TARIFF FORMAT

- A. Page Numbering – Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new Pages are occasionally added to the Tariff. When a new Page is added between Pages already in effect, a decimal point is added. For example, a new Page added between Pages 14 and 15 would be 14.1.
- B. Page Revision Numbers – Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current Page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Tariff approval process, the most current Page number on file with the Commission is not always the Tariff page in effect.

All revisions made in a given filing are designated by an asterisk (*). The Tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

- (a) In order to safeguard its interests, the Company may require a Customer or potential customer with a proven history of late payments to the Company, or who does not have established credit, to make a deposit prior to or any time after the provision of Service to the Customer to be held by the Company as a guarantee of the payment of rates and charges.
- (b) A deposit may not exceed the actual or estimated rates and charges for the Service for a two-month period. The fact that a deposit has been made in no way relieves the Customer from complying with the Company's requirement as to the prompt payment of bills.
- (c) At such time as the provision of the Service to the Customer is terminated, the amount of the deposit will be credited to the Customer's account and any credit balance which may remain will be refunded. After the Customer has established a one year prompt payment record, such a deposit will be refunded or credited to the Customer account at any time prior to the termination of the provision of the Service to the Customer.
- (d) If the amount of a deposit is proven to be less than required to meet the requirements specified above, the Customer shall be required to pay an additional deposit upon request.

SECTION 2 – RULES AND REGULATIONS (CONT'D)**2.15 Schools and Libraries Discount Program****2.15.1 General**

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase BCE services offered in this Tariff at a discounted rate, in accordance with the Rules adopted by the FCC in its Universal Service Order 97-157, issued May 8, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 *et seq.*

As indicated in the Rules, the discounts will be between twenty (20) and ninety (90) percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.
