Provider contact (first and last name): 8 Provider contact (first and last name): 8 Provider e-mail: 9 Provider e-mail: 10. Provider phone number: 11. Legal representative name (must bean antorney ilcensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: 13. Legal representative phone number: 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	3a. Applicant city:		Blair			
4. Applicant contact (first and last name): 5. Applicant e-mail: 6. Applicant phone number: 8. Provider name: 8. Provider contact (first and last name): 8. Provider contact (first and last name): 8. Provider e-mail: 8. Provider e-mail: 8. Provider phone number: 8. Provider phone nu	3b. Applicant state:		NE			
5. Applicant e-mail: kmcguire@gpcom.com 6. Applicant phone number: 812-363-5156 7. Provider name: Great Plains Communications 8. Provider contact (first and last name): Kevin McGuire 9. Provider e-mail: kmcguire@gpcom.com 10. Provider phone number: 812-363-5156 11. Legal representative name (must be an attorney alicensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): nholle@gpcom.com 12. Legal representative e-mail: nholle@gpcom.com 13. Legal representative phone number: 402-456-6445 14. Applicant's Nebraska ETC status: Currently certificated as Nebraska Eligible Telecommunications Carrier (NETC), in good standing the state of Nebraska? 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds urrently available. Also, provide instructions on how to view available	3c. Applicant zip code:		68008			
6. Applicant phone number: 812-363-5156 7. Provider name: Great Plains Communications 8. Provider contact (first and last name): Kevin McGuire 9. Provider e-mail: kmcguire@gpcom.com 10. Provider phone number: 812-363-5156 11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: hnblle@gpcom.com 13. Legal representative phone number: 402-456-6445 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	4. Applicant contact (first and last name):		Kevin McGuire			
7. Provider name: Great Plains Communications Kevin McGuire 9. Provider e-mail: kmcguire@gpcom.com 10. Provider phone number: 812-363-5156 11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro has vice for purposes of this program): 12. Legal representative e-mail: nholle@gpcom.com 13. Legal representative phone number: 402-456-6445 14. Applicant's Nebraska ETC status: Currently certificated as Nebraska Eligible Telecommunications Carrier (NETC), in good standing the state of Nebraska? Yes 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	5. Applicant e-mail: kmcgui		kmcguire@gpcom.	mcguire@gpcom.com		
8. Provider contact (first and last name): 8. Provider e-mail: 10. Provider phone number: 11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: 13. Legal representative phone number: 1402-456-6445 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	6. Applicant phone number:	812-363-5156				
9. Provider e-mail: kmcguire@gpcom.com 10. Provider phone number: 812-363-5156 11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): nholle@gpcom.com 12. Legal representative e-mail: nholle@gpcom.com 13. Legal representative phone number: 402-456-6445 14. Applicant's Nebraska ETC status: Currently certificated as Nebraska Eligible Telecommunications Carrier (NETC), in good standing the state of the applicant currently clearly offer the minimum of at least 100/100 Mbps provided to customers within the State of Nebraska? 15. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	7. Provider name:		Great Plains Comn	nunications		
10. Provider phone number: 11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: 13. Legal representative phone number: 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	8. Provider contact (first and last name)	:	Kevin McGuire			
11. Legal representative name (must be an attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: 13. Legal representative phone number: 1402-456-6445 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	9. Provider e-mail:	kmcguire@gpcom.		com		
attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac vice for purposes of this program): 12. Legal representative e-mail: 13. Legal representative phone number: 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	10. Provider phone number:		812-363-5156			
13. Legal representative phone number: 14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	attorney licensed to practice law in Nebraska or an attorney admitted to practice pro hac		Nick Holle			
14. Applicant's Nebraska ETC status: 15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available 14. Applicant's Nebraska ETC status: 15a. If yes, does the applicant clearly offer the minimum 100/100 Mbps speeds Yes 15a. If yes, does the applicant clearly offer the minimum 100/100 Mbps speeds Yes 15b. Provide the service provider's website: 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	12. Legal representative e-mail:		nholle@gpcom.com			
15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15a. If yes, does the applicant clearly offer the minimum 100/100 Mbps speeds required on their public-facing website: 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	13. Legal representative phone number:		402-456-6445			
report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of Nebraska? 15b. Provide the service provider's website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	14. Applicant's Nebraska ETC status:	Currently certificated as Ne		braska Eligible Telecommunications Carrier (NETC), in good standing.		
website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available	15. Does the applicant currently report through FCC Form 477 speeds of at least 100/100 Mbps provided to customers within the State of			clearly offer the minimum 100/100 Mbps speeds required on their public-facing	Yes	
16. Does the applicant currently participate in FCC's Affordable Yes	website URL that reflects the minimum 100/100 Mbps speeds currently available. Also, provide instructions on how to view available speeds, if not a direct link: 16. Does the applicant currently			m		

