RE: Vistabeam

To Whom It May Concern:

Vistabeam has been a staple of our community since the late 1990s, and never fails to impress. They are a reputable internet service provider and valued employer in our surrounding areas. Based on our long-standing relationship with Vistabeam, we are in support of Vistabeam's Nebraska Capital Project Fund grant applications for the planned project locations, including Cheyenne County, Garden County, Sioux County, and the towns of Kimball, Lyman, Morrill, Scottsbluff and Sidney. If awarded, the projects would bring these areas broadband connectivity and provide residents with access to high-speed internet. We look forward to continuing our partnership with Vistabeam as it implements these projects.

Please contact me if you have any questions.

Sincerely,

Kristy Petersen
