INTRASTATE INTEREXCHANGE TOLL CARRIER SERVICE

1.0 DEFINITION OF TERMS

For the purpose of this tariff, the following definitions shall apply:

Access Line

A dedicated arrangement which connects a customer location to the Carrier's NSC.

Administrative Change

The modification of an existing circuit, dedicated access line or port, at the request of the customer, that involves changes in authorization codes, route guide, consolidation of billing, verification of testing performed by parties other than Carrier, or any other administrative change not covered by a Billing Record Change (See below for definition).

Application for Service

A standard Carrier order form which includes all pertinent billing, technical and other descriptive information which will enable Carrier to provide the communication service as required. The order form may be completed by Carrier using information obtained by telephone from the customer.

Authorization Code

A numerical code, one or more of which is made available to customers requiring identification of individual users or groups of users on his/her account and to allocate the costs of their services accordingly.

1.0 DEFINITION OF TERMS, (Continued)

Authorized User

A person, firm, corporation or other entity authorized by a customer to receive or send communications. Authorization includes, without limitation, 1) the use of the customer's Authorization Code where the Authorization Code has been made known to the user by the customer, its employees or agents, and 2) the use of customer's phone when Equal Access Dialing is used.

Bandwidth

The total frequency band, in hertz, allocated for a channel.

Billing Record Change

A change in customer billing address or a change from one billing package to another using the same access method.

Cancellation of Order

A customer initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion.

Carrier

Global Crossing Telecommunications, Inc., unless otherwise specified.

Carrier Recognized Holidays

New Year's Day	Observed on January 1
Fourth of July	Observed on July 4
Labor Day	Observed on first Monday of September
Thanksgiving Day	Observed on last Thursday of November
Christmas Day	Observed on December 25

Circuit Termination

The point at which Carrier's circuit originates, terminates, or drops for the insertion or removal of a customer's signal.

1.0 DEFINITION OF TERMS, (Continued)

Company

Global Crossing Telecommunications, Inc.

Customer

The person, firm, corporation or other entity which orders service, including the ordering or use of Equal Access Dialing, -- either for its own use, as an Other Common Carrier, or as a nonprofit manager of a sharing group -- and which is thereby responsible for the payment of charges and for compliance with the Carrier's tariff regulations. For billing purposes, a customer is considered to be an account.

Customer-Provided Terminal Equipment

Terminal equipment, as defined herein, provided by a customer.

Dedicated Access Service

Service which provides the customer with an exclusive dedicated connection between the customer's premises and the Carrier's terminal location.

Dial Access Service

Service which provides the customer with access to the Carrier's network via customer provided or secured telephone line or lines.

Disconnection

The disconnection of an installed circuit, dedicated access line, or other dedicated facility used for existing service.

INTRASTATE INTEREXCHANGE TOLL CARRIER SERVICE

1.0 DEFINITION OF TERMS, (Continued)

Equal Access Dialing

The use of service through local telephone company's access facilities allowing the customer to access Carrier's NSC through either a "1+" or a 10XXX dialing sequence. Customers using Equal Access Dialing shall be billed to the telephone number from which the Equal Access Dialing originates.

Expedited Service Order

A service order which, in compliance with a customer's request, is completed in a time period shorter than the Carrier's standard service interval.

Installation

The connection of a circuit, or dedicated access line, for new or additional service.

Interexchange Carrier

A person, firm, corporation or entity regulated by the FCC or by any state public utility commission which sells communication services to the public for profit, including resellers.

Joint User

A person, firm, or corporation designated by the customer as a user of communication facilities furnished to the customer by the Carrier, and to whom a portion of the charges for such facilities are billed under a joint user arrangement.

Metered Service

Long distance, measured time, and distance sensitive communications service.

Network Switching Center (NSC)

Any location where the Carrier has a network switch installed.

Network Trunks

Access lines, interswitch trunks, and circuits connecting services and facilities of the Carrier or other carriers to the Carrier's NSC's.

