In addition, MCI may, at the request of the customer institute blocking of telephone stations in order to prevent telephone calls made to annoy, abuse, threaten or harass any person at the called number. MCI will, upon written request by the customer, remove the block. MCI reserves the right to limit the number of requests for blocking per customer. At the request of private payphone owners, MCI will arrange to have direct dial (i.e., completed without the assistance of an operator) calls blocked from the payphone to all locations. In addition to the Directory Assistance charge listed above, the following surcharges also apply: surcharges associated with Option B (Credit Card) calling card calls; and those surcharges associated with

operator assisted calls. The Operator dialed surcharge will not apply to Directory Assistance calls made using an MCI Calling Card. In addition, Directory Assistance calls will not count toward, nor be calculated as part of, any volume discounts offered under Metered Use Service's.

SECTION B - RULES AND REGULATIONS (CONT.)7. PAYMENT ARRANGEMENTS

- .01 The customer is responsible for payment of all charges for services furnished to the customer or its joint or authorized users. Non-recurring charges are payable when the service(s) for which they are specified have been performed. If an entity other than MCI, e.g., another carrier or supplier, imposes charges on MCI, in addition to its own internal costs, in connection with a service for which an MCI non-recurring charge is specified, those charges will be passed on to the customer. Recurring charges which are fixed in amount and not dependent on usage are billed in advance. Usage charges are billed after each usage cycle. Discounts for usage made under the Friends & Family Program begin in the first full billing cycle of participation in the plan. If a member of a Friends & Family Calling Circle discontinues his or her MCI service, only those eligible calls which were made while he or she was a Friends & Family member will receive the Friends & Family discount.
- .02 Reserved for Future Use
- .03 MCI's bills are payable upon receipt. If MCI becomes concerned at any time about the ability of a customer to pay its bills, MCI may require that customer to pay its bills within a specified number of days and to make such payments in cash or the equivalent of cash. MCI may invoice low usage customers every other month unless a customer invoiced in such a manner requests monthly billing. If MCI permits a customer to delay payment beyond 35 days after the date of billing, interest will accrue upon the unpaid amount at the rate of one-and-one-half percent (1.5%) per month, unless such rate is prescribed by law, in which event interest will accrue at the highest rate allowed by law. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer.
- .031 For residential and small business customers, a late payment charge of 1.5% may be assessed on payments not received within 30 days from the invoice date, where capabilities exist. The late payment charge will be applied to the entire unpaid balance of the customer's monthly invoice, including taxes. The late payment charge will not be applied to any disputed portion of the unpaid balance unless the dispute is resolved against the customer. The late payment charge is not applicable to subsequent rebilling of any amount to which a late payment charge has already been applied. Late charges are to be applied without discrimination.
- .04 Applicants for service or existing customers whose financial condition is not acceptable to MCI, or is not a matter of general knowledge, may be required at any time to provide MCI a security deposit, in cash or equivalent of cash, up to an amount equal to the applicable installation charges, if any, and/or up to two months' actual or estimated usage charges for the service to be provided. Such applicants or customers may also be required, at any time, whether before or after the commencement of service, to provide such other assurances of, or security for, the payment of.

SECTION B - RULES AND REGULATIONS (CONT.)7. PAYMENT ARRANGEMENTS (CONT.)

MCI's charges for its services as MCI may deem necessary, including, without limitation, advance payments for service, third party guarantees of payment, pledges or other grants of security interests in the customers' assets, and similar arrangements.^{1/} The required deposit or other security may be increased or decreased by MCI as seems appropriate in the light of changing conditions. In addition, MCI shall be entitled to require such payments in cash or the equivalent of cash. In case of a cash deposit, simple interest at the rate of six percent (6%) annually will be paid for the period during which the deposit is held by MCI, unless a different rate has been established by the appropriate legal authority in the jurisdiction in which the MCI service is provided. At MCI's option, such deposit may be refunded to the customer's account at any time.

