

# Business Internet and Metro Ethernet

Don't Let Slow and Unreliable Internet Service Impact Your Business.

## The Backbone of Superior Internet Service

- 100% fiber connection
- Reliable, Symmetrical and fast to keep your business up and running
- Synchronous speeds of 500 Mbps, 1 GIG, or faster
- Dependable, redundant connections
- Low latency and jitter

## Connect Multiple Locations or Employees Homes with Metro Ethernet

- Metro Ethernet makes connecting employees easy
- Choose the speed to fit your needs – 10Mbps, 100Mbps, 1 GIG, or faster
- Reduce equipment costs and save with bundled services
- Count on secure, private LAN connections, such as E-line, E-LAN

## Why Fiber?

- Increase productivity and efficiency
- Collaborate more easily and effectively
- Fast and reliable
- Symmetric speeds for upload and download
