river from where the South Platte River runs into the Missouri River. If the pipeline were to impact the South Platte, through a spill or otherwise, then those effects would be carried down river to the Missouri River where the Missouri borders our Nemaha Reserve

lands. Our cultural resources and other interests in the Nemaha Reserve lands will be threatened by a potential spill because the South Platte River will carry toxins from a spill down river to where the Missouri River borders the Nemaha Reserve.

21. Does the Tribe still own an interest in the lands encompassed in the Nemaha Reserve?

- a. Yes. Yankton owns an undivided interest in these lands along with the Iowa Tribe of Kansas and Nebraska, the Otoe-Missouria Tribe, the Omaha Tribe of Nebraska, and the Santee Sioux Tribe of Nebraska.

22. Do you know what this document is? [Yankton Exhibit 5 BIA Report]

- a. Yes.

23. Can you please identify this document?

- a. This is a document from the Bureau of Indian Affairs that shows the Tribe's ownership interest in a parcel of land located within the Nemaha Reserve.

24. What kinds of cultural resources would you expect to find in the land the pipeline would cross in Nebraska?

- a. You would find burials, sacred sites and ceremonial use areas, altars, geoglyphs, stone features, historical trails and trade routes, and gathering areas for medicine and food. For some sites, you can't identify them from the surface. For example, there is a major historic and cultural site for the Yankton in Iowa that was recently found with a shovel test – it was not visible from the surface. You won't always have a visible indication on the surface where a site exists. Many Yankton Sioux tribal members go to the Santee Sioux area for sundance and ceremony, and medicines for these ceremonies are gathered there. There is

a huge population of Natives living in Niobrara, Santee, Scottsbluff, North Platte, Norfolk, and all throughout northeastern Nebraska, including Yankton tribal members, who gather sage and other medicines that would be harmed by the pipeline. There are also individuals who have shared lineage with tribes in Nebraska, as well as intermarriages between Yankton tribal members and members of the Nebraska tribes, including Ponca. Any harm that would affect the Ponca or other Nebraska tribes would therefore affect members of our Tribe.

25. What would happen if those cultural resources were damaged by construction or operation of the pipeline?

- a. Those resources would be permanently destroyed, and they are irreplaceable. A part of our culture and our history would be lost forever, and we cannot afford that as a People. The loss of our culture is particularly impactful on our youth, who need that culture to stay grounded as Dakota people and maintain that identity.
- b. Cultural resources are priceless. There is no amount of money or monetary value that can replace the value of that cultural resource. Our people are connected to these sites, and we feel a tremendous amount of loss when a site is damaged. These sacred sites could be burials. Destruction of sacred sites and burials is a tremendous blow not only to our tribe but to other tribes on the psychological level because it makes people feel like their remains aren't important. The reason our ancestors were buried there is so that they can rest. Disturbing them would disturb their rest. Psychological harm happens when someone digs up a non-Native's grave. We, too, would feel that trauma and

turmoil if our ancestors are disturbed. People have a right to have their sites protected and it seems like that right is negated when it comes to Native people. Although we may not know the precise locations of those sites, we are in tune with them. They have always so important to us that we wanted them protected. Those sites are inherent to our belief system. They're helping us keep an even keel as a people, and to maintain balance. Even though we don't know it in this world, on the spiritual side of things those places and sacrifices made in those sites were done for future generations. When our ancestors prayed with those sites and those burials were put there, those things were done for the generations to come. We must be mindful as *Ihanktonwan* of being good stewards of those sites because they're the reason we're here. Those sites have been set there from time immemorial for our benefit. Those are active prayers. Those sites are tied into our existence of being here today because prayers were made for us to be here today. We have a connection to those sites, which keep us in tune and stable with our environment. When that connection is broken, we are out of harmony, out of balance. The more such depredations occur, the more out of harmony we become. It is also dangerous for workers to disturb those sites because they have prayers, protections, and sacrifice.

- c. The effect on the water is another spiritual and cultural concern. Water is sacred. It is a necessity not only to live, but also for ceremony. If there is oil leakage, will we ever be able to use that water for ceremony? One of our ceremonies is called *inipi*, commonly known as a "sweat." Part of this ceremony involves pouring water on heated rocks so that the lodge fills with

hot water vapor. If the water used has been contaminated, you don't know what will happen when you inhale the vapor during this ceremony but that oil contains serious toxins that I certainly would not want to breathe in. Even though the pipeline river crossing is down-river from Yankton's present-day reservation, we have tribal members who intermarried with members of the tribes in Nebraska. Because those intermarriages include marriages with the Ponca Tribe of Nebraska, any harm to the Ponca would also constitute harm to the Yankton and I incorporate the testimony of the Ponca witness as part of my testimony. Even if water contamination down-river from the Yankton Sioux Reservation might not directly impact those of us on our Reservation, we have family down there who would definitely be affected.

- d. Another concern is what will happen when there is a spill as far as cleanup. With the Keystone I pipeline, there was a leak and they swapped the contaminated soil out with new soil. What if there were sites there and the area had not been surveyed because the oil spread beyond the area of potential effects?

26. Does the Yankton Sioux Tribe have any other concerns about the pipeline?

- a. Yes. The man camps are a huge concern to us because they bring with them violence, drug and alcohol abuse, and even sex trafficking. We don't even know yet where those camps will be located, which makes it hard to assess how big a threat one or more of those camps will pose to our tribal members, but our reservation is relatively close to the pipeline route and offers entertainment that is not widely available, if at all, along the pipeline route.

27. Do you know what this document is? [Yankton Exhibit 6 map of present-day Yankton Sioux Reservation]

a. Yes.

