

Duncan Lakes — Current Advertised Speeds

Upon information and belief, several census blocks within the project footprint that may purport to be served according to current Form 477 reports include many locations that remain unserved. Further, upon information and belief, LTD is not in fact offering speeds reported on Form 477 in census blocks within the project footprint. Please see the supporting documents below.

Applicant asserts that areas within the project footprint where AMG Technology Investment Group, LLC d/b/a NextLink Internet (“NextLink”) won RDOF bids are eligible for grants under the Broadband Bridge program. Upon information and belief, NextLink will not be capable of providing broadband and voice services in those areas within two years, as required by the Commission’s Order entered in C-5272 on August 10, 2021, at p. 6. There is no evidence to indicate that NextLink is in a position to deploy fiber-based infrastructure in the project footprint within two years.
