4. TERMS AND CONDITIONS (Continued).4 Credit

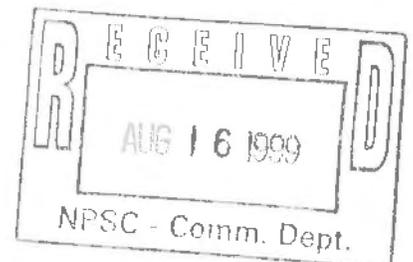

The Company, in order to assure that payment of its charges for service or for loss of or damage to Company property, will require applicants and Customers to establish and maintain credit.

The establishment or re-establishment of credit as provided in this section shall not relieve the applicant or Customer from compliance with other provisions of this tariff as to the payment of bills and shall in no way modify the provisions regarding disconnection and termination of service for failure to pay bills due for service furnished.

If the Company finds that the applicant for service has failed to pay for past due telephone service of the same class provided by any telephone company, the Company may refuse to provide service unless the applicant, at the option of the Company, pays the company's past due bill and/or furnishes a deposit.

In order to insure the payment of all charges due for its service or for loss of or damage to Company property, the Company may require any applicant or Customer to establish and maintain his/her credit in one of the following ways:

- .1 Demonstrating to the satisfaction of the Company that his/her credit is acceptable by providing information which is pertinent to the applicant's credit standing.
- .2 By providing a suitable guarantee in writing, in a form prescribed by the Company.
- .3 By payment of a deposit.

The Company, upon request of its Customers, will provide acceptable options in order to pursue any billing or credit disputes.

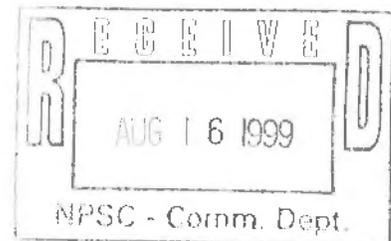

If an applicant for service is unable to provide satisfactory credit information, the Company may refuse to provide service unless the applicant furnishes a deposit.

4. TERMS AND CONDITIONS (Continued).5 Deposits

The Company may, in order to safeguard its interest, require an applicant or a Customer to make a suitable deposit to be held by the Company as a guarantee of the payment of charges for service or for loss of or damage to Company property. The fact that a deposit has been made in no way relieves the applicant or Customer from complying with the Company's regulations and the prompt payment of bills on presentation.

5. Deposits (Continued)

.1 Interest To Be Paid on Deposits

Simple Interest shall be paid on all deposits held by the Company. Interest will be credited or paid to the Customer annually while a deposit is held. The rate of interest is 7% per annum. At the request of a Customer, the Company shall compute the accrued interest upon the deposit and pay such amount to the Customer. The Company need not make such payment more often than once in a twelve (12) month period, nor sooner than twelve (12) months after receipt of a deposit.

A deposit, including any accrued interest held when service is disconnected, is returned to the Customer, less any amounts due the Company after the discontinuance of service, or after twelve (12) months of service, whichever comes first.

Even though a deposit is made, the Customer must still pay bills when requested. A Customer's payment of a deposit does not waive or modify the Company's practice of disconnecting service for failure to pay any bills.

.2 Payment and Refunds of Deposits

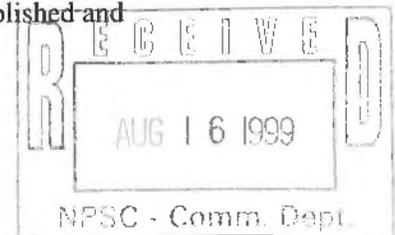

In the event the Customer fails to establish a satisfactory history, deposits are a form of security that shall be required from Customers to ensure payment of bills.

Deposits shall be no greater than twice the estimated average monthly bill for the class of service applied for. In the event a Customer requests services in addition to basic service, the average bill will reflect the aggregate services requested by the Customer.

Interest will be added to the deposit using the interest rate ordered by the Commission.

.3 Failure to Establish Credit or Pay Deposit

The Company may refuse service if satisfactory credit is not established and may deny or disconnect service if a deposit is not paid.

5. PRODUCT DESCRIPTIONS AND RATES**.1 Local Exchange Service**

Local Exchange Service consist of services furnishing switched communication in connection with one-way and/or two-way information transmission points within a Local Calling Area offered pursuant to this tariff. Local Exchange Services provide a Customer with a connection to the public switched network which enables the Customer to:

- .1 Receive calls from other stations on the public switched telephone network;
- .2 Access intraLATA, interLATA, intrastate, interstate and international calling services provided by other certified common carriers;
- .3 Access (at no additional charge) the Company's operator and customer service center for service related assistance; access toll-free telecommunications services such as 800, 888, 877 NPA; and access 9-1-1 service for emergency calling.

If available in the territory of the underlying incumbent local exchange carrier, Local Exchange Services may be used to originate calls to other telephone companies' caller-paid information services (e.g. NPA 900, etc.). Calls to those numbers and other numbers used for caller-paid information services can be blocked by the Company's switch at the Customer's request. Customers that request Call Blocking will be charged as per this tariff.

Local Exchange Service provides an individual access line for the transmission of two way switched voice or data communication within a local calling area. The individual access line is the connecting facility between a Customer's premise and a serving central office that provides Customer access to the switched network for placing and receiving calls. The individual access line also enables the Customer to access the service of long distance carriers.

Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls. Diverted callers will not be billed for intraLATA toll charges.

.7 Return Call

.3 Presubscribed Interexchange Carrier Charge (PICC)

The Primary Interexchange Carrier Charge provides for the recovery of Common Line costs not recovered by the End User Common Line Charge. This charge is only applicable if the Customer does not choose a Presubscribed Interexchange Carrier as per paragraph 92 of the FCC's order on Access Charge Reform, 12FCC Rcd 15982, 16019(1997).

The PICC is a flat monthly charge that applies for each end user's common line or DS-1 facility depending on the service being provisioned. The PICC applies per presubscribed line or DS-1 facility. If the end user line or DS-1 facility is not presubscribed to an Interexchange Carrier, the PICC will be assessed directly to the end user.
