

Nebraska Broadband Bridge Program 2021  
Attachment F

Windstream proposes to establish regular consumer rate for the speed tier providing 100/100 Mbps at \$59.99 in the application area. Windstream further certifies that, if this Broadband Bridge Program applications is approved, the regular consumer rate for the speed tier providing 100/100 Mbps service will be at least \$54.99 statewide; this rate will be implemented as soon as possible within Windstream's next logical operations window. Future rates may be subject to change based on market conditions but will conform to affordability margins required by the Public Service Commission.
