

# The Ultimate Wi-Fi That Does It All

With ALLO, you can stream, surf, shop, work, learn, and game all at the same time. Our network can connect 250+ devices that will all operate at top performance. No buffering, no suffering. Just crazy fast internet.

Our internet is crazy fast because our fiber network moves data at the speed of light, which is faster than any other option available when it comes to today's technology.

**Plus, we offer unparalleled upload speeds that match your download speed – does your provider offer that?**

**Fiber powered at the speed of light.**

The ALLO BLAST,  
powered by Wi-Fi 6 technology.
