To whom it may concern,

Midstates Data Transport has been an exclusive banking customer of Elkhorn Valley Bank since inception over 6 years ago. Over the years the business has performed very well as they have grown and expanded their fiber and broadband network throughout Northeast Nebraska. Today, we provide operating accounts, an operating line of credit and term loans supporting each year of broadband construction.

In addition to our relationship with Midstates, the shareholders would be considered fiscally responsible and stable. We have great confidence in our dealings with the Company.

We expect Midstates and their management team to continue to grow and excel in the future. We hope to continue to be their lender of choice in future endeavors.

If you have any questions please do not hesitate to contact me.

Best,
