

Attachment D – Non-Contiguous Statement

This project area is noncontiguous. The noncontiguous area will be connected to the remaining area with fiber that is attributed to another CPF-2 project area for which Vistabeam is applying, Vistabeam_ScottsBluff-NBBP-North_Application. If the other project area does not receive an award, this fiber will be built as part of this project.

We do not have access to a GIS file depicting local exchange areas. It is unclear whether this project overlaps exchange areas.