28. Can you please identify this document?

a. It is a map that shows the Yankton Sioux Tribe's present-day reservation and the route of the pipeline through Nebraska.

29. Can you tell us approximately how far the pipeline route is from the Tribe's reservation?

a. I would say approximately 40 miles from the pipeline's closest point which is in South Dakota, and approximately 46 miles from the pipeline's closest point in Nebraska. This is easy driving distance, considering the region and the remoteness of the pipeline route. That is why I am concerned about man camps. Our casino would be a big draw for pipeline workers making large paychecks with down time in such a remote area. Although there are a few casinos in Nebraska, those casinos are not Class III which means that those casinos can only offer forms of bingo – not true slot machines or table games. On the other hand, Yankton's casino is Class III and does offer true slot machines and table games. Yankton's casino will, no doubt, attract a large number of pipeline workers to the Reservation.

b. With those pipeline workers will come drug and alcohol abuse, particularly meth, which would jeopardize our tribal members and especially our youth.

- c. It is also a commonly known fact that sex trafficking is a big problem around these man camps, placing tribal members – again, especially our youth - at grave risk.
- d. It is frightening to think that no fore planning has been done to even recognize what happens when a large influx of non-local workers is forced into rural communities where wide gaps exist in law enforcement. The problem is magnified by cross-jurisdictional problems between reservation and state areas, which are long-standing issues. Many tribes including Yankton do not have tribal/state cross-deputization agreements in order to handle cross jurisdictional major crimes, and tribes generally do not have criminal jurisdiction over non-Indians. Because of this, many major crimes fall through the cracks. Also, what has happened in the Bakken region in North Dakota surrounding man camps there proves that even non-Natives are at risk from the threat of violence posed by man camps.

30. Does this conclude your prefiled testimony?

- a. I reserve the right to supplement my prefiled testimony as well as offer additional testimony during the hearing in this case.

We have a connection to those sites, which keep us in tune and stable with our environment. When that connection is broken, we are out of harmony, out of balance. The more such depredations occur, the more out of harmony we become. It is also dangerous for workers to disturb those sites because they have prayers, protections, and sacrifice.

- c. The effect on the water is another spiritual and cultural concern. Water is sacred. It is a necessity not only to live, but also for ceremony. If there is oil leakage, will we ever be able to use that water for ceremony? One of our ceremonies is called *inipi*, commonly known as a "sweat." Part of this ceremony involves pouring water on heated rocks so that the lodge fills with

hot water vapor. If the water used has been contaminated, you don't know what will happen when you inhale the vapor during this ceremony but that oil contains serious toxins that I certainly would not want to breathe in. Even though the pipeline river crossing is down-river from Yankton's present-day reservation, we have tribal members who intermarried with members of the tribes in Nebraska. Because those intermarriages include marriages with the Ponca Tribe of Nebraska, any harm to the Ponca would also constitute harm to the Yankton and I incorporate the testimony of the Ponca witness as part of my testimony. Even if water contamination down-river from the Yankton Sioux Reservation might not directly impact those of us on our Reservation, we have family down there who would definitely be affected.

- d. Another concern is what will happen when there is a spill as far as cleanup. With the Keystone I pipeline, there was a leak and they swapped the contaminated soil out with new soil. What if there were sites there and the area had not been surveyed because the oil spread beyond the area of potential effects?

26. Does the Yankton Sioux Tribe have any other concerns about the pipeline?

- a. Yes. The man camps are a huge concern to us because they bring with them violence, drug and alcohol abuse, and even sex trafficking. We don't even know yet where those camps will be located, which makes it hard to assess how big a threat one or more of those camps will pose to our tribal members, but our reservation is relatively close to the pipeline route and offers entertainment that is not widely available, if at all, along the pipeline route.

27. Do you know what this document is? [Yankton Exhibit 6 map of present-day Yankton Sioux Reservation]

a. Yes.

28. Can you please identify this document?

a. It is a map that shows the Yankton Sioux Tribe's present-day reservation and the route of the pipeline through Nebraska.

29. Can you tell us approximately how far the pipeline route is from the Tribe's reservation?

a. I would say approximately 40 miles from the pipeline's closest point which is in South Dakota, and approximately 46 miles from the pipeline's closest point in Nebraska. This is easy driving distance, considering the region and the remoteness of the pipeline route. That is why I am concerned about man camps. Our casino would be a big draw for pipeline workers making large paychecks with down time in such a remote area. Although there are a few casinos in Nebraska, those casinos are not Class III which means that those casinos can only offer forms of bingo – not true slot machines or table games. On the other hand, Yankton's casino is Class III and does offer true slot machines and table games. Yankton's casino will, no doubt, attract a large number of pipeline workers to the Reservation.

b. With those pipeline workers will come drug and alcohol abuse, particularly meth, which would jeopardize our tribal members and especially our youth.

- c. It is also a commonly known fact that sex trafficking is a big problem around these man camps, placing tribal members – again, especially our youth - at grave risk.
- d. It is frightening to think that no fore planning has been done to even recognize what happens when a large influx of non-local workers is forced into rural communities where wide gaps exist in law enforcement. The problem is magnified by cross-jurisdictional problems between reservation and state areas, which are long-standing issues. Many tribes including Yankton do not have tribal/state cross-deputization agreements in order to handle cross jurisdictional major crimes, and tribes generally do not have criminal jurisdiction over non-Indians. Because of this, many major crimes fall through the cracks. Also, what has happened in the Bakken region in North Dakota surrounding man camps there proves that even non-Natives are at risk from the threat of violence posed by man camps.

30. Does this conclude your prefiled testimony?

- a. I reserve the right to supplement my prefiled testimony as well as offer additional testimony during the hearing in this case.

DATED this 7th day of June, 2017.
