- C. The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentation; nor constitute a waiver or modification of the regular practices of the Company that provide for the discontinuance of service for nonpayment of any sums due the Company for services rendered. (T)  
(T)
- D. The Company shall pay interest on a deposit at the minimum rate established by the Commission. Interest shall accrue following acceptance of the deposit, except that no interest need be paid on deposits held less than thirty (30) days. (T)

- I. A transfer of service from one premises to another within the service area of the Company shall not necessitate the requirement of a payment of a second deposit, unless a final bill has been issued at the first address and the credit standing of the customer would otherwise require it.
- J. In cases of a residential household that is divided due to divorce or separation, the deposit will remain with the residence where the service was being provided prior to such divorce or separation, unless other arrangements are agreed to by both parties.
- K. The Company will keep a record of each cash deposit until the deposit is refunded. The record will show:

- B. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is first distributed to the customers to the day the succeeding directory is first distributed to the customer.
- C. Where the provision of service requires special or non-standard types of arrangements of equipment or makes it necessary to construct or install additional or special facilities or equipment, the Company may require that a written contract be executed between the Company and the customer providing for a minimum contract period of more than one month at the same location.

- E. If a dispute between the customer and the Company occurs regarding any bill, prompt investigation will be made and the results given to the customer. During the investigation, disconnection of service will not occur provided the balance of the bill not in dispute is paid. If the investigation does prove the disputed billing is correct under the regulations of the Commission, and the customer still will not pay the amount due, the Company may then disconnect service. The customer, or the Company, may make application to the Commission for review. Their decision will be final, subject only to legal redress as the parties involved may choose to exercise. The Commission may prohibit such disconnection pending review of the dispute.

3.13.1 Description of 911 Emergency Service

- A. 911 Emergency Service shall mean a telephone service that provides a subscriber with the ability to reach a Public Safety Answering Point (PSAP), for the purpose of reporting emergencies, by dialing the digits 911. A PSAP may be a local fire station, the local police station, the county sheriff's office or some other specified central point as determined by the governing body. The serving arrangement and the type of equipment to be used for the provisioning of 911 Service in a particular 911 area shall be determined by the governing bodies having jurisdiction over such area and by availability of facilities.
- B. This service is limited to the use of 911 as the universal emergency telephone number. The Company will not provide 911 Service to less than an entire central office and will only provide one 911 Service out of that central office.
- C. 911 Service may be one of the following types:
  - 1. Local 911 - A 911 call will terminate to a pre-established location within the local exchange serving area.
  - 2. Basic 911 - A 911 call will be translated to a seven-digit number and will be sent to a specific location as requested by the governing body.
  - 3. Basic 911 with Automatic Number Identification (ANI) - A 911 call will be transferred to a specific location where the subscriber's telephone number will appear at the PSAP.
  - 4. Enhanced 911 (E911) - A 911 call will be transferred to a specific location where the subscriber's telephone number, Automatic Number Identification feature (ANI), and the subscriber's location, Automatic Location Identification feature (ALI), will appear at the PSAP.
- D. Access lines used for 911 Service are classified as Business Access Lines and are arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis or on non-911 facilities.

SECTION 3. SERVICES AND APPLICATION OF RATES AND CHARGES

3.13 911 Service

3.13.2 Establishment of Service

- A. Applications for 911 Service must be executed in writing by each participating governing body.
- B. A contract must be signed by the governing body before the 911 Service will be provided and before any new equipment will be purchased by the Company to provide the 911 Service.
- C. The 911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.

3.13.3 Purpose of 911 Service

- A. 911 Service is• furnished to the customer for the sole purpose of receiving reports of emergencies from the public. The 911 emergency telephone number is not intended as a replacement for the telephone service of the various public safety agencies which participate in the use of this number. The public safety agencies must subscribe to other exchange telephone service as provided in other sections of this tariff.
- B. 911 Service is provided solely for the benefit of the customer operating the 911 Service. The provision of 911 Service by the Company shall not be interpreted, construed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third party or legal entity other than the customer.

SECTION 3. SERVICES AND APPLICATION OF RATES AND CHARGES

3.13 911 Service

3.13.4 Responsibilities of the Customer

- A. Because the Company's serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by central offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- B. It is the customer's responsibility to insure that Customer Premises Equipment (CPE) selected to operate 911 system features is compatible with service furnished by the Company. Any CPE used in conjunction with 911 Service shall be configured so that it is unable to extract any information other than the information relating to a number identified as the source of an in-progress 911 call through the use of the ANI feature.
- C. The rates charged for 911 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects or malfunctions in the service, nor does the Company undertake such responsibility. The customer shall make such operational tests to determine whether the system is functioning properly. The customer shall notify the Company promptly in the event the system is not functioning properly.
- D. The Company does not undertake to answer and forward 911 calls, but provides facilities to enable the customer's personnel to respond to such calls from the customer's premises.
- E. It is the responsibility of the governing body requesting or implementing the 911 Service to notify all subscribers of any charges associated with the 911 Service, the location of the PSAP, and the rule governing a subscriber's "Right to Privacy." In return for the forwarding of subscriber information to the PSAP, all subscribers using a 911 Service will relinquish their "Right to Privacy" upon making 911 calls. In the case of 911 service being discontinued by the governing body, customers shall be notified of new dialing instructions at least 30 days in advance.
- F. The 911 Service customer assumes all risks connected with the service, including service interruption or failure of call completion, whether resulting from network failure, network blockage or from any other cause.

The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credit that may be given for an out-of-service condition as specified in this tariff.
- B. The 911 Service customer agrees to release, indemnify, defend and hold harmless the Company from any and all loss, claims, demands, damages, expenses, suits or other action, or any liability whatsoever, including, but not limited to, costs and attorney's fees, whether suffered, made, instituted or asserted by the customer or by any other party or person, for personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others, arising out of or resulting from the customer's acts or omissions.
- C. The 911 Service customer agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Service and the equipment associated therewith, including, but not limited to, the identification of the telephone number used by persons accessing 911 Service, and which arises out of the negligence or other wrongful act of the 911 customer, its users, agencies or municipalities, or the employees or agents of any one of them.

- E. Either the governing body or the subscriber will assume the charge for the 911 call if routed over a long distance line. If dedicated lines are used to route the call, the monthly charge for the dedicated lines will be the same as shown in the Lincoln Telephone Company Access Tariff.
