Re: Nebraska Bridge Program/Capital Projects Fund

I am writing in support of Vistabeam's (Incentive Wireless of Nebraska, LLC) proposed broadband deployment project in Lisco, Nebraska. The proposed project would result in the Lisco, Nebraska community having access to high-speed internet at 100/100 mbps. Living in a small, rural community puts us in the heart of the internet desert. The lack of internet access can result in significant disadvantages, including limited access to education, healthcare, job opportunities and other critical services. The importance of internet access to rural communities cannot be overstated and should not be overlooked.

Thank you for your consideration,

A handwritten signature in cursive script that reads "Cindy Bloomfield". The signature is written in dark ink and is positioned above the printed name.