17. Does the applicant commit to participating in FCC's ACP program, or subsequently identified subsidy program, for as long as the funded infrastructure is in use?	Yes
18. Applicant's System for Award Management (SAM) Unique Entity Identifier (UEI):	M9GCCPKV1EE5

Section II: Project Details

1. Project name:	Wisner Rural		
Project location description (the cities/ communities where the project(s) will take place):	Rural areas of Wisner, Nebraska		
3. Estimated number of	3a. Unserved (<25/3 Mbps):	3b. Underserved (<100/20	3c. Total:
locations served in project area:	0	Mbps): 380	380
4. Technology type(s) to be deployed in project area:	Fiber to the Home		
5. Current maximum connection speed bandwidth in project area (Mbps):	<100/20	6. Projected minimum connection speeds at completion (Mbps):	100/100
7. Monthly customer rate for proposed 100/100 Mbps service:	\$67.95	7a. Does the rate plan for the proposed project area impose data or usage caps?	No
7b. Does the rate plan for the proposed project area involve throttling speeds after usage limits are reached?	No	7c. Does the rate plan for the proposed project area involve metered or "pay as you go" service model?	No
7d. Does the rate plan for the proposed project area impose early termination fees?	No	7e. Does the rate plan for the proposed project area lock customers into a particular plan or term with a long term contract?	No
8. Maximum speeds all serviceable locations in project area will be capable to be scalable to upon completion:	1 Gbps x 1 Gbps at project completion. Higher speeds as technology/ demand dictates.	9. Expected project completion date:	18 months from award date
10. Project geographic contiguity type:	Contiguous	11. If noncontiguous, are the areas included from the same exchange or adjacent exchanges?	NA
12. Total project costs (based on allowed costs):	\$ 5,008,960.00	13. NBBP grant amount requested:	\$ 5,008,960.00
14. Does the project involve any portion of deployment on tribal land?	No	NOTE: If the answer to 14 is "yes, provided to the Commission no la	•
15. Congressional District in which the project will take place:	Congressional District 1	16. If Congressional District 3, is the project area only serving locations within a city of the second class or village?	NA

Attach/Include:

Please label attachments as follows: "[Applicant Name]_[Project]_[Attachment Letter]." If it is necessary to submit multiple attachments under one attachment letter category, label the attachments to identify the separate attachments. Ex. "[Applicant Name]_[Project]_[Attachment Letter]_2", etc.
A polygon shapefile polygon (.shp) reflecting the project area must be included. Any supporting files necessary to open the shapefile must also be attached. (Attachment Letter: A)
■ A point shapefile which identifies serviceable locations in the project area must also be included. Any supporting files necessary to open the shapefile must also be attached. (Attachment Letter: B)
■ Applicants that answered "Yes" to section I; field 15 should attach documentation that 100/100 Mbps speeds are currently delivered to customers in other areas served by the applicant and that those speeds are advertised. (Attachment Letter: C)
☐ Applicants that answered "Noncontiguous" in section II; field 10, should provide a statement explaining the reasoning for including noncontiguous areas. This should include an explanation regarding what natural connection the noncontiguous project areas have to each other. (Attachment Letter: D)
Technical capability statement: Applicants must include a statement relating to their experience providing broadband, whether they currently provide broadband at the minimum 100/100 Mbps speeds, the useful life of the facilities, and how the project will be resilient and sustainable in the long-term. This statement should also include the number of technical staff that will be dedicated to serving the project area once the project is complete, the level of technical ability of staff, the technological components used and which components may require more frequent repair or replacement, a detailed description of the proposed network architecture including homes passed, fiber miles, and the specific technology to be used to provide service to end users, a description of the applicant's technical capability to meet the requirement to provide a minimum 100/100 Mbps in all locations that receive grant funding, and their plans to meet the minimum statutory technical and speed requirements in place for the NBBP throughout the fifteen-year period, and how the service area will be maintained throughout the useful life of the facilities, and any other relevant technical expertise of the applicant. (Attachment Letter: E)
Rate comparability details: Attach information demonstrating that the retail rates for the proposed service area are comparable to the applicant's rates outside the project area for the same speed tiers of a minimum 100/100 Mbps or next highest tier if 100/100 Mbps is not offered. Additionally, information regarding the terms and conditions offered, and the terms of service must be provided. Specifically, a statement must be provided with the application detailing whether the plan involves data caps, throttling speeds after usage limits are reached, long-term contracts, Early Termination Fees, or metered "pay-as-you-go" service. (Attachmen Letter: F)
A business plan for the proposed network: The business plan should include: a description of any risk factors or legal challenges that must be addressed prior to or during the project in question, such as local zoning, right of way, tribal approval*, and permitting processes, and how the applicant intends to mitigate these risk factors or legal challenges, a financial analysis for the project including cash flow projections for the project for a minimum of 5 years including an explanation of revenue assumptions and take rate, a description of the plans for long-term maintenance of the network built through the grant, disclose any prior receipt of federally awarded grant funds for broadband deployment and provide copies of any past audits of federal awards, and community engagement demonstration. NOTE: Projections that do not reflect positive capitalization should include a written explanation as to how a project will be maintained over the life of the facilities. For projects that involve broadband development on tribal lands, permission from and approval by tribes is required and documentation of the approval must be provided to the Commission no later than April 24, 2023. (Attachment Letter: G)
■ A funding breakdown for the grant must be attached in Excel format. This should include a proposed budget reflecting a clear and detailed breakdown of cost elements based on total allowable project costs. This should also include the total grant amount requested and detail any matching funds committed. (Attachment Letter: H)
\square Non-ETC applicants attach the most current year's audited financial statements. (Attachment Letter: I)
A digital inclusion plan must be attached for consideration. The plan should specify: the applicant's process to consult with community and consider affordability; a description of how the project will meet the objective of providing broadband infrastructure deployment within the project area to directly enable work, education, and healthcare monitoring; a description of how the project