1.0 DEFINITION OF TERMS, (Continued)

Non-Specific Accounting Codes

These codes do not have specific numbers designated by the customer. All numbers from 001-999 are preprogrammed into the switch for these customers. Therefore any 3 digit number entered by the customer will allow the call to be completed.

Off-Network Access Line

A local exchange, foreign exchange, or WATS line connecting both incoming and outgoing traffic from the Carrier's switched service network to the public switched network.

Physical Change

The modification of an existing circuit, dedicated access line or port, made at the request of the customer, requiring equipment or facility rearrangement.

Premises

The space designated by a customer at its place or places of business for termination of the Carrier's service, whether for its own communications needs or for the use of its resale customers. In the case of a non-profit sharing group, this term includes space at each sharer's place or places of business as well as space at the customer's place of business.

Primary Interexchange Carrier

The interexchange carrier designated by the customer or assigned by the local exchange carrier to which outbound, intrastate toll calls are automatically routed without the use of an access code by the customer.

Service Group

One or more dedicated access lines terminated in the same multiline terminating device at the same time.

1.0 DEFINITION OF TERMS, (Continued)

Special Promotional Offering

Special discounts or modifications of its regular service offerings which the Carrier may, from time to time, offer to its customers for a particular service. Such offerings may be limited to certain dates, times and locations.

Specific Accounting Codes

These codes are those numbers which are designated by the customer and entered against a unique trunk type for that customer. If any accounting code other than those designated by the customer are used, the call will not be completed.

Terminal City

Locations where Carrier maintains a terminal facility for purposes of providing service offerings as described herein.

Terminal Equipment

Devices, apparatus and their associated wiring, such as teleprinters, telephone handsets, data sets or dialers.

Terminal Location

Any Carrier facility location from which services described herein are provided.

2.0 SERVICE DESCRIPTIONS AND REGULATIONS

2.1 General Description

2.1.1 Carrier provides intrastate communications long distance toll telephone service to subscriber customers for their direct transmission and reception of voice, data and other types of telecommunications between the areas specified herein. The service is provided to multiple users.

2.1.2 Communications may originate several ways; when the customer dials 1 plus an area code and the desired telephone number; by dialing 10XXX then the desired telephone number; on a dial-up basis by calling the local access number; or from a dedicated access line. When a call is originated using a dedicated access line, the DAL may be provided by the Carrier or the customer. When the customer provides the access arrangement, the Carrier can act as the customer's agent in obtaining access, but must in any event approved the design of any dedicated access facility the customer proposes to use. When a call is originated using a local access number, the Carrier's equipment will answer the access call with a computer tone. The customer may enter his/her authorization number followed by the area code and desired telephone number. In all instances, communication charges will commence and terminate when the Carrier's switch determines that the call has terminated.

2.0 SERVICE DESCRIPTIONS AND REGULATIONS, (Continued)

2.1 General Description, (Continued)

- 2.1.3 The customer's monthly usage charges are assessed based upon the time the customer uses the Carrier's intercity communication facilities as measured by the Carrier's electronic switching equipment, together with his use of service options, if any. Unless otherwise specified, calls will be measured from the time that either the calling or called party disconnects from the call, as indicated by answer supervision. No charge is made for calls not completed. It is never the Carrier's policy to charge a customer for uncompleted calls. A customer may dispute any charges by contacting the Carrier's Customer Service Department and proper credits issued if, upon investigation, the disputed charges are found to be incorrect. For billing purposes, the duration of each call will be rounded as specified in the description of each service option in the following sections. The rates per minute charged for service are set forth in Section 3.
- 2.1.3 At additional cost, and subject to availability, the customer may use accounting codes to identify the users or user groups on the customer's account and to allocate the cost of the customer's service accordingly. The numerical composition of such codes shall be set by the Carrier to assure compatibility with Carrier's accounting and automation systems and to avoid duplication of accounting codes.

2.2 Service Options

The Carrier offers the following service options. The manner in which calls are originated is dependent upon the option selected. All options currently provided are listed below.

