Re: Nebraska Broadband Bridge Program Support-NCTC

Dear Mr. Robbins,

Our community is pleased to extend support to Nebraska Central Telephone Company (NCTC) and its application for funding from the Nebraska Broadband Bridge Program.

NCTC has a long history of providing quality services in Dannebrog and have upgraded the broadband speeds available in the rural areas. This grant would allow them to bring the same high-speed internet within village limits. The COVID-19 pandemic has demonstrated the need for high-speed broadband to allow our residents the ability to work from home, participate in online learning, and access healthcare via telehealth.

NCTC provided us a sample Digital Inclusion Plan and we believe it will positively impact broadband adoption and digital literacy in our community.

We are excited about the opportunity to have quality, high-speed broadband available to our citizens and fully support NCTC's grant application to bring fiber-to-the-home to our community. If awarded, we would help ensure that they have all the necessary support from the village to complete this project quickly and efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Carol A. Schroeder".
