

Annual 911/E-911 Report

Pursuant to Neb. Rev. Stat. 86-437 (2008 Reissue), local exchange carriers are required to report to the Nebraska Public Service Commission by April 30th of each year the information regarding landline 911 service and landline 911 surcharges. The reporting form is available on the Commission's website: <https://psc.nebraska.gov/telecommunications/annual-report-compliance-information>.

The following are some instructions regarding the reporting form:

- Please use the **2019** form, not a previous year's version, and submit completed electronic form in Microsoft Excel format to kathy.shepard@nebraska.gov .
- Name of Exchange: Please list the name of the exchange (City, town or village) for which the surcharge is being collected. DO NOT use three-digit prefixes. ALL carriers are required to provide this information regardless of whether they are facilities-based or non-facilities-based.
- Local Exchange Carrier or CLEC Name: Provide the name of the telephone carrier completing this report. If you are a reseller, please do not list the name of the LEC.
- Monthly Surcharge Amount: List the surcharge amount collected by the LEC or CLEC on behalf of the local jurisdiction. If the surcharge changed during the reporting period, enter separate records for each surcharge amount and provide the dates that each surcharge amount was in effect.
- PSAP County/City Surcharge Remitted: Please list the name of the PSAP or governing body to which the surcharge revenue was remitted.
- Surcharge Revenue: List the access line count and total surcharge revenue remitted in each month to the PSAP. If the surcharge changed mid-month, enter separate records for each surcharge amount, as noted in "Monthly Surcharge Amount" above.

If you have any questions regarding this report contact Dave Sankey at (402) 471-0265 or dave.sankey@nebraska.gov .
