Dear Sen. Bostelman:

The purpose of this email is to inform you that Northeast Nebraska Telephone Company (NNTC) intends to apply to the Nebraska Public Service Commission for a Capital Projects Fund grant to provide broadband internet service in Butler County. We are seeking feedback from impacted communities regarding the proposed project.

Please review the details of the proposed project below and provide feedback via the attached Community Feedback Form to the Public Service Commission no later than **April 24, 2023**.

The two areas we'd like to build fiber-to-the-home are for 78 homes and ag-related businesses, covering 25 square miles, east of David City and east of Brainard. We've determined these areas in Butler County are not served by fiber broadband internet. (maps attached)

Northeast Nebraska Telephone Company, headquartered in Jackson is a 100% fiber telecommunications provider. We serve 5,100 internet customers in northeast Nebraska. All customers are offered the same price for our basic three services: internet, TV and landline telephone. The rates in the proposed service area will be the same as those offered to current customers. NNTC is a no contracts, no data caps provider. The company takes the guesswork out of picking a speed for customers and provides the fastest internet speeds available to all customers and offers all internet as a "pay-as-you-go" service. The price is determined by data usage. All residential customers pay \$19.95 per month + 13 cents per GB of data, and all business customers pay \$27.50 per month + 13 cents per GB of data. 66% of NNTC internet customers have a bill below \$50 and 90% of customers have a bill below \$100, each month. NNTC advertises speeds up to 1 GB, upload and download, with a minimum connection of 100/100 Mbps. NNTC will provide the same retail rates in Butler County that are provided in the existing service area.

The proposed project area may also be viewed on the Nebraska Broadband Map, which will be made available on or around March 3, 2023 at <https://psc.nebraska.gov/telecommunications/nebraska-broadband-bridge-program-nbbp>.

If you have questions regarding the proposed project, you may contact me by replying to this email or by calling 402.632.2227.

If you have questions regarding the Capital Projects Fund grant program, please e-mail psc.broadband@nebraska.gov or you may contact the Nebraska Public Service Commission Consumer Advocate during regular business hours (Monday-Friday, 8:00 a.m.-5:00 p.m. CT) by calling 402-471-3101 or toll free in Nebraska at 1-800-526-0017.

Thank you for your time and support.

Sincerely,
Pat McElroy
NNTC General Manager/CEO
