TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**3.3 Institutional Operator Assisted Calling**

Institutional operator assisted service allows Inmates to place calls through an automated call processing system. The call processing system prompts the Inmate and the called party such that the call is completed without live operator assistance.

A number of special blocking and screening capabilities are available with institutional operator services provided by Correct Solutions. These capabilities allow Institutions to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the Institution.

- Solutions.
- Calls to "900", "976" or other pay-per-call services are blocked by Correct Solutions.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**3.3 Institutional Operator Assisted Calling, (Cont'd.)****3.3.2 Institutional Automated Collect Service**

Institutional Automated Collect Service is provided for use by inmates and other incarcerated persons in Correctional Institutions.

Service may be limited by the administrators of the institutions as to availability, call duration or calling scope. Calls are billed to the Called Party via the presubscribed local exchange carrier. The Called Party must actively accept charges for the call. Unless otherwise specified, usage rates apply to each call. Calls are billed in full minute increments. (T)

Institutional Automated Collect Service allows inmates to make collect calls to terminating locations anywhere within in the state subject to any restrictions imposed by the correctional or confinement facility. An automated system prompts the caller and the called party through instructions. The called party must accept responsibility for payment of the charges by dialing the designated digit for acceptance. If a call is not accepted within five (5) seconds of the automated voice recording prompt, the automated recording is replayed a second time. If an acceptance digit is not received five (5) seconds after the second recording is completed, the call is automatically terminated.

Use of the automated collect calling service is subject to the rules and regulations of the Commission and the institution's administrative restrictions.

SECTION 3 - DESCRIPTION OF SERVICE, (CONT'D.)**3.3 Institutional Operator Assisted Calling, (Cont'd.)****3.3.3 Prepaid Institutional Calling Services**

Prepaid Institutional Calling Services provide alternative payment arrangements for inmates in Confinement Institutions. Prepaid Institutional Calling Services are available 24 hours a day, seven days per week. Access to telephone service by an inmate may be subject to time of day and usage restrictions imposed by individual Confinement Institutions. No minimum service period applies.

Network usage for Prepaid Institutional Calls is deducted from the Available Usage Balance in full minute increments. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment.

The called party is automatically informed of the Available Usage Balance remaining in the Prepaid Account prior to acceptance of the call. Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. A reminder message is also provided when the account balance has one minute of usage remaining. All calls must be charged against an account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the account is insufficient to continue the call.