2.2.1 Option 1 (Allnet MTS)

One-way, multipoint service, designed for users of equal access service. Option 1 customers may originate calls several ways; by dialing 1 plus an area code and the desired telephone number; by dialing 10XXX then an area code and the desired number; or by dialing a local access number, an authorization code, and then the area code and desired telephone number.

a) Rate Structure

Charges for Option 1 are assessed based on length of call, time of day, and distance. A volume discount may apply as described in Section 3 of this tariff.

b) Usage Charges

The customer's total monthly use of the Carrier's Service Option 1 is charged at the applicable rates per minute set forth in Section 3, which are based on the airline distance between the originating and terminating locations of each call. For each call, the minimum charge shall be the applicable charge for one minute of use. Use in excess of one minute during a call is charged at the applicable rate per minute. Any fraction of an increment is rounded up to the next whole minute.

c) Ancillary Services

Calls made to Directory Assistance telephone numbers are charged on a per call basis.

2.2 Service Options, (Continued)2.2.2 Option 2 (MAXCESS I)

Option 2 is a one-way, intrastate multipoint service, designed for very high volume users. Option 2 customers may originate calls via voice grade special access or high capacity (T1) access arrangement provided by the customer between the customer's premises and Carrier's switch. The Company reserves the right to limit service availability to Option 2 customers with a minimum requirement for 17 voice grade equivalent channels.

a) Rate Structure

Charges for Option 2 service are based on length of call, time of day, and distance.

b) Usage Charges

The customer's total monthly usage of Carrier's Option 2 service is charged at applicable rates set forth in Section 3 and are based on the airline distance between the originating and terminating locations of each call. Usage is measured in six second increments with an eighteen second minimum for each call. Any fraction of an increment is rounded up.

Intrastate Allnet Solution is available for use only in conjunction with interstate Allnet Solution service offerings. Allnet Solution provides customers with a single per minute non-distance sensitive usage rate for all inbound and outbound usage. Solution customers may elect any combination of the following Solution service features:

Solution I	-	LEC-provided dedicated Access;
Solution II	-	LEC-provided switched access, high volume usage;
Solution III	-	LEC-provided switched access, low and medium volume usage;
Solution IV	-	LEC-provided switched access, high volume usage, short duration calls;
Residential Solution	-	uses LEC-provided switched access for high volume, off-hour usage;
Solution 800	-	provides an add-on inbound capability for Solution I, II, III, IV and Residential Solution features.

Customers electing the Solution I feature may originate or receive calls via LEC-provided dedicated access lines. Charges for LEC-provided dedicated access facilities will be billed by the Customer's local exchange carrier. Customers who order Solution II, III IV and Residential Solution features may originate or receive calls on their local business or residential lines; calls may be originated by dialing 1 plus an area code and the desired number; or 10444 plus the area code and telephone number.

2.2.18 Option 18 (Allnet MultipointK 800 Service)

Allnet MultipointK 800 Service is a shared, inward switched service which permits inbound calls, originated by dialing an "800" number to terminate at a MultipointK 800 customer's common line (i.e., business or residential line), provided a valid personal identification routing number (PIRN) is entered by the caller. The MultipointK 800 customer is billed for the calls rather than the call originator. MultipointK 800 intrastate service is only available in conjunction with MultipointK 800 interstate service. MultipointK 800 service completes calls to a Carrier-assigned 800 telephone number. The PIRNs entered by the caller determine the customer-designated telephone number to which the 800 call will terminate.

Each Customer may request any combination of the four digit PIRNs, excluding the PIRNs reserved for special use by the Company. MultipointK 800 service employs shared 800 telephone numbers and, by conversion to MultipointK 800 service, the MultipointK 800 customer releases any ownership or exclusive rights of its 800 telephone number to the Carrier. Under the nonvalidated option, MultipointK 800 customers may receive inbound MultipointK 800 calls even if the calling party enters no PIRN or an incorrect PIRN. Under the validated option, the MultipointK 800 customer may receive MultipointK 800 inbound calls only when the correct PIRN is entered by the calling party.

