Match Percentage/Project Details/High-cost Designation

Hershey submits the following document (Attachment M_4) to demonstrate that all census blocks for the Hershey Southeast project are designated as high-cost. Since all census blocks in the Hershey Southeast project area are high-cost, Hershey is eligible for the lower match percentage (25%) for rural, high-cost areas.

Population Density

Based upon the attached map (Attachment A), the area that Hershey intends to serve with the Hershey Southeast project is 48.2 square miles. By serving 118 locations as shown in Attachment B, the location density of the project area is 2.5 locations per square miles.

Speed Additive

Hershey will be able to provide 1000/1000 and 500/500 speeds upon request.

Also included is Attachment M_1, a Project Description Statement, Attachment M_2, a design map with routes and Attachment M_3, a project timeline.
