

February 21, 2023

To Whom it may concern:

As a representative for First State Bank Nebraska, we are very interested in receiving Broadband internet connection at the bank.

The major benefits of broadband internet connections are:

1. Better productivity of our staff with less stress.
2. Faster Internet would allow more users and better Zoom meetings.
3. Stability – knowing when we come to work, we have access to our computer programs.
4. Less Interruptions
5. Reliability and Consistency

Please consider coming into the Filley Community with your Broadband services.

Thank you for your time.

Sincerely,

A handwritten signature in black ink, appearing to read "Lynette J Dorn". The signature is fluid and cursive, with a large loop at the end.
