

September 29, 2021

To Whom It May Concern:

As a member of the area of McCook, I am aware of the current efforts to establish a Fiber network in the region with Pinpoint Communications, Inc., which will bring much-needed technology and service upgrades to our area.

I understand the positive impact that high speed capabilities have had in similar communities in Nebraska as well as how the opportunity costs of not having this access, stresses and limits communities and residents' viability to function, compete, thrive and grow. Currently, I feel there is a lack of infrastructure and availability for advanced, high speed internet capabilities in our community. A fiber network would afford both the residents and businesses of the Rural Area of McCook and Red Willow County the opportunities to work and learn from home as well as grow the local economy.

I support and encourage this partnership and ask that you please consider approving the application grant funding.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brian Esch", is written over the word "Sincerely,". The signature is fluid and cursive, extending to the right with a long, sweeping tail.

To Whom It May Concern:

As a member of the area of McCook, I am aware of the current efforts to establish a fiber network in the region with Pinpoint Communications, Inc., which will bring much-needed technology and service upgrades to our area.

I understand the positive impact that high speed capabilities have had in similar communities in Nebraska. The opportunity costs of not having this access, stresses and limits communities and residents' viability to function, compete, thrive and grow. Currently, I feel there is a lack of infrastructure and availability for advanced, high speed internet capabilities in our community. At Mid-Plains Community College our focal point is for the betterment and success of our students. Our mission here at MPCC is to transform lives through exceptional learning opportunities for the success of each individual student we support. MPCC currently holds the lowest tuition cost for our in-state students while still providing first class opportunities. In order to continue this exemplary education, we must also continue to compete with four-year institutions in every facet. With the recent pandemic highlighting our inadequate infrastructure, the lack of high-speed internet capability in our community is a hardship for our students and their continued success.

Fiber network would afford both the students, residents and businesses of the Rural Area of McCook and Red Willow County the opportunities to seek continued education, work and grow the local economy.

I support and encourage this partnership and ask that you please consider approving the application grant funding.

Sincerely,

Mike Steele