2.2.24 Flex Connect 8xx

Flex Connect 8xx is a shared, inward switched service which permits inbound calls, originated by dialing an 8xx number to terminate at a MultipointK 8xx customer=s common line (i.e. business or residential line), provided a valid personal identification routing number (APIRN≡) is entered by the caller. The Flex Connect 8xx customer is billed for the calls rather than the originator of the calls. Flex Connect 8xx service completes calls to a Carrier assigned 8xx telephone number. The PIRNs entered by the caller determine the customer designated telephone number to which the 8xx call will terminate. Upon request, from one to a maximum of ten PIRNs may be assigned by the Carrier to the customer excluding the PIRNs reserved for special use by the Carrier. Requests for four or more PIRNs are subject to credit approval by the Carrier. Flex Connect 8xx service employs shared 8xx telephone numbers and, by conversion to Flex Connect 8xx service, the Flex Connect customer releases any ownership or exclusive rights of its 8xx telephone number to the Carrier.

2.2.30 Frontier Voice Virtual Private Network

Frontier Voice Virtual Private Network (AVPN≡) provides the Customer the functionality and capabilities of a private network through the use of shared and/or dedicated transmission facilities, which permits the Customer to establish a communications path between two Customer locations by using a Customer- defined Private Numbering Plan (APNP≡). The following call types are available to Frontier Voice VPN Customers:

- 1) Dedicated to Dedicated: provides PNP type calls between locations linked by dedicated access. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 2) Dedicated to Switched: calls originating from a VPN Customer=s dedicated location and terminate on switched facilities either within or outside the Customer=s PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 3) Switched to Dedicated: calls originating from a switched location within a Customer=s PNP and terminate on a dedicated location within the PNP. All calls are billed in six second increments with a six second minimum for each call. Any fraction of an increment will round up to the next whole increment.
- 4) Switched to Switched: calls originate from a switched location within the Customer=s PNP and terminate on a switched location either within or outside the PNP. All calls are billed in six second increments with a eighteen second minimum for each call. Any fraction of an increment will round up to the next whole increment.

- 5) 8XX Remote access to Switched/Dedicated: calls originate from a switched location via a VPN 8XX remote access number and terminate to a switched/dedicated location within the Customer=s PNP. A VPN personal code is used to verify that the caller is authorized to make VPN calls. The PNP code must be a uniform length not to exceed 10 digits. All 8XX remote access calls are billed in six second increments with a thirty second minimum for each call. Any fraction of an increment will round up to the next whole increment.

Frontier Voice VPN service charges consist of both recurring and non-recurring charges. Recurring charges consist of flat monthly charges and usage-based charges. Flat monthly charges apply whether or not the service is used. Usage charges apply to all completed calls. The usage charges apply to all call types, 24 hours a day 7 days a week. All recurring, non-recurring, volume and term discounts applicable to Frontier Voice VPN service are set forth in Section 3.30 following.

The Frontier Voice VPN Customer must have T-1 access from at least one of their locations into one of the Company=s switches equipped to provide VPN service. Additional connections to the VPN network can be either via dedicated, switched or remote access.

The Customer can originate calls via dedicated access and switched access. With switched access, Customer originated calls are connected to the Company network via a dial access basis. Switched access calls include those originating from the Customer=s VPN lines pre-subscribed to the Company and using 1+ or 1+700 dialing plans.

For a one-time setup charge a Switched Overflow option is available to the Frontier Voice VPN Customer. Switched Overflow will route any call placed from any PNP location terminating to a dedicated PNP location, to a switched plain old telephone service (POTS) number at the dedicated terminating location if the dedicated facility is busy or the network is at capacity. The setup charge applicable to this option is set forth in Section 3.30 following.

Customers may subscribe to Frontier Voice VPN on a one, two or three year term plan and may select from 4 monthly minimum usage levels (MMUL). Beginning with the Customers= fourth invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross account usage is less than the MMUL. Term Plan Customers are eligible to receive tariffed volume discounts set forth in Section 3.30, each month based on its VPN MMUL commitment.

