TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PSC. For example, the 4th revised sheet 14 cancels the 3rd revised sheet 14. Because of various suspension periods, deferrals, etc. the PSC follows in its tariff approval process, the most current sheet number on file with the PSC is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1).

TARIFF FORMAT (continued)

- D. Check Sheets - When a tariff filing is made with the PSC, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in this tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the PSC.

1. DESCRIPTION

(T)

ANPI Business prepaid long distance service is an optional 1+/011+ direct dial long distance service wherein customers submit payments in advance.

The advance payments are placed in the consumer's account and are depleted as long distance charges, applicable surcharges, regulatory assessments, taxes and fees are accrued. If during any month, the total of charges exceeds the monthly advance payments, the customer will hear an announcement that there is no credit available, and the customer will not be able to complete 1+/011+ calls until additional advance payments are received. In addition, several minutes in advance of the depletion of the prepayment, the customer will be advised via announcement. If a consumer does not utilize the full amount of the monthly prepayment, the remaining balance will carry over to subsequent months until the balance is depleted.
