Additionally, the retail rate will not include early termination fees, we do not do pay-as-you go, metered service, or lock customers into a particular plan or term. While we have data caps, we offer several options to meet the needs of our subscribers. Cox is committed to the ongoing management of its network to improve its service offerings, protect customers, and create new service and feature enhancements for its customers. Cox does not shape, block or throttle Internet traffic or engage in other network practices based on the particular online content, protocols or applications a customer uses or by a customer's use of the network.