Voice VPN Term Plan Customers whose monthly gross account usage exceeds the next higher MMUL above the level to which the subscriber has committed will receive the discount applicable to the next higher MMUL. Discounts on all monthly gross account usage will be capped at the discount level applicable to the next higher MMUL. Volume discounts are calculated off the Frontier Voice VPN Month-to-Month rates in effect when calls are made. The discounts apply to VPN usage (outbound and remote access) only and do not apply to non-recurring or monthly recurring charges, operator/directory assistance and value added service usage. Volume discounts are not available to Customers subscribing to Frontier Voice VPN Month-to-Month service. In addition, Frontier Voice VPN customers who commit to a service term may receive additional discount credits as set forth in Section 3.30 following. Term plan options will automatically renew for successive periods of one year unless the Customer notifies the Company in writing before the end of their current term that the Customer intends to terminate the agreement at the completion of the term. The Company will notify the term plan customer at least 60 days prior to the end of the current term that the end of their current term is approaching. Customers choosing not to renew their term plan option will be assessed the Frontier Voice VPN Month-to-Month tariff rate currently in effect. A termination fee, equal to the MMUL of the term plan that the Frontier Voice VPN customer is subscribing, times the number of months remaining in the current term will be assessed to customers terminating service prior to the completion of their current term of service. Ez Plan II fifteen (15) and thirty (30) month term plans will automatically renew for successive fifteen (15) month periods unless the Customer notifies the Carrier in writing of their intention to terminate the agreement at the completion of their current term plan. The Carrier will notify the Customer at least 60 days prior to the end of their current agreement that the end of the term is approaching. Customers electing to continue to receive EZ Plan II service without renewing their current term will automatically revert to the current month-to-month tariffed rate. A monthly termination fee, equal to the MMUL of the term plan the EZ Plan II Customer is subscribing to, will be assessed per month for each of the remaining months in the current term when an EZ Plan II Customer terminates service prior to the completion of the full term commitment.

Incentive Plan is a long distance service which provides Customers with single per minute rates for both their inbound (8XX) and outbound (1+) switched and dedicated access usage.

Rate Structure

Incentive Plan switched and dedicated calls are non-distance sensitive, usage based, and flat rated.

Usage Charges

The Customer's total intrastate monthly usage of Incentive Plan (switched, dedicated) service is charged at the applicable per minute rates set forth in Section 3.37 following. Incentive Plan switched inbound (8XX) and outbound (1+) calls are billed in six-second increments with a thirty-second minimum for each call. Incentive Plan dedicated inbound (8XX) and outbound (1+) calls are billed in six-second increments with an eighteen-second minimum for each call. Any fraction of an increment is rounded up to the next whole increment.

Incentive Plan Customers may subscribe to either a Month-to-Month, one-year or two-year term plan. A per minute base rate set forth in Section 3.37 following, is applicable to the inbound (8XX) and outbound (1+) switched and dedicated service plans. There are Minimum Monthly Usage Levels (MMUL) for each (switched, dedicated) term plan option, as set forth in Section 3.37 following. Beginning with the Customer's second invoice, and for the remaining months of any term plan commitment, the Customer will be charged the difference between the gross account usage and the MMUL if the gross usage is less than the MMUL. The MMULs and applicable discounted per minute usage rates are set forth in Section 3.37 following.

2.6 Interconnection

- 2.6.1 Service furnished by the Carrier may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by the Carrier. Service furnished by the Carrier is not part of a joint undertaking with other such carriers. Any special interface equipment or facilities necessary to achieve compatibility between the facilities of the Carrier and other participating carriers shall be provided at the customer's expense.
- 2.6.2. Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of the other carrier's tariffs. The customer is responsible for taking all necessary legal steps for interconnecting his/her customer-provided terminal equipment or communications systems with Carrier's facilities. The customer shall secure all licenses, permits, rights-of-way, and other arrangements necessary for such interconnection.

