

**Nebraska Central Telephone Company  
Burwell City Limits Underserved Application  
Attachment F**

**Rate comparability details**

Nebraska Central Telephone Company (NCTC) offers a 100/100 Mbps plan at \$119.95 per month. As stated in the grant application, the planned rate for 100/100 Mbps service in the project area will be not more than \$119.95; the same price as other 100/100 Mbps service offered by NCTC. Additionally, that retail rate will not include usage caps, early termination fees, or lock customers into a particular plan or term. Included in this Attachment is a copy of the internet price sheet from the NCTC website.

### TECH HOME OPTIONS

## A few tips on improving your WI-FI connectivity

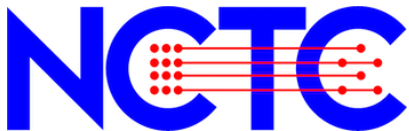

☐ [1-888-873-6282](tel:1-888-873-6282)

☐ Menu

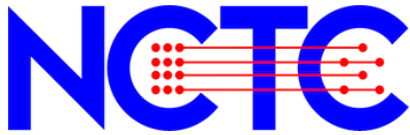

- Position your modem away from refrigerators, microwaves, baby monitors and other devices that emit electronic radiation.
- Keep your modem away from Bluetooth devices, which might operate on the same frequency.
- Avoid mirrors and reflective objects that can deflect router signals.
- Watch for furniture, doors and thick surfaces like concrete that can obstruct signals. Elevate the modem on a shelf or tall furniture.
- Password protect your Wi-Fi so others aren't using your signal.
