Section 2. Rules and Regulations

2.1 Establishment of Service

2.1.1 Application for Service

A. All applications for service will be made in writing at the business office of the Company or by contacting the business office of the company by telephone during normal working hours. A standard application form or service contract shall be completed for which the applicant must provide his or her full legal description, if necessary, of the property to be served. The applicant must be the occupant whose name appears on the lease, rental agreement, or purchase agreement of the property to be served and whose name is listed as the utility holder. These applications become contracts when accepted in writing by the company or upon the establishment of service.

B. The applicant agrees to abide by the rules and regulations of the Company as specified in this tariff on file with the Commission. Any change in rate, rules or regulations shall act as a modification of the contract to that extent, without further notice.

C. It shall be the responsibility of the customers or their agents to provide all easements, information and assistance as may be required by the Company for the installation of service on the customer's property. No service may be established until all easements have been provided without charge to the Company.

D. Except where public safety or lawful emergencies require expeditious handling, the Company will process all applications on a first-come, first-serve basis.

E. Requests from customers for additional service and equipment may be made verbally. Unless otherwise specifically ordered by the company, a move from one location to another within the same exchange area does not terminate the existing contract for service. Orders for such moves may be made verbally.

2.1.2 Credit and Deposit Requirements (cont'd.)

A. The amount of the deposit required for the purpose of establishing a Subscriber's credit shall not normally exceed his estimated bill for exchange service and toll charges for two months service. The Company may require the customer to increase the amount of the deposit at any time if, in its opinion, the charges billed against the Subscriber are found to warrant such an increase.

B. In conformance with the Federal Fair Credit Reporting Act, the Company will make available to applicants and customers upon demand the basis for credit, deposit, disconnect and refusal decisions and will accept corrections in information upon which such decisions are based, if such corrections are true, correct and verified. (M)

C. The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentation; nor constitute a waiver or modification of the regular practices of the Company that provide for the discontinuance of service for nonpayment of any sums due the Company for services rendered. (M)

D. The Company shall pay interest on a deposit at the rate of 7% per annum or at the minimum rate established by the commission. Interest shall accrue following acceptance of the deposit, except that no interest need be paid on deposits held less than thirty (30) days. (M)

2.1.2 Credit and Deposit Requirements (cont'd.)

E. In the case of residential service, the deposit and accrued interest shall be refunded upon request of the customer after twelve (12) consecutive months of payment by the bill due date and refunded automatically after twenty-four months of consecutive payment by the bill due date. In the case of business service, the deposits shall be refunded after thirty-six (36) consecutive months of payment by the bill due date. Deposits may be refunded sooner at the Company's option. The company shall not be required to pay interest on a deposit for the period following ninety days after disconnection of service, if during such period the Company has made a reasonable effort to refund the deposit. Thereafter, an unclaimed deposit, plus accrued interest, shall be credited to an appropriate account.

(M)

F. New and existing residential customers may be allowed to pay deposits or requests for increases in existing deposits in installments over a period of at least three (3) months. For purposes of establishing a refund date when deposits are paid on an installment plan, the date will be the day of receipt of the final installment.

(M)

G. After disconnection of service and receipt of the final payment, the Company will promptly and automatically refund the customer's deposit plus accrued interest, or the balance, if any, in excess of the unpaid bills for service furnished by the Company. When the customer's deposit is applied to an unpaid bill, the Company shall render to the customer a statement showing the bill then due and unpaid, the amount of the deposit, together with the interest accrued thereon and the period covered thereby, and the balance due or remaining to the credit of the depositor.

(M)

H. A transfer of service from one premises to another within the service area of the utility shall not be deemed a disconnection within the meaning of these rules, and shall not necessitate the requirement of a payment of a second deposit, unless a final bill has been issued at the first address and the credit standing of the customer would otherwise require it.

2. the amount and date of the deposit; and
3. each transaction concerning the deposit

2.1.3 Service Charges

B. Service charges will apply to a move of a customer's service from one premise to another.

Section 2. Rules and Regulations (cont'd.)

2.2 Refusal and Disconnection of Service (cont'd.)

2.2.2 Disconnection of Service

A. The Company will not make indiscriminate disconnections without careful investigation of circumstances leading to disconnections. The Company may, however, discontinue service to any customer not abiding by or adhering to the rules and regulations of this tariff. Specifically, the Company has the discretion to disconnect service for any of the following reasons:

1. Failure to pay for services rendered, unwillingness to enter into a reasonable agreement with the Company to begin liquidating the debt, or failure to keep an agreement to liquidate a continuing debt subsequent to reasonable notice by the Company of the intent to disconnect service. This includes instances when the customer of record is not personally responsible for the debt, but is returning service to an indebted household, and fails to keep an agreement to retire the debt of the indebted household.

(a) The Company will enter reasonable agreements to allow extension of a customer account twice in a twelve month period, without service interruption. After two missed payments, the customer is expected to make twelve consecutive, in-full monthly payments or be disconnected.

