Re: Black Hills Nebraska Gas, LLC, d/b/a Black Hills Energy  
2022 Annual Commodity-Related Bad Debt Cost Adjustment  
Applicable to Nebraska Rate Schedules and Other Charges;  
Charges for Miscellaneous Services

Dear Ret. Col. Golden:

Black Hills Nebraska Gas, LLC, d/b/a Black Hills Energy (“BHE”) files herewith the original and one paper copy of a change in rates to be charged to Suppliers participating in BHE’s Choice Gas Program under Rate Schedules and Other Charges; Charges for Miscellaneous Services. The change in rates submitted with this filing reflects a decrease in the overall Supplier Fee of \$0.022 due to a decrease in the commodity-related bad debt component of the Supplier Fee, as explained further below. The change in rates reflected in the tariff sheet submitted with this filing is being made in accordance with the requirements of Sheet No. 136 of BHE’s Nebraska Natural Gas Tariff. BHE proposes that said tariff sheet shall become effective on June 1, 2022.

Pursuant to Tariff Sheet No. 136, BHE is required to file, by February 15 of each year, a recalculation of the Residential and Commercial commodity-related bad debt cost reflected in the Supplier Fee, with the cost adjustment to be effective on June 1 of the year of filing.

The commodity-related bad debt cost component of the Supplier Fee is calculated to equal the commodity-related bad debt write-offs for the preceding calendar year, divided by the projected number of Choice Gas customer bills for the ensuing program year. Consistent with the Tariff, a balancing account calculation is not made to reconcile costs and recoveries. As shown by the calculation attached hereto as Exhibit A, the commodity-related bad debt cost to be included in the Supplier Fee, effective June 1, 2022, is \$144,954, resulting in a decrease in the bad debt component of the Supplier Fee from \$0.172 to \$0.150. As shown on the tariff sheet in Exhibit B, this decreases the overall Supplier Fee from \$1.266 to \$1.244, effective June 1, 2022.

Exhibits A and B are attached to this letter. Exhibit A shows the calculation to support the change in rates reflected in Tariff Sheet No. 136. Exhibit B contains the red-lined version and final version of Tariff Sheet No. 136 that, by this filing, BHE proposes to be made effective June 1, 2022.

Exhibits A and B, and this transmittal letter, are also being provided electronically in .pdf format by email.

Please contact me at (402) 858-3561 if you have any questions or need additional information.

Respectfully submitted,

/s/ Tyler E. Frost

SUPPLIER FEE	Applicable to Choice Program Suppliers in Rate Area 5		
		Administration 1/	\$1.094
		Bad Debt 2/	\$0.150
		Total Supplier Fee	\$1.244

---

- 1/ This is a fixed fee, per month, per customer billed for each supplier in the Residential and Commercial Choice Gas Program.
- 2/ The Bad Debt cost portion of the Supplier Fee shall be determined by dividing the total Residential and Commercial Choice Gas Program supplier commodity bad debt write-offs debited to Account No. 144, Accumulated Provision for Uncollectible Accounts during the prior calendar year, by the number of customers billed. The change in this portion of the fee shall be filed with the Commission for their approval by February 15 of each year.
- 3/ This fee is charged to each Residential and Commercial Choice Gas Program participating supplier each month based on the number of customers billed for that supplier.
- 

**SALES/ENERGY  
OPTIONS  
CONVERSION  
FEE**      Applicable to Commercial or Small Industrial Firm Customers in Rate Areas One, Two, and Three, electing service under the Energy Options Program, or High Volume Transportation Service, during the effective dates of the Cold Weather Gas Cost Recovery Mechanism approved by the Commission. 1/

The Sales/EO Conversion Fee is a one-time fee, based on the date conversion is implemented, based on a calculation that incorporates the following components: (a) the customer's past natural gas monthly usage over a recent 12-month period, (b) each trailing month during the 12-month period applied to correspond to the remaining number of months remaining in collection of the February 2021 Cold Weather Event costs, and (c) then applying the February 2021 Cold Weather Event surcharge, effective at date of conversion, to that anticipated gas usage. 1/ Amounts collected will be credited to the Cold Weather Gas Cost Recovery Mechanism.

---

- 1/ Energy Options Program Transportation Service (EO) detailed on Sheet Nos. 85 to 86. February 2021 Cold Weather Event surcharge, effective 12/01/2021, \$0.16586 per therm.
