Nebraska Public Service Commission
Attn: Cullen Robbins, Director of Telecommunications
1200 N Street, Suite 300
Lincoln, NE 68508

Mr. Robbins,

Consolidated Companies, Inc. has chosen to file for **Nebraska Broadband Bridge Grants for Blaine County**. The projects to be built are fiber networks in the communities of Brewster and Dunning Nebraska. Consolidated has completed the design and project budget for fiber to each of the customer locations. Consolidated is in the process of completing a grant application with the Public Service Commission for these new networks.

The Blaine County commissioners, believe that Consolidated has been a good service provider to our county and villages in the past and highly support this significant economic investment in our county's infrastructure. This investment should provide high speed internet to over **100** customer locations within the 2 villages being upgraded. The commissioners are also pleased that the county courthouse will be included in the Brewster project.

Please find this signed letter as documentation of the commissioners' strong support for the upgrades to be completed during the Brewster and Dunning Fiber to the Home projects.

Sincerely,

Roger Guggenmos - Chairman
Blaine County Commissioners
