

June 29, 2023

Dear New Neighbor,

We are pleased to let you know that Fastwyre is seeking to bring high-speed fiber broadband to your address should we be successful in securing a Nebraska Broadband Bridge Grant Program award. This grant would support Fastwyre providing internet speeds of 100 megabits per second (Mbps) and up to 1 gigabit per second (Gbps). The attached map illustrates the homes and businesses covered by this application.

Below are highlights of select features of Fastwyre Broadband internet service:

- Buried fiber solution
- Free installation
- 100 Mbps (Megabits per second) for \$59.99 / month (Fastwyre's current retail price)
- Availability of 1 Gbps (Gigabit per second) for \$99.99/ month
- No modem charges
- Enhanced Wi-Fi included in the monthly rate

We are seeking support for our fiber expansion by July 10, 2023 for our Nebraska Broadband Bridge Grant Program application. Acknowledgement of your interest and support is crucial to securing funding from the Nebraska Broadband Bridge Grant Program. We believe this upgrade will not only support the new addresses which may not have service today, it will help the overall community. We have attached additional Frequently Asked Questions (FAQs) to address additional concerns.

By scanning the QR code, you can confirm your address and acknowledge your support to bring you fast, reliable Fastwyre Broadband internet service.

We are excited to serve your area.

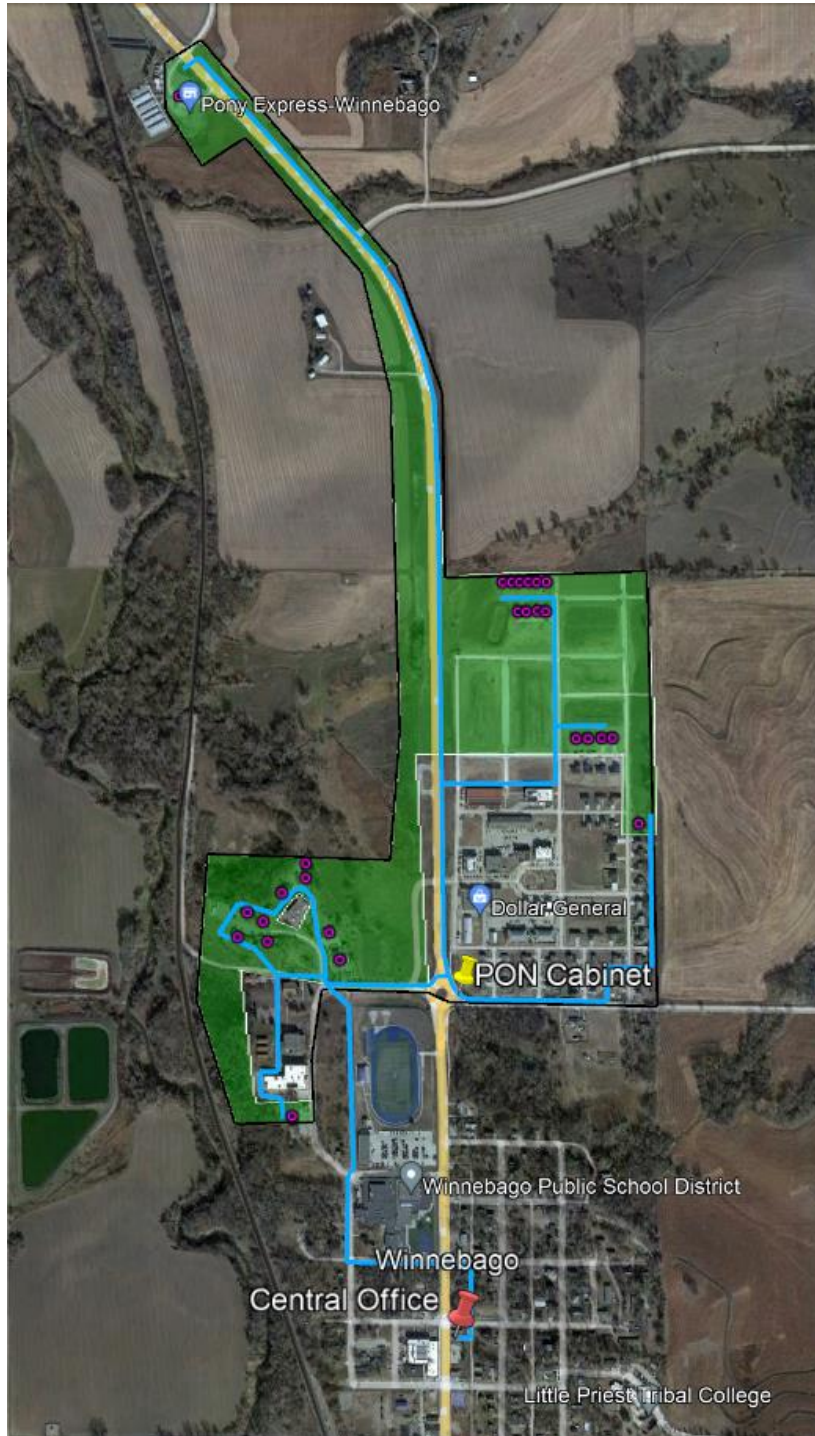

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Nicolay".

Jason Nicolay
Senior Vice President – Corporate Development
Fastwyre Broadband

Frequently Asked Questions

Who is Fastwyre?

We are a local company with long-standing traditions and roots across the United States. We currently provide fiber to the home (and business) to areas of Alabama, Alaska, Louisiana, Missouri, Nebraska and Texas. This year alone we will be expanding our network to 9 additional cities across the United States adding over 39,000 potential subscribers to our growing but hometown presence.

What makes Fastwyre different?

We bring fiber directly into your home and business offering affordable, sensible plans and local service to smaller communities throughout the states we serve.

What services does Fastwyre Broadband offer?

We currently offer fiber to homes and businesses with speeds up to 1 Gbps symmetrical speeds. We also offer TV service with a lineup like those offered by cable companies and satellite providers and phone service.

What about business service? We offer a range of fiber-optic solutions for businesses, educational institutions and public sector organizations of all sizes and industries.

What are we asking you to do? By scanning the QR Code or visiting our website <https://fastwyre.com/winnebago-grant> and completing the form, you are expressing interest and support for Fastwyre Broadband's Nebraska Broadband Bridge Grant Program application. Your interest is a crucial part of securing funding from this program that will allow us to serve you and your community with high-speed fiber internet services.