- .05 The charges set forth herein for channel terminations contemplate installations made in normal locations and under normal working conditions. Any installations to be made under other circumstances are subject to additional charges.
- .06 If a customer does not give MCI written notice of dispute with respect to MCI's charges within 2 years from the date of the invoice, such invoice shall be deemed to be correct and binding upon the customer.
- .07 In the event the Company incurs fees or expenses, including attorney's fees, in collecting any charges owed the Company, the customer will be liable to the Company for the payment of all such fees and expenses reasonably incurred.

^{1/} When billing and collection for MCI's, Dial "1" and Credit Card, is performed on MCI's behalf by a local exchange carrier, the security deposit requirements set forth in the local tariff of the local exchange carrier will apply to the customer's MCI service, in lieu of the provisions contained herein.

SECTION B - RULES AND REGULATIONS (CONT.)7. PAYMENT ARRANGEMENTS (CONT.)

If not, MCI will mail a check for the balance to the customer if it believes it has a valid address. If MCI is not certain it has a valid address, it will either include a notice with the final invoice, which will be mailed to the customer's last known address, asking the customer to verify the address so that a refund can be done; or, it will contact the customer at that address and request verification. Such verification can be made by calling a designated telephone number or by writing to a specified address. Upon receiving verification, a check for the balance will be mailed. If the final invoice or the notification letter is returned by the post office as undeliverable, or if no response is received within thirty days of mailing, MCI will begin a closed account maintenance charge of \$2.50 per month in the second monthly billing period following the month in which the account was closed. MCI will continue to apply that charge until the customer requests a refund or the balance is exhausted.
- .09 In the event payment is made by check and the customer's check is not honored by the institution on which it was drawn, MCI will impose, and the customer will be required to pay, a \$10 fee, in addition to other remedies available to MCI.

8. CHANGE IN SERVICE ARRANGEMENT

The use and restoration of service in emergencies shall be in accordance with Part 64, Subpart D of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.

SECTION B - RULES AND REGULATIONS (CONT.)10. INSPECTION

MCI may, upon reasonable notice, make such tests and inspections as may be necessary to determine that the requirements contained herein are being complied with in the installation, operation or maintenance of the customer or MCI equipment. Additional protective equipment, where required, shall be at the customer's expense.
- .03 When services using Bell voice grade facilities are terminated in customer-provided terminal equipment, channel derivation devices, or communications systems, the customer shall comply with the minimum protective criteria set forth below:
- .031 When the facilities furnished under this tariff are used in common with Bell System services, it is necessary in order to prevent excessive noise and crosstalk that the power of the signal applied to Bell lines be limited. A single valued limit for all applications cannot be specified. Therefore, the power of the signal in the band above 300 Hertz which may be applied by the customer-provided equipment at the point of termination will be specified by MCI for each application, to be consistent with the signal power allowed on the telecommunications network.

SECTION B - RULES AND REGULATIONS (CONT.)13. TERMINAL EQUIPMENT (CONT.)

- .032 To protect the telecommunications services from interference at frequencies which are about the band of service provided, MCI will specify the acceptable signal power in the following bands to be applied by the customer-provided equipment or communications system at the point of termination to insure that the input to Bell facilities does not exceed the limits indicated:
- the power in the band from 3,995 Hertz to 4,005 Hertz shall be at least 18 dB below the power of the signal as specified in Section 13.031 preceding.
 - the power in the band from 4,000 Hertz to 10,000 Hertz shall not exceed 16 dB below one milliwatt.
 - the power in the band from 10,000 Hertz to 25,000 Hertz shall not exceed 24 dB below one milliwatt.
 - the power in the band from 25,000 Hertz to 40,000 Hertz shall not exceed 36 dB below one milliwatt.
 - the power in the band above 40,000 Hertz shall not exceed 50 dB below one milliwatt.
- .033 Where there is connection via customer-provided terminal equipment or communications system to a Message Telecommunications Service or a WATS service to prevent the interruption or disconnection of all call, or interference with network control signaling, it is necessary that the signal applied by the customer-provided equipment to the interface at no time has energy solely in the 2450 to 2750 Hertz band. If signal power is in the 2450 to 2750 Hertz band, it must not exceed the power present at the same time in the 800 to 2450 Hertz band.

