Box Butte NBBP Grant would supply Fiber To The Home, it would be non-contiguous!

We have been delivering broadband to Box Butte County since 2010, over 12 years we have been building out the rural areas of Box Butte. Mobius is now trying to gain a 90% coverage and connectivity with the 2022 Nebraska Broadband Bridge Project Grant.

Mobius is committed to complete Box Butte County with fiber; the Box Butte County Commissioners have been the biggest proponents to deliver broadband throughout their constituent's county. The Commissioners of Box Butte are very forward thinking and they know this opportunity is so incredibly valuable to the future Economic Development, keeping and bringing residents to Box Butte County and supporting the Entrepreneurs that have rural home based businesses.