2.7 Terms and Conditions of Service

- 2.7.1 Service is provided and billed on the basis of a minimum period of at least one month, beginning on the date that billing becomes effective, and continues to be provided until canceled, by the customer, in writing on not less than thirty (30) days notice. Carrier reserves the right to treat a period of non-use of not less than 90 days as a cancellation and to discontinue furnishing service, without notice, after such 90 day period.
- 2.7.2 Service is offered on a monthly basis.
- 2.7.3 For the purpose of computing charges in this tariff, a month is considered to have 30 days.
- 2.7.4 The name(s) of the customer(s) desiring to use the service must be stipulated in the application for service.

Credit allowance for interruptions of service which are not due to the Carrier's testing or adjusting, or due to the negligence of the customer, or to the failure of channels, equipment and/or communications systems provided by the customer, are subject to the general liability provisions set forth in Section 2 herein. It shall be the obligation of the subscriber to notify the Carrier of any interruption in service. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission of the subscriber, not within his control, or is not in the wiring or equipment connected to the terminal of the Carrier.

2.11 Restoration of Service

The use and restoration of service in emergencies shall be in accordance with the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

2.12 Discontinuance by Carrier

2.12.1 The Carrier, by 7 days prior written notice to the customer, may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:

- a) Nonpayment of any sum due to the Carrier for service for more than 30 days beyond the date of rendition of the bill for such service;
- b) A violation of any regulation governing the service under this tariff;
- c) A violation of any law, rule, or regulation of any government authority having jurisdiction over the service;
- d) The Carrier is prohibited from furnishing services by order of a court or other government authority having jurisdiction.

2.13 Cancellation by Customer

If the customer orders services requiring special facilities dedicated to the customer's use and then cancels his/her order before the service begins, or before completion of the minimum period, or before completion of some other period mutually agreed upon by the customer and the Carrier, a charge will be made to the customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of the customer by the Carrier and not fully reimbursed by installation and monthly charges. If, based on such an order, any construction has either begun or been completed, but no service provided, the nonrecoverable cost of such construction shall be borne by the customer. Service will be provided until canceled by the customer, in writing, on not less than thirty (30) days notice.

2.14 Inspection, Testing and Adjustment

2.14.1 Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the requirements of this tariff are being complied within the installation, operation or maintenance of the customer's or the Carrier's equipment. The Carrier may interrupt the service at any time, without penalty to itself, because of departure from any of these requirements except as provided below.

2.14.2 Upon reasonable notice, the facilities provided by the Carrier shall be made available to the Carrier for such tests and adjustments as may be necessary to maintain them in satisfactory condition. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.15 Change in Service Agreement

When a change in service arrangement involves the continued use by the customer of circuits furnished by Carrier, installation charges do not apply to the circuits continued in use. The minimum service period for the circuits contained in use is determined from the date of the initial installation thereof.

2.16 Local Charges

In certain instances, the customer may be subject to local telephone charges or message unit charges in using Carrier's service. Carrier is not responsible for any such local charges imposed directly on the customer by the local telephone company for gaining access to Carrier's intercity network.

2.17 Taxes and Surcharges

Customer will be billed for and is liable for payment of all applicable federal, state and local taxes, surcharges, or other assessments, including such amounts as Carrier may be authorized to pass through to the customer. Such charges shall be shown separately on the invoice.

2.18 Terminal Equipment

2.18.1 The Carrier's facilities and service may be used with or terminated in customer-provided terminal equipment or customer-provided communication systems, such as teleprinters, handsets or data sets. 2.18.2 When such terminal equipment is used, the equipment shall comply with the minimum protective criteria set forth below and shall not interfere with service furnished to other customers. Additional protective equipment, if needed, shall be employed at the customer's expense. When service using local telephone company voice grade facilities is terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the following minimum protective criteria:

- a) When the facilities furnished under this tariff are used in common with local telephone company system services, it is necessary, in order to prevent excessive noise and cross-talk, that the power of the signal applied to local telephone company lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by the Carrier for each application, to be consistent with the signal power allowed on the telecommunications network.
- b) To protect the telecommunications services from interference at frequencies which are above the band of service provided, the Carrier will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to ensure that the input to local telephone company facilities does not exceed the limits indicated:
 - 1) The power in the band from 3,995 Hertz to 4,000 Hertz shall be at least 18 dB below the power of the signal as specified in subsection 2.18.2(a) preceding.