SECTION B - RULES AND REGULATIONS (CONT.)13. TERMINAL EQUIPMENT (CONT.)

- .034 Where such customer-provided equipment or communications system applies signals having components in the frequency spectrum below 300 Hertz, excluding ringing signals, the currents and voltages (including all harmonics and spurious signals) at the interface shall not exceed the limits indicated in B-13.0341 through B-13.0344 following:
- .0341 The maximum rms (root-mean-square) value, including dc and ac components, of the current per conductor will not exceed 0.35 ampere.
- .0342 The magnitude of the peak of the conductor or ground voltage shall not exceed 70 volts.
- .0343 The conductor voltage shall be such that the conductor to ground voltage limit in B-13.0342 preceding is not exceeded. If the signal source is not grounded, the voltage limit in B-13.0342 preceding applies to the conductor to conductor voltage.
- .0344 The total weighted rms voltage within the band from 50 Hertz to 300 Hertz shall not exceed 100 volts. The total weighted rms voltage is the square root of the sum of the products times the square of the rms voltage of the individual frequency components. The weighting factors are as indicated:

<u>for frequencies between</u>	<u>weighting factor</u>
50 Hertz and 100 Hertz	$f^2/10^4$
100 Hertz and 300 Hertz	$f^{3.3}/10^{6.6}$

where f is the numerical value of the frequency, in Hertz, of the frequency component being weighted.

- .04 The customer is responsible for all costs, which may include the expenses of customer personnel, electrical power, etc. at his premises in the provision of the service described herein.

14. ALLOWANCE FOR INTERRUPTIONS

Except as provided for in Sections B-6.04 and C-2 in this tariff which pertain to Directory Assistance and Dedicated Leased Line Services, respectively, and except as provided in Section B-14.024 below, the following credit allowances for interruptions of MCI services will be made:

- .01 For all of MCI's services for which charges are specified on the basis of per minute of use, or on usage of a fraction of a minute, and in which there may be interruption of an individual call, due to a condition in MCI's shared interexchange facilities or in shared access or termination facilities provided by other carriers, which can be remedied by redialing the call:
- .011 A credit allowance will be made for that portion of a call which is interrupted due to poor transmission (e.g. noisy circuit), one-way transmission (one party is unable to hear the other), or involuntary disconnection caused by deficiencies in MCI's service. A customer may also be granted credit for reaching a wrong number. To receive a credit, the customer must notify their Customer Service Representative and furnish information, including the called number, the service subscribed to, the difficulty experienced, and the approximate time the call was placed. Credit allowances will not be made for (1) interruptions not reported to MCI, or (2) interruptions that are due to the failure of power, equipment, systems, or services not provided by MCI. If the customer elects to use another means of communications after one of the above interruptions, or during a period when they are unable to place a call over MCI, the customer must pay the charges for the alternative service used.

SECTION B - RULES AND REGULATIONS (CONT.)

7. ALLOWANCE FOR INTERRUPTIONS (CONT.)

- .012 Where a call has been disconnected, the customer will be given a credit allowance equivalent to the charge for the initial minute of the call made to reestablish communications with the other party. Where a call has been interrupted by poor transmission or one-way transmission, the customer will be given a credit allowance up to an amount equivalent to the charge to the charge for the initial minute of the call to the wrong number if they report the situation promptly to a Customer Service Representative.
- .02 For all of MCI's services which involve dedicated access, dedicated interexchange transmission and/or dedicated termination, for which monthly recurring charges are applied and which may be interrupted for as much as several days, except as provided in B-14.024 below, the customer will be given a credit allowance for an interruption of two consecutive hours or more, as follows:
 - .021 When service is interrupted for a period of less than two hours, no credit allowance will be given.
 - .022 When the service's dedicated interexchange line or lines and/or the access or termination line or lines associated with the service are interrupted for a period of two to twenty-four hours, a credit allowance in an amount equal to one thirtieth of the monthly recurring charge or charges will be given.