will address a critical need that resulted from or was made apparent or exacerbated by the COVID-19 public health emergency; identify any critical needs of the community intended to be served by the project, and how the project will be tailored to meet those

needs, including the carrier's efforts to ensure members of t and must describe any discounts and/or support programs to impact access to and use of information and communication communities that are the most disadvantaged; include the p subscribers in addition to the availability of Lifeline or Afford conditions of service; include evidence of outreach efforts to organizations, etc.) in the areas they are wishing to serve. (A	o be offered for low-income indictechnologies within the communicing structure of the 100/100 lable Connectivity Program (ACP) orelevant stakeholders (communication)	ividuals; specify how the project will unities it serves, including individuals and Mbps plan being offered to low-income) discounts and any additional terms and
Applications proposing to use technology other than fiber must include an attestation from a qualified engineer describ provide the following: (1) How the proposed spectrum can meriods. Clearly identify the licensed and unlicensed spectrum band, to design the last mile link budgets in both the upload specifications of the expected base station and customer preedge probability of coverage, and cell loading for each relevation infrastructure information used to generate the coverage mantenna orientation, antenna down-tilt, antenna model, antispectrum amount, operating spectrum type, and operating reprepare the coverage maps and how the model incorporates terrain resolution, and clutter resolution. Additionally, for application include: (1) tower location shapefiles for existing and planne and/or existing networks that will be used to meet the BEAD speeds will meet or exceed the required speeds (100/100 Meattachment B. (Attachment Letter: K, K1 (tower locations), a	ping the speed capabilities of the neet or exceed the relevant perform that will be used; (2) Provide and download directions at the emise equipment. Submit assument performance tier; (3) Provide aps for each unique cell including enna system configuration, effect adio technology; (4) Describe the state operating spectrum, antended towers; (2) shapefile polygon of public interest obligations, includes), and showing that coverage	e proposed technology, and should formance requirements at peak usage the calculations used for each frequency cell edge using the technical ptions regarding fading statistics, cell edetailed radio access network (RAN) g longitude, latitude, antenna height, ctive radiated power, operating e underlying propagation model used to na heights, distances, fading statistics, wireless technology, applicants must demonstrating coverage for the planned uding where the upload and download
▲ Match source documentation: A table detailing the confir Documentation of the match source(s) should also be provid certification for community partner match, NUSF census block RDOF deployment, justification for the value of any in-kind confirmation (Attachment Letter: L)	led. This could include but is not ck information (in Excel format),	limited to a signed contribution documentation regarding timeline for
$\hfill\Box$ Other supporting documentation (if applicable), such as s community, supplemental financial information such as the r		
APPLICANT CERTIFICATION: By signing this statement, the a all supporting documents are true and correct. The applicant after receipt of grant funding and commits to maintaining m the applicant will receive support for the fifteen years after all grant requirements, and to comply with all state and fede the applicant agrees not to use equipment prohibited by the application within the project area for a minimum of five year information as prescribed by the Commission, and to completunless granted an extension.	t agrees to offer broadband inte inimum speed capability of 1001 receipt of grant funding. The appearal regulations and requirement FCC within the network, to mainers following completion of the parts.	rnet in the project area for fifteen years Mbps/100Mbps in all locations for which clicant agrees to perform and adhere to as pertaining to this program. In addition, intain the rates reflected in their project, to submit network speed testing