- 4) The power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.
- 5) The power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.

2.18.3 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service to prevent the interruption or disconnection of calls, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2740 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

2.18.4 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in (a) through (d) following:

- a) The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor shall not exceed 0.35 ampere.
- b) The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.
- c) The conductor voltage shall be such that the conductor-to-ground voltage limit in (b) preceding applies to the conductor-to-conductor voltage.
- d) The total weighted rms voltage within the band from 50 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

For Frequencies between	Weighting Factor
50 Hertz and 100 Hertz	$f / 10$
100 Hertz and 300 Hertz	$f / 10$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

2.18 Terminal Equipment, (Continued)

- 2.18.5 The customer shall also comply with the minimum protective criteria generally accepted in the telephone industry and other appropriate criteria as may be prescribed by the Carrier. The customer shall ensure that the customer's terminal equipment is properly interfaced with the Carrier's facilities, that the signals emitted into the Carrier's facilities are of the proper mode, band-width, power, data speed, and signal level for the intended use of the customer, and that the signals do not damage the Carrier's equipment, injure personnel or degrade service to other customers.

If the customer fails to maintain and operate his/her terminal equipment properly, resulting in the occurrence or possibility of harm to the Carrier's equipment, personnel, or the quality of service to other customers, the Carrier may, upon written notice, require the use of protective equipment at the customer's expense. If this fails to produce satisfactory quality and safety of service, the Carrier may, upon written notice, terminate the customer's service.

2.19 Special Service Arrangements

2.19.1 Special Service Description

For the purpose of this tariff, Special Service is deemed to be any request for service for which there is not a prescribed rate in this tariff.

2.19.2 Special Services Regulation

- a) If at the request of the customer, the Carrier obtains facilities not normally used to provide service to its customers, the cost incurred will be billed as a Special Service.
- b) If at the request of the customer, the Carrier provides technical assistance not normally required to provide service, the costs involved will be billed as a Special Service.
- c) Where special signaling, conditioning, equipment or other features are required to make customer-provided equipment efficient and compatible with the Carrier service, the cost of providing these features will be billed as a Special Service.
- d) Special Service charges may be equivalent to the estimated cost of furnishing any such service based upon charges applicable to the service provided including all relevant operating, maintenance and administrative expenses, the cost of providing necessary equipment and materials and all associated installation costs including engineering, labor, supervision and transportation costs.

2.19.3 Non-Routine Installation and/or Maintenance Charge

- a) When at the specific request of the customer, installation and/or routine maintenance is performed outside of the regular business hours, additional Special Service may apply. Special Service charges will be based upon the actual labor, material and other costs incurred by or billed to the Carrier in the provision of these Special Services.
- b) If installation and/or routine maintenance is performed during regular business hours, at the request of the customer for completion of the task, and these circumstances are not the fault of the Carrier, Special Service charges may apply. Such circumstances include, but are not limited to, stand-by in excess of one hour, weekend, holiday or night time cut-over, and additional installation testing in excess of the normal testing required to provide service.

2.20 Credit Regulations

Pursuant to limitations set forth in Section 2.9, 2.10, and 2.12, the following will apply:

2.20.1 Interruption of Service

- a) No credit will be allowed for relinquishing facilities in order to perform routine maintenance.
- b) Credit for failure of service or equipment will be allowed only when such failure is caused by or occurs in facilities or equipment provided by the Carrier. As used in this tariff, all equipment, facilities and/or services for which the Carrier renders a bill for payment are considered provided by the Carrier whether or not the equipment, facilities and/or services are owned and operated by the Carrier.
- c) No credit will be allowed:

For failure of service or equipment due to customer or authorized user-provided facilities;

For failure of service or equipment due to negligence or willful acts of the customer or his/her authorized user;

For unauthorized use by agents, employees, or representatives of the customer.