SECTION C - SERVICE DESCRIPTIONS AND RATES (CONT.)3. METERED USE SERVICE¹.01 General Description

Metered Use Service offers the use of intrastate communications facilities shared among multiple users, and is provided on the basis of the following service options offered under Metered Use Service. Depending on the options(s) chosen, the customer may select the manner in which calls are originated and terminated, may obtain one-way or two-way service, may enjoy point-to-point or multipoint service, or may originate calls in multiple cities.

Certain Metered Use Service Offerings may involve a recurring monthly minimum charge for intrastate facility usage or an initiation of service fee. A monthly listing of each call and its duration is available as a standard feature. At additional cost, certain Metered Use Service options offer a customer the ability to: (1) identify the users and allocate the cost of his long distance facilities through the use of additional authorization codes, (2) reduce the amount of dialed digits through the use of speed numbers, and (3) receive their call records on magnetic tape.

Under each of the above service options, the individual customer's total monthly charges for their use of the intrastate communications facilities are based upon the total time the customer (account) utilizes such facilities. In that regard, individual intrastate facilities usage charges, as well as other specific charges, discounts and/or features are applicable to each individual service option. When a metered use service call is established in one time-of-day rate application period and ends in another, the rate in effect in each rate application period applies to the portion of the call occurring within that rate application period. A specific description of each of the Metered Use Service options and its recurring and non-recurring charges, features, applicable discounts and service availability is contained in Section C-3. following.

Dial One/Direct Dial and Credit Card customers may enroll in the Friends & Family Program and become eligible for discounts in that program in addition to discounts established elsewhere in this section. These customers are subject to the rates and provisions stated below for the Program.

¹ Effective August 27, 2012, for all residential customers of Metered Use Service, all Calling Card service and Toll Free / 800 service will no longer be available to new customers.

SECTION C - SERVICE DESCRIPTIONS AND RATES (Cont.)3. METERED USE SERVICE (Cont.).16 Option R - (MCI Preferred)

MCI Preferred is a one-way, outbound, multipoint service for single or multi-location customers using Dial "1" origination. In connection with MCI Preferred using Dial "1" Access, Business Calling only as described below, the customer can obtain an inbound 800 termination option. Multiple outbound calling locations will be billed via a single invoice. If applicable, upon enrollment the customer must designate each originating Dial "1" telephone number as either Service Type I or Service Type II, as described below. Outbound MCI Preferred calls may originate from those areas listed in Section C-6, Table II, and terminate in the state. Outbound calls are dialed without the assistance of an MCI Operator and do not include calls as specified in Section C-3.11. Inbound MCI Preferred calls are made through a designated 800 number, and the MCI Preferred customer is billed rather than the call originators. All MCI Preferred calls are subject to a 60-second minimum initial period and are then rounded to the next higher 60 second increment. Intrastate Option R is an add-on to MCI's interstate MCI Preferred service. All terms and conditions, features, discounts, Directory Assistance and fees will apply as described at http://www.mci.com/sb/service_agreement. This schedule applies only to intrastate usage.

The customer can pre-subscribe up to fifty (50) business locations and up to (5) residential locations for each MCI Preferred account. A Service Type I location is defined as all lines associated with a single billing telephone number (BTN) as provided by the local exchange carrier. At each Service Type II location, there can be a maximum of two originating telephone numbers. However there is no limit to the number of originating telephone numbers at a Service Type I location.

SECTION C - SERVICE DESCRIPTIONS AND RATES3. METERED USE SERVICE (CONT.).23 Option X (500 Personal Number Service) 1/

500 Personal Number Service is an inbound voice-grade telecommunications service that permits calling from stations in diverse geographical service areas within the State of Nebraska to a station at one location, or to a set of stations of up to three stations at more than one location in the State of Nebraska locations, based upon pre-established priorities.

For any 500 Personal Number Service call, there are two customers: the "Subscriber" (i.e., the party at whose designated location(s) the 500 Personal Number Service call terminates) and the "Calling Party" (i.e., the party who places the call). Each party is fully and equally subject to all applicable provisions in this tariff which pertain to customers. The Calling Party has three billing options available for this service: Calling Party ANI billing, local exchange carrier calling card, and commercial credit card.

