

Nebraska Broadband Bridge Program

Company: Skywave Wireless, Inc.

Project: Bancroft Village

Document: Attachment L

Skywave has been in contact with Cuming County and the Village Board of Bancroft. Financial support for the project has been discussed with both parties. It seems likely that support of some value may be provided if projects are awarded. Due to the time constraints of this application period, no formal decisions have been made.

For the purposes of this application, Skywave will, even without any additional Village or County funds provide the indicated match amount in this application for completion of the project.