(b) The Company will enforce the above agreement and grant only one exception. In the case of a life threatening medical condition, service will not be disconnected, if the Company is promptly notified and supplied a physician's statement of verification.

2. Failure to pay an increased deposit as described in Section 2.1.2.B. In the case of a customer who has mounted an extraordinarily high telephone bill for which the customer's existing deposit would not furnish security, the Company may disconnect service before the regular payment period after giving the customer due notice and an opportunity to provide proper payment of the bill.

3. The Company's facilities are damaged, tampered with or repaired by customer.

3.1 Local Exchange and Extended Area Service

3.1.1 Description of Local Exchange Service

Local exchange service is available to the general public. In addition to providing for communication between stations within an exchange area, local exchange service is used to establish and maintain connection between an exchange station and other facilities in connection with interexchange service or extended area service calls.

3.1.2 Description of Extended Area Service (EAS)

A. Extended Area Service (EAS) is interexchange telephone service that is offered in conjunction with Local Exchange Service. If, however, the customer elects to place the calls through a long distance operator or by direct dialing the call using long distance calling procedures, the call will be classified as a toll call and the customer that placed the call, or the customer that accepted charges for the call, will be billed the applicable toll charges for the call.

B. EAS is not designed for continuous uninterrupted service by a single customer. If a customer is using access line service for EAS on a continuous basis, the customer will be requested by the Company to order leased cable pairs under Section 3.12 of this tariff.

C. In an exchange where EAS is available, it is provided to all customers within the exchange. EAS Service is available in the following exchanges:

This program may be combined with the federal Lifeline Assistance to reduce an eligible customer's monthly rates for local service. (N)
3. Eligible customers may obtain Toll Blocking or Limited Toll Blocking free of charge. Toll Blocking is a service that does not allow any toll calls (1+, or 0+). Limited Toll Blocking provides the customer with limited ability to make toll calls by dialing 0+, and using a calling card, credit card, or prepaid calling card. Billed number screening is applied to all lines equipped with Toll Blocking or Limited Toll Blocking. Billed number screening prevents most third party and collect calls from being charged to the access line. (N)
4. Eligible customers that elect to take Toll Blocking will not be required to pay a service deposit. (N)
5. Service will not be disconnected for nonpayment of toll as long as the eligible customer continues to pay the local service charges. In addition, the Company will not deny re-establishment of local service to customers who are eligible for Lifeline Assistance and have previously been disconnected for non-payment of toll charges. Lifeline Assistance will not be connected if an outstanding balance is owed by the customer for local service. (N)

3. The Telephone Company will keep accurate records of the revenues they forgo in reducing their customary charges as a result of this program in conformity with 47 CFR §54.403 and §54.411. Pursuant to 47 CFR §54.401(d) the Telephone Company will provide the records to the federal Administrator.

If the Company receives notification from the program administrator that the subscriber is receiving Lifeline Assistance from another eligible telecommunications carrier or that more than one member of the subscriber's household is receiving Lifeline Assistance, the subscriber will be de-enrolled from Lifeline Assistance without notice within five (5) business days following the Company's receipt of that notice.
(N)

4. The Company will process all applications and apply the appropriate credit on the customer's monthly bill. A secondary service charge is not applicable for existing customers who subscribe to Lifeline Assistance. (N)

C. Limitations

1. The discounts are applicable only on the end user's principal residence line. (N)
2. Partial payments that are received from Lifeline customers will first be applied to local service charges and then to any outstanding toll charges. (N)
3. One low income credit is available per household, which may be applied towards a qualifying wireline service, broadband service or a bundled voice and data service package. Customers are not eligible to receive a credit from the Company if they receive a Federal Lifeline Program credit for a service provided by another Eligible Telecommunications Carrier or Lifeline Broadband Provider. Section 4. Descriptions of Custom Calling and Advanced Calling Features (cont'd.)

4.2 Advanced Calling Features

Advanced Calling Features allow the customer to efficiently manage communications over their local telephone line. Advanced Calling Features offered by the company include the following:

Advanced Call Waiting lets you turn Call Waiting ON and OFF for a certain time period such as weekly, or for certain days or at certain times, even in 15 minute increments. After that time period, Call Waiting turns back on automatically.

Call Rejection, Anonymous allows a Caller ID subscriber to reject incoming calls which have deployed Caller Number Delivery Blocking.

Call Rejection, Selective allows the customer to create a list of specific phone numbers from which calls will not be accepted. An announcement informs the calling parties on the list that the customer is not receiving calls.

On-Call Manager 3 Ensures that important calls get answered - even after business hours. You control who receives these important calls by simply organizing the online scheduler.

One Number Service Lets customers use a landline number as your one number and then forward those calls to wherever you want - wireless phone, home, vacation home, anywhere. Plus, you keep those other numbers private.

Parental Control Allows you to: set restrictions on additional phone lines for long distance; to block certain per call charges; or to deactivate Three-Way Calling.
