

National Telecommunications and Information Administration (NTIA) Middle Mile Grant Program (MMG) Contingency

In October 2022, ALLO applied for funding from the National Telecommunications and Information Administration (NTIA) Middle Mile Grant Program (MMG) to build middle mile fiber throughout portions of rural Lancaster County. The results of the MMG Program will be announced no earlier than March 1, 2023 but should be announced prior to grants awards being made from this CFP Grant Program.

If ALLO's MMG Program Application is funded, ALLO intends to amend this application to remove the portion of its Transport Costs funded by the MMG Program (\$194,789) from its Grant Amount Requested. **\$135,000 of ALLO's Transport Costs were not applied for in the MMG Program application and will not be removed if ALLO is awarded the MMG Program grant.**
