- 1. A description of the proposed broadband project including download/upload speed capabilities which can be provided and a description of the proposed network infrastructure to be deployed.**

This project would provide broadband service at speeds ranging up to 40 Mbps to approximately 34 living units in 16 census blocks in an area around Stonegate Road and County Road J in CenturyLink's Minatare exchange. The project will involve deploying the fiber and the electronics necessary to allow these speeds.

Please see Attachment A.

- 4. An estimated schedule for broadband deployment.**

CenturyLink would start construction on this project 90 days after approval from the Commission, weather permitting, and complete the project within 24 months.