2.20.1 Interruption of Service, (Continued)

- d) Credit allowance for failure of service or equipment starts when the customer notifies the Carrier of the failure or when the Carrier becomes aware of the failure, and ceases when service has been restored and/or the equipment becomes operational.
- e) The customer shall notify the Carrier of failures of service or equipment and make reasonable attempts to ascertain that the failure is not caused by the customer-provided facilities.
- f) Credit will be allowed only for disabled portions of the service or equipment.
- g) The Carrier, at its option, may deny a customer request for credit in accordance with Carrier's standard credit policy against charges incurred for service provided by another carrier where notification of alleged inferior or inadequate service has not been received by Carrier's Customer Service Department within 24 hours of the occurrence. No credit will be allowed absent such notification.

2.20.2 Outage Credit

- a) For the purposes of this tariff, all months contain 30 days. Service and equipment offered by the Carrier are on a 24 hour per day, seven days per week basis unless specifically stated otherwise.
- b) For purposes of credit computations, every month shall be considered to have 720 hours.
- c) No credit shall be allowed for an interruption of less than 2 hours.

- e) Where a minimum usage charge is applicable and the customer fails to meet a usage minimum, credit for the outage shall be applied against that minimum equal to 1/360th of the monthly minimum charges associated with the portion of service disabled for each period of 2 hours or major fraction thereof.

2.20.3 Cancellation Credit

Where the Carrier cancels a service or the provision of equipment and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge equipment was provided. This credit will be issued to the customer or applied against the balance remaining on the customer's account.

4.0 PROMOTIONAL OFFERINGS

4.1 Promotions

The Company may from time to time engage in special promotional trial service offerings of limited duration, designed to attract new customers or to increase existing customer awareness of a particular tariff offering. Requests for promotional offerings will be presented to the Commission for its review, in accordance with rules and regulations established by the Commission, and will be included in this section.

.1 Max7 Misersm Promotion

Allnet Maxcess III customers who sign up for service between November 1, 1993 and December 31, 1993, may elect to receive (in conjunction with Carrier's interstate Max7 Misersm Promotion) a discount credit of 10% which will be applied for a period of 12 consecutive months to all Maxcess III outbound and inbound calls which are made to the single area code or international country with the highest total usage (in dollars) in the period for which a bill is being calculated. Calls to directory assistance and operator services are excluded from this discount credit. (D)

5.0 SERVICE OPTIONSRECURRING, NON-RECURRING AND ANCILLARY CHARGES, (Continued)5.2 Allnet MobileLine Service

Allnet MobileLine Service is an ancillary service offering which permits cellular customers to access and route to Carrier for their transmission and reception, voice, data, and other types of telecommunications services. Allnet MobileLine Service is available to all Carrier customers in MobileLine geographically serviceable areas, and is only available in conjunction with interstate Allnet MobileLine service. Allnet MobileLine service is comprised of the following charges: a cellular connection charge (CCC), and long distance charges. The CCC applies to all calls that originate or terminate to a MobileLine subscribed cellular telephone, and is applied only on completed calls from the time that the originating party completes dialing the telephone number. In addition to the CCC, long distance charges may apply and are for Carrier on-net calls (call to a land line telephone or to a cellular telephone outside the cellular telephone's home LATA). All MobileLine service calls are billed in one minute increments with a one minute minimum.

Long distance charges are standard Solution II rates, as set forth in Section 3 of the tariff. For other MobileLine customers, Existing directory assistance and operator assisted services rates may apply as long distance charges to all MobileLine customers for calls from MobileLine cellular subscribed telephones. MobileLine telephone numbers are not eligible for any promotional offerings. MobileLine customers will be assessed an Out-of-Home-Area Origination Surcharge which is assessed in addition to other charges when the call originates from an area other than the home cellular system. MobileLine customers are liable for any Out-of-Home Area Origination Surcharges billed to Carrier by any cellular provider and Carrier will then rebill the customers for all such surcharges.
