

A funding breakdown for the grant must be attached in Excel format. This should include a proposed budget reflecting a clear and detailed breakdown of cost elements based on total allowable project costs. This should also include the total grant amount requested (up to 50% of estimated eligible costs, but not greater than \$5,000,000).

Please see the funding breakdown in **Attachment H.1**.

ALLO Communications plans to develop a number of communities in Lancaster County as we currently have fiber to the premise serving roughly 90% of the population of the county. ALLO will apply for funding for the rural areas in the upcoming Lancaster County broadband grant later this year. Should ALLO be awarded the same communities in both the Nebraska Broadband Bridge Grant and the Lancaster County Broadband grant, ALLO will not receive overlapping funding. ALLO will modify its requests to either connect additional households at an equivalent funding rate or reduce the amount utilized in the grants. ALLO's goal is to provide fiber service to substantially all residents of Lancaster County.