The following types of calls are not permitted using this service: collect; third party billed; and person-to-person.

All 500 Personal Number Service calls are subject to a 60-second minimum duration, with 60-second additional increments. If the computed charge for any call includes a fraction of a cent, the fraction is rounded to the nearest whole cent.

Neither the Subscriber nor the Calling Party is required to designate MCI as his or her Primary Interexchange Carrier (PIC). Each 500 Personal Number Service call will include a recorded or live operator announcement to the Calling Party indicating that MCI is the provider of the service.

Users of 500 Personal Number Service may have access to non-tariffed enhancements (e.g., information services) provided by MCI.

1/ Effective June 1, 1999, this service will no longer be available to new subscribers.

SECTION C - SERVICE DESCRIPTIONS AND RATES3. METERED USE SERVICE (CONT.).23 Option X (500 Personal Number Service) (Continued).231 Basic Service Package

The Basic Service Package, which all 500 Personal Number Service Subscribers receive, includes the following:

- ! Friends & Family 500 Number: Each Subscriber is assigned a 500 number.
- ! Passcode: Each 500 Personal Number Service number is assigned a 6-digit passcode which can be used by the Subscriber to manage service features.
- ! Multiple Numbers: ^{1/} Permits Subscribers to pre-establish in priority up to three telephone numbers in the United States, Puerto Rico, the U.S. Virgin Islands, and/or international locations for the completion of calls placed by Calling Parties to the Subscriber. Numbers will successively be attempted if a busy-signal or answering machine is detected or if the call does not complete after four rings.
- ! Final Message^{1/}: If calls are not completed at any of the three alternate numbers, the call will be sent to a Final Message. The Subscriber may choose among various options for the final message, including a closing message which informs the caller that the Subscriber is not available.
- ! Alternate Number^{1/}: A Subscriber may temporarily override the pre-established priority sequence by designating an alternate number without having to change any of his or her Multiple Numbers. If there is no answer at the alternate number, the call will be forwarded to the Final Message. This feature can be activated and deactivated by the Subscriber.
- ! Call Screening: Call Screening allows a Subscriber to screen calls by prompting the Calling Party to state his or her name, and allowing the Subscriber to accept or redirect the call. This feature can be activated and deactivated by the Subscriber.

^{1/} For these features, calls may not be forwarded to: service numbers (e.g., numbers beginning with 500, 700, 800 or 900); 911; numbers with a 555 prefix; or pay-per-call numbers (e.g., numbers with a 976 prefix).

4. Such additional minutes/units will be charged at the prevailing per minute/unit rate as of the date of recharging. A minimum of ten dollars (\$10.00) and up to a specified maximum amount may be added to the card per each recharge.

In addition to the foregoing, rechargeable cards are also subject to the following terms and conditions:

- Upon recharge, a recharge fee of up to a maximum of fifteen percent (15%) of the recharge value may be assessed.
- Recharge may be accomplished in any of the following manners:
 - i. By direct payment at selected distributors' locations.
 - ii. By credit or debit card using the toll free access number printed on the card and following the audio prompts.
 - iii. By registering the card for "auto-recharge," an expedited recharge process that alerts the consumer when their calling card balance falls below a certain level and offers the option of an automatic recharge in the same dollar amount of the customer's previous recharge.

Recharge methods and availability may be based on distributor's preference. Recharge minutes/units or dollars of service purchased via the toll free access number or through auto-recharge must be paid for with a verified valid credit or debit card.

 - After the number of the called party is dialed, but before the call is completed, the available balance of talk time based upon the telephone number of the called party will be announced to the caller. A Verizon Prepaid Phone Card call will be interrupted with an announcement when the available balance on the card drops to one minute/unit, based on the originating/terminating phone numbers of the call. Once the balance on the card is insufficient to continue, the call will terminate.
 - Credit allowances for interruptions – MCI will credit one minute/unit on a consumer's Verizon Prepaid Phone Card in the event of poor call transmission or call cut off caused by MCI. To receive a credit, the consumer must promptly notify MCI Customer Service of the service problem by calling the Customer Service number printed on the card.
